Nala's World Dean Nicholson, 2020-09-29 Discover the nationally bestselling, true story of a life-changing friendship between a man and his rescue cat, Nala, as they adventure together on a bike journey around the world -- from the Instagram phenomenon @1bike1world. When 30-year-old Dean Nicholson set off from Scotland to cycle around the world, his aim was to learn as much as he could about our troubled planet. But he hadn't bargained on the lessons he'd learn from his unlikely companion. Three months after leaving home, on a remote road in the mountains between Montenegro and Bosnia, he came across an abandoned kitten. Something about the piercing eyes and plaintive meowing of the bedraggled little cat proved irresistible. He couldn't leave her to her fate, so he put her on his bike and then, with the help of local vets, nursed her back to health. Soon on his travels with the cat he named Nala, they forged an unbreakable bond -- both curious, independent, resilient and adventurous. The video of how they met has had 20 million views and their Instagram has grown to almost 750k followers -- and still counting! Experiencing the kindness of strangers, visiting refugee camps, rescuing animals through Europe and Asia, Dean and Nala have already learned that the unexpected can be pretty amazing. Together with Garry Jenkins, writer with James Bowen of the bestselling *A Street Cat Named Bob*, Dean shares the extraordinary tale of his and Nala's inspiring and heart-warming adventure together.

**Citizen Canine** David Grimm, 2014-04-08 A pet-lover and award-winning journalist traces the history of cats and dogs and the changing social attitudes that transformed these furry creatures from pests and hunting tools in the middle ages to their current status as beloved family members. 30,000 first printing.

**A Cat's Tale** Dr. Paul Koudounaris, *Baba the Cat*, 2020-11-10 Fun, fanciful, and even informative. —People The first comprehensive history of felines—from the laps of pagan gods to present-day status as meme stars—as revealed by a very learned tabby with a knack for hunting down facts Since the dawn of civilization, felines have prowled alongside mankind as they expanded their territory and spread the myth of human greatness. And today, cats are peddled on social media as silly creatures here to amuse humans with their antics. But this is an absurd, self-centered fantasy. The true history of felines is one of heroism, love, tragedy, sacrifice, and gravitas. Not entirely convinced? Well, get ready, because *Baba the Cat* is here to set the record straight. Spanning almost every continent and thousands—yes, thousands—of years, *Baba's* complex story of feline survival presents readers with a diverse cast of cats long forgotten: from her prehistoric feline ancestors and the ancient Egyptian cat goddess Bastet to the daring mariners at the height of oceanic discovery, key intellectuals in the Enlightenment period, revered heroes from World Wars I and II, and the infamous American tabbies. *Baba*, a talented model in addition to a scholar, goes beyond surface-level scratches, pairing her freshly unearthed research with a series of stunning costume portraits to bring history to life. A paws-on journey through the feline hall of fame, with in-depth research and four-legged testaments that will make you rethink who defines history, *A Cat's Tale* is a one-of-a-kind chronicle that introduces readers to the illustrious ancestors of their closest companions and shows, once and for all, that cats know exactly what they're doing.

Cats' Most Wanted Alexandra Powe Allred, 2014-05-14 The cat is out of the bag. Alexandra Powe Allred has written another fun- and fact-filled book in Potomac's Most WantedOao series, CatsOCO Most WantedOao: The Top 10 Book of Mysterious Mousers, Talented Tabbies, and Feline Oddities. Allred provides fascinating details about the history of the cat, from Greek mythology and medieval superstitions to the modern-day family pet. She also offers loads of trivia about this regal creature from which millions strive to gain affection. Curious about which breed is right for you? Allred has the facts, with lists of the best and worst breeds for kids, most dog-like cats, most unusual breeds, most popular names, and more. CatsOCO Most WantedOao also has tips on how to keep your cat healthy and to correct behavior problems. Believing that cats cannot be trained is the catOCO's joke on us! Allred also gives full details on Hollywood cats, such as Morris the Cat and Morris II, who had an unbelievable ability to stay where he had been put; big cats like the cheetah, the only member of the cat family that is unable to retract its claws, which might play an important role in the animalOCO's speed; and about remarkable rescue stories such as Precious, WestminsterOCO's 2001 OC Cat of the Year, OCO who was discovered on a New York City roof after September 11, suffering from dehydration, burns, eye injuries from flying glass, and smoke inhalation.

Cats in Art Eric Thomsen, Cristina Berna, 2019-09-16 During our research in the Spanish painter Joaquín Sorolla (born in Valencia 1863 - died in Cercedilla 1923) we came across a wonderful painting of his wife with a cat and a dog, Clotilde y gato y perro, from 1910. As animal lovers the idea arose to see, how cats were portrayed in painting around the period of Sorolla. Earlier painters had struggled with getting the proportions right, especially the faces but there was a huge development of talent in Europe in the 19th century. This volume is organized by painter's year of birth, in a few cases by year of painting. Another volume organizes the material alphabetically by painter's name. What is most convenient may depend on the intended use. It proved to be a very rewarding tour of both Europe and Asia. Cats is a great subject and it is impossible to cover Cats in Art in just one short volume. It would make a great exhibition! Nevertheless, we hope that you will enjoy the selection and the masterful skills and talent of these great artists!

*Status and Conservation of the Wildcat (Felis Silvestris) in Europe and Around the Mediterranean Rim* Philippe Stahl, Marc Artois, 1994

*Sarah Cat Loves Cheese! (Part Deux)* CnC Ruggles, 2013-09-09 Sarah, the cheese-loving cat, is at it again! This time this little black cat goes so far as to travel around Europe painting pictures like Picasso, teasing a saber-toothed tiger, taking a trip to the moon, just because she heard it was made of cheese, and heading to the center of the earth. All this for some delicious cheese! Sarah Cat loves cheese so much that cheese is all she ever thinks about. This is why, of course, at night she dreams only of cheese!

*The Wild Cat of Europe. Felis Catus.* Edward Hamilton, 2010-03 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Animal Handling and Physical Restraint C. B. Chastain, 2017-12-01 Key features: Stresses safety in handling, restraint, and containment of animals Covers handling and restraint of all domestic and common tamed animals and provides information on normal animal behavior and welfare Discusses how to recognize signs in animals of poor handling and containment Reviews zoonotic disease risks to animal handlers, particularly from

normal-appearing animals, and how to avoid transmission of disease Features over 200 informative line drawings for clarity and simplicity of illustration Explains how to tie useful knots and hitches and when to use them for restraint Includes basic ethical considerations and legal liabilities of animal handling and containment Presents steps to prevent animal escapes, barn fires, and problems with transport Authored by an experienced veterinary educator in clinical medicine for veterinarians, veterinary students, pre-veterinary students, veterinary technicians and technologists, animal scientists, and animal owners Proper handling and restraint are essential to the welfare of captive animals, allowing them to be examined, groomed and treated in ways that contribute to their optimum quantity and quality of life. The aim of the book is to prepare future or current veterinarians and veterinary technologists, technicians/nurses, and assistants to be able to handle animals more safely and gain the confidence of animals and their owners. In turn, they will be able to instruct owners in proper animal handling methods, reducing the risk of physical injury or mutual infectious diseases. Throughout the book, the author emphasises that each animal is an individual and each handling environment provides its own advantages and disadvantages: handling an animal safely, humanely and efficiently requires practical knowledge of the species' normal behaviour. This is explored in detail in each of the species-based chapters, which cover proper handling of domestic household and laboratory animals, as well as farm and ranch animals where safe handling aids the producer in both humane practice and greater profitability. After reading this book, the practitioner or student will be versed in the most basic part of the art of veterinary medicine: the safe handling of animals.

**Cats React to Science Facts** Izzi Howell,2021-07-06 Let's face it: Like every topic, science becomes more interesting when cats are involved! Or Gross! Or Mind-Blowing! Packed with key science topics, hilarious jokes, puns and cats, and building on the popularity of online cat videos ... kids will find this book is just purr-fect!

Wild Cats of the World Mel Sunquist,Fiona Sunquist,2017-05-15 Did you know that European royalty once used cheetahs to hunt deer, or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start? Have you ever wondered whether domestic cats really do land on their feet when they fall, or how Canada lynx can stalk their prey in the winter without falling through the deep snow? Wild Cats of the World is a treasure trove of answers to questions like these, and many others, for anyone who's interested in learning more about the world's felids, including the ones with whom we share our homes. Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source, many of them quite difficult to find, including scientific papers, descriptions of hunts, archeological findings, observations by naturalists and travelers, reports from government agencies, and newsletters from a wide variety of organizations. Weaving information from these sources together with their own experiences observing wild cats around the world, the Sunquists have created the most comprehensive reference on felids available. Each of their accounts of the 36 species of cat contains a description of the cat, including human interactions with it, as well as detailed data on its distribution, ecology and behavior, status in the wild, and efforts to conserve it. Numerous photographs, including more than 40 in full color, illustrate these accounts. Ranging from the two-pound black-footed cat to the five-hundred-pound tiger, and from the African serval with its satellite-dish ears to the web-footed fishing cat of Asia, Wild Cats of the World will fascinate and educate felid fans of any stripe (or spot).
