Ballistic Research Laboratories Report Ordnance Corps (Army).,1961

A Third Survey of Domestic Electronic Digital Computing Systems Martin H. Weik,1961 Based on the results of a third survey, the engineering and programming characteristics of 222 different electronic digital computing systems are given. The data are presented from the point of view of application, numerical and arithmetic characteristics, input, output and storage systems, construction and checking features, power, space, weight, and site preparation and personnel requirements, production records, cost and rental rates, sale and lease policy, reliability, operating experience, and time availability, engineering modifications and improvements and other related topics. An analysis of the survey data, fifteen comparative tables, a discussion of trends, a revised bibliography, and a complete glossary of computer engineering and programming terminology are included.

Video and Camcorder Servicing and Technology Steve Beeching,2001-04-11 This book provides fully up-to-date coverage of the whole range of current home video equipment, analogue and digital. As well as essential information for repair and troubleshooting, the author provides clear explanations of the technology of video equipment, which will enable the service engineer to gain a thorough knowledge of the equipment with which they are working. As well as traditional VCRs the scope of Video and Camcorder Servicing and Technology includes the full range of video cameras designed for home use and editing systems, and the latest DVD and hard-disk equipment. The resulting book is an essential bench reference tool for all service engineers, a guide to the technology for a wide range of professionals, and the most comprehensive college text for City & Guilds / EEB and other courses. Steve Beeching's guides to servicing video equipment have long been the definitive texts for service engineers and students. This book is the successor to the classic Servicing Video Cassette Recorder Equipment, which has been the leading PAL-based title on video equipment since 1983. The key to successful servicing of VCRs and camcordersThe first servicing book to cover the new generation of video equipment: DVD and hard disk recording (MPEG2).The practical knowhow of a highly experienced service engineer
