James E. Perone

Joshua Tree Bouldering Robert

Miramontes, 2012-03-20

Mods, Rockers, and the Music of the British Invasion James E. Perone, 2008-11-30 Musical floodgates were opened after the Beatles' first appearance on The Ed Sullivan Show on February 9, 1964. Suddenly, the U.S. record charts, radio, and television were overrun with British rock and pop musicians. Although this British Invasion was the first exposure many Americans had to popular music from the United Kingdom, British pop – and more specifically British rock and roll – had been developing since the middle of the 1950s. Author James Perone here chronicles the development of British rock, from the 1950s imitators of Elvis Presley and other American rockabilly artists, to the new blends of rockabilly, R&B, Motown, and electric blues that defined the British Invasion as we recognize it today. Die-hard fans of the Beatles, the Who, and the Kinks will all want a copy, as will anyone interested in the 1960s more generally. May 1964 saw major gang-style battles break out in British resort communities between the Mods and the Rockers. The tensions between the two groups had been developing for several years, with each group claiming their own sense of culture and style. The Mods wore designer clothing, rode Vespa motor scooters, and shared an affinity for black American soul music, while the Rockers favored powerful motorcycles, greased-back hair, and 1950s American rock and roll. It was within this context that the sounds of the British Invasion developed. *Mods, Rockers, and the Music*

of the British Invasion chronicles the development of British rock through the iconic artists who inspired the movement, as well as through the bands who later found incredible success overseas. In addition to analyzing the music in the context of the British youth culture of the early 1960s, Perone analyzes the reasons that the British bands came to so thoroughly dominate the record charts and airwaves in the United States. The contributions of Cliff Richard, Billy Fury, Johnny Kidd and the Pirates, Tommy Steele, the Tornados, Tony Sheridan, Blues Incorporated, and others to the development of British rock and roll are examined, as are the contributions and commercial and artistic impact of major British Invasion artists such as the Beatles, the Rolling Stones, the Dave Clark Five, the Yardbirds, Manfred Mann, the Who, the Kinks, and others. After investigating these groups and their influences upon one another, Perone concludes by examining the commercial and stylistic impact British rock musicians had on the American music of the time.

The Cult Film Experience J. P.

Telotte, 2014-02-19 Play it again, Sam is the motto of cult film enthusiasts, who will watch their favorite movie over and over, beyond all reason. What is the appeal of cult movies? Why do fans turn up in droves at midnight movies or sit through the same three-hanky classics from Hollywood's golden era? These are some of the questions J. P. Telotte and twelve other noted film scholars consider in this groundbreaking study of the cult film. The book identifies two basic types of cult films—older Hollywood movies, such as Casablanca, that have developed a cult following and midnight movies, most notably The Rocky Horror Picture Show. Telotte, Bruce Kawin, and Timothy Corrigan offer thought-provoking discussions about why these two types of movies become cult films, the sort of audience they attract, and the needs they fulfill for that audience. Subsequent essays employ a variety of

cultural, feminist, ideological, and poststructural strategies for exploring these films. In a section on the classical cult film, the movie *Casablanca* receives extensive treatment. An essay by T. J. Ross considers *Beat the Devil* as a send-up of cult films, while another essay by Wade Jennings analyzes the cult star phenomenon as personified in Judy Garland. Midnight movie madness is explored in essays on *The Rocky Horror Picture Show*, movie satires of the 1950s, science fiction double features, and horror thrillers. Illustrated with scenes from favorite movies and written for both fans and scholars, *The Cult Film Experience* will appeal to a wider audience than the usual suspects.

Tommy Steele Sebastian Lassandro, 2021-07-11 • The first ever complete and authorised biography of Britain's first rock 'n' roller and all-round entertainment legend • Fully approved and endorsed by Sir Tommy Steele himself (the first time he has given approval for such a work to be completed) • A completely comprehensive and detailed study of Tommy's incomparable 65-year career • Handsomely illustrated with rare and archival photographs from Tommy Steele's archive • Foreword by Sir Tim Rice with direct contributions from Dame Judi Dench, Petula Clark, Elaine Paige, Paul Nicholas, Lesley Ann Warren and also from many of Tommy's theatrical co-stars In the summer of 1956, while on shore leave from the Merchant Navy, Thomas Hicks was spotted playing a new type of music in a coffee bar in London. Having never heard anything like this 'rock' performed in Britain, he became an overnight sensation—never returning to his

ship. He changed his name to Tommy Steele and for 65 years he has been Britain's greatest showman. In a remarkable career spanning radio, records, Broadway and Hollywood, Tommy Steele started the rock revolution in the UK before moving to lighter, family entertainment and becoming a well-loved household name. He received an OBE for Services to Entertainment in 1979 and a knighthood for Services to Entertainment and Charity in 2020. He has conquered the West End, Hollywood and Broadway; holds records for the longest-running one-man-show in the London's West End and also the record for most appearances at the hallowed London Palladium. However, his remarkable career has never been detailed accurately and comprehensively—until now. Authorised by Sir Tommy Steele himself, *A Life in the Spotlight* offers readers a detailed insight into the career of an unrivalled entertainment legend, with countless facts, stories, details and anecdotes never before committed to print.

Big Time: The Life of Adam Faith David

Stafford, Caroline Stafford, 2015-04-13

Caveman Chemistry Kevin M. Dunn, 2003

Half a million years ago our ancestors learned to make fire from scratch. They crafted intricate tools from stone and brewed mind-altering elixirs from honey. Their descendants transformed clay into pottery, wool into clothing, and ashes into cleansers. In ceramic crucibles they won metal from rock, the metals lead to colored glazes and glass. Buildings of brick and mortar enshrined books of parchment and paper. Kings and queens demanded ever more colorful clothing and accessories in order to out-class clod-hoppers and call-girls. Kingdoms rose and fell by the power of saltpeter, sulfur, and charcoal. And the demands of everyday folk for glass and paper and soap stimulated the first round of chemical industrialization. From sulfuric acid to sodium

carbonate. From aniline dyes to analgesic drugs. From blasting powder to fertilizers and plastics. In a phrase, From Caveman to Chemist. Your guides on this journey are the four alchemical elements; Fire, Earth, Air and Water. These archetypical characters deliver first-hand accounts of the births of their respective technologies. The spirit of Fire, for example, was born in the first creature to cultivate the flame. This spirit passed from one person to another, from one generation to another, from one millennium to another, arriving at last in the pages of this book. The spirit of Earth taught folks to make tools of stone, the spirit of Air imparted knowledge of units and the spirit of Water began with the invention of spirits. Having traveled the world from age to age, who can say where they will find their next home? Perhaps they will find one in you.

Dave's Rock Frann Preston-Gannon,2019-02-12 In this funny follow-up to Dave's Cave, two lovable cavemen endeavor to make their rocks the very best they can – inventing, in the process, something rather remarkable. Dave loves his rock. Jon loves his rock, too. The two buddies compete over whose rock is biggest, fastest, prettiest, and tallest. When they discover that granite has so much more potential than its natural state, the two friends begin to chisel new shapes, tossing and playing games with their now-rounded rocks. But their woodland friends have other (genius) ideas for how to use these new shapes – as circles with holes in the middle. Anyone up for a ride?
