Computer Science Reconsidered Karl M. Fant,2007-06-04 The Invocation Model of Process Expression argues that mathematics does not provide the most appropriate conceptual foundations for computer science, but, rather, that these foundations are a primary source of unnecessary complexity and confusion. It supports that there is a more appropriate conceptual model that unifies forms of expression considered quite disparate and simplifies issues considered complex and intractable. This book presents that this model of process expression is alternative theory of computer science that is both valid and practical.

Transforming Agricultural Education for a Changing World National Research Council,Division on Earth and Life Studies,Board on Life Sciences,Board on Agriculture and Natural Resources,Committee on a Leadership Summit to Effect Change in Teaching and Learning,2009-11-16 During the next ten years, colleges of agriculture will be challenged to transform their role in higher education and their relationship to the evolving global food and agricultural enterprise. If successful, agriculture colleges will emerge as an important venue for scholars and stakeholders to address some of the most complex and urgent problems facing society. Such a transformation could reestablish and sustain the historical position of the college of agriculture as a cornerstone institution in academe, but for that to occur, a rapid and concerted effort by our higher education system is needed to shape their academic focus around the reality of issues that define the world's systems of food and agriculture and to refashion the way in which they foster knowledge of those complex systems in their students. Although there is no single approach to transforming agricultural education, a commitment to change is imperative.

Improving Performance in Service Organizations Joyce Ann Miller,Tatiana Bogatova,Bruce Carnohan,2011-06 Improving Performance in Service Organizations guides professionals through the application of lean concepts and methods in the service sector. Agencies can use this innovative approach to analyze operations and determine ways to eliminate activities that are wasteful and add no value to the services delivered. Service organizations that undergo a lean transformation optimize the use of time and money associated with operations and ensure that scarce resources are allocated to the activities that produce the greatest value for clients served. Using a lean lens within the context of the organization's goals and mission taps into the latent energy and innovative ideas of personnel and releases resources trapped in a vicious cycle of wasted work efforts. By applying the lean concepts, methods, and tools introduced in this book and creating a culture of continuous improvement, service organizations can increase effectiveness and improve accountability for the funding they receive. This book is also well suited for academic courses in quality improvement/business operations management in business and/or social service programs.

The Role of the Community College in Teacher Education Barbara K. Townsend,Jan Marie Ignash,Jan M. Ignash,2003-04-22 A community college role in teacher education is not new. But there is a new--or, more accurately, renewed--interest in this role. A national conversation about how community colleges can help us alleviate the teacher shortage has truly begun, with many believe that an expanded community college role is critical to meet the nation's need for well prepared teachers. This volume illustrates the extent to which community colleges have become major players in teacher education, not only in the traditional way of providing the first two years of an undergraduate degree in teacher education but in such more controversial ways as offering associate and baccalaureate degrees in teacher education and providing alternative certification programs. This is the 121st issue of the Jossey-Bass higher education series New Directions for Community Colleges.

The Utrecht Psalter in Medieval Art Koert van der Horst,William Noel,Wilhelmina C. M. Wüstefeld,1996 The Utrecht Psalter, one of the great survivals of the Carolingian Renaissance, was made about 820-835 at the Benedictine monastery of Hautvilliers and decorated with 166 dynamic, almost impressionistic pen drawings which are masterly interpretation of the Psalter text. In 1996 it was exhibited in Utrecht, alongside related manuscripts such as the Aachen and Ebbo Gospels, the Byzantine Khludov Psalter and the later English Harly and Eadwine Psalters, copied in Canterbury when the Utrecht Psalter was for some centuries in England. Five scholarly essays, designed for a wide-ranging readership, include a discussion of Carolingian cultural achievements; an analysis of the Psalter itself and its place in the history of book production; an overview of medieval Psalter illustration in both Byzantium and the West; and an examination of the English copies of the Utrecht Psalter in the later Middle Ages.

Sustaining Financial Support for Community Colleges Stephen G. Katsinas,James C. Palmer,2005 Sustaining fiscal support for community colleges has becoming increasingly difficult in an era marked by recurrent recessions, legislator reluctance to raise taxes, and intense competition for scarce resources from health care, K-12 education, and other pressing demands on state treasuries. After introductory chapters that provide historical, political, and economic perspectives on the fiscal environment in which community colleges operate, this volume describes institutional approaches to securing adequate funding in the face of fiscal uncertainty. Chapter authors provide guidelines for fundraising, leveraging corporate support through cooperative education programs, securing government grants for workforce development, managing mill levy elections for increased local tax support, and realigning budget priorities in the face of economic downturns. The volume also discusses the implications of today's changing fiscal environment for community college presidents and the skills they need to sustain adequate funding in the face of unpredictable revenue streams. This is the 132nd volume of the Jossey-Bass quarterly report series New Directions for Community Colleges.

Career Journeys of Diverse Leaders in Higher Education George Blumenthal,Josefina Castillo Baltodano,Ding-Jo H. Currie,2024-06-03 This book provides a study of diverse leadership development through the extraordinary journeys of ten retired presidents and chancellors who have left an indelible impact on higher education. Representing a rich multicultural background, each chapter tells a personal story of transformation and triumph, highlighting the various, non-traditional paths to senior leadership. Hailing from both private and public, two- and four-year institutions across the United States, these trailblazers showcase that excellence knows no bounds. Contributors reflect on the struggles and engagements with racialized ethnic realities and growing awareness of gender inequities. Discussion questions supply rich ground for meaningful engagement in book clubs, leadership classes, workshops, and institutes, prompting readers to plumb the depths of their own experiences in confronting justice, equity, and inclusion. Filled with captivating narratives touching on the common threads of shared values and invaluable life lessons that weave through diverse experiences, this book is a testament to the power of inspiration and motivation for those considering or dismissing their aspirations to achieve leadership roles in higher education.

Electromigration Techniques Boguslaw Buszewski,Ewelina Dziubakiewicz,Michal Szumski,2013-04-23 The book provides the broad knowledge on electromigration techniques including: theory of CE, description of instrumentation, theory and practice in micellar electrokinetic chromatography, isotachopheresis, capillary isoelectric focusing, capillary and planar electrochromatography (including description of instrumentation and packed and monolithic column preparation), 2D-gel electrophoresis (including sample preparation) and lab-on-a-chip systems. The book also provides the most recent examples of applications including food, environmental, pharmaceutical analysis as well as proteomics.

Budget and Finance in the American Community College Trudy H. Bers,Ronald B. Head,James C. Palmer,2015-01-12 In this volume of New Directions for Community Colleges, key issues and practices will be addressed on the following topics: The contemporary challenge of meeting growing demands for increased student persistence and success; diminishing state support for higher education; new calls for accountability

and ways to measure institutional effectiveness; the increasing reliance of many community colleges on grants and other sources of revenue; and college policies that have significant financial ramifications -- page 4 of cover.
