The booklet is just 3.5 inches tall and 7 inches long, similar in size to a checkbook, and is spiral bound so it can be opened to any page and folded over while scouting for a particular game. It's made with heavy paper and laminated covers for durability. The guide contains 184 pay schedules for 37 different games, and great care was taken to find the most popular pay schedules across the country, so that this tool is not just for use in Nevada, but also for popular East Coast and Southern games as well. The guide also contains a few pages of instructions on how to read the charts, a table of contents, and an alphabetical listing of games. As a quick explanation, you can see that the payouts are listed for the one-coin payoff, except as noted for specific payoffs requiring a fifth coin. The paying pair is usually jacks or better, but differences are noted wherever they occur, such as for the game of Pick 'Em. There's also a volatility rating, which is a rough measure of what kind of ups and downs you can expect while playing, rated from one to four \$. The return for each schedule is provided, as well as the return for the Multi-Strike and Super Times Pay versions of those games. Finally, an approximate royal progressive breakeven point is listed for both quarter and dollar plays.

**The Smarter Bet Guide to Slots and Video Poker** Basil Nestor, 2004-08 All slot machines are not created equal. Take an invaluable and informative crash course that provides an inside look at actual machine payback comparisons, progressive jackpot evaluation, video poker strategy tables, and many more proven techniques for coming out of the casino victorious...and wealthier. You'll discover what a "loose machine" is and how to detect one, evaluate the casino layout to get the best odds, and avoid the dastardly problem of the malfunctioning machine (and the lawsuits that often come with it). Go on a successful hunt for the 100 percent payback game in video poker. You'll beat the house—and have fun doing it.
