Advanced Decision Making John Band, Lesley Partridge, 1999 This title looks at decision making from the manager's viewpoint and aims to help you to improve your decision making. It also recognises that, in business today, decision making is everyone's responsibility. Decision making for staff, who are not managers, is often through involvement in team decisions and the module also explores the benefits and limitations of team decision making.

Marketing in B2b Hairul Rizad, Abu Bakar, 2015-07-31 This book is for those who are interested to know more about the marketing decision issues and challenges facing by Small and Medium Enterprise (SME) in business-to-business setting. Here, it provides insight to both regulator and practitioner to focus their effort in developing the marketing aspect in SME. Previous researchers have agreed that the failure to make accurate marketing decision may have consequences to SMEs. The complexity and variation of decision process and its interaction had made this subject less interest among the researcher. This book shed out the light of this issue by presenting the exploratory study that combine the qualitative and quantitative approaches. Indeed, this book constitutes and offers a complete framework that integrates SMEs decision makers' characteristics and their interaction with other factors that statistically influence the decision making process. The inclusion of SMEs decision makers' characteristics addresses the limitations that have been largely ignored by prior study that only stresses on the effect of firm characteristic and networking relationship. Finally, this book has brought a certain degree of practicality through addressing the role of decision makers' characteristics in marketing decision making process.

Corporate Governance and Whistleblowing Moeen Umar Cheema, Rahat Munir, Sophia Su, 2021-05-03 Whistleblowing is often about disclosing wrongdoings by members of organisations to persons or organisations that may be able to effect action. Media would at times publish stories of whistleblowers who engage in 'heroic' acts of exposing wrongdoings at work, but the whistleblowers often face significant negative consequences of their whistleblowing efforts. This book examines effects of national and organisational cultures on the whistleblowing decisions of employees. The book provides empirical evidence of association between organisational culture and whistleblowing and there appears to be a lower likelihood of whistleblowing in organisations that focus more on the cultural dimensions of respect for people, innovation and stability. It also illustrates how remaining silent or blowing the whistle in response to observed wrongdoings affects employees' key work-related attitudes. This book would interest those wish to gain better understanding of the relationship between culture and whistleblowing in organisations.
