We Are Anonymous Parmy Olson,2012-06-05 A thrilling, exclusive expose of the hacker collectives Anonymous and LulzSec. WE ARE ANONYMOUS is the first full account of how a loosely assembled group of hackers scattered across the globe formed a new kind of insurgency, seized headlines, and tortured the feds-and the ultimate betrayal that would eventually bring them down. Parmy Olson goes behind the headlines and into the world of Anonymous and LulzSec with unprecedented access, drawing upon hundreds of conversations with the hackers themselves, including exclusive interviews with all six core members of LulzSec. In late 2010, thousands of hacktivists joined a mass digital assault on the websites of VISA, MasterCard, and PayPal to protest their treatment of WikiLeaks. Other targets were wide ranging-the websites of corporations from Sony Entertainment and Fox to the Vatican and the Church of Scientology were hacked, defaced, and embarrassed-and the message was that no one was safe. Thousands of user accounts from pornography websites were released, exposing government employees and military personnel. Although some attacks were perpetrated by masses of users who were rallied on the message boards of 4Chan, many others were masterminded by a small, tight-knit group of hackers who formed a splinter group of Anonymous called LulzSec. The legend of Anonymous and LulzSec grew in the wake of each ambitious hack. But how were they penetrating intricate corporate security systems? Were they anarchists or activists? Teams or lone wolves? A cabal of skilled hackers or a disorganized bunch of kids? WE ARE ANONYMOUS delves deep into the internet's underbelly to tell the incredible full story of the global cyber insurgency movement, and its implications for the future of computer security.

Orthopaedic Decision Making Robert W. Bucholz,1996 Not intended to provide strict pathways for the diagnosis and treatment of specific orthopedic problems, but rather to provide a generic starting point or template for the creation of detailed decision trees which would be based on the treatment preferences and expertise of the individual practitioner. One hundred and twenty-eight contributions address the specific clinical problems of orthopedic trauma, reconstructive surgery, children's orthopedics, hand surgery, spine surgery, and sports medicine. Life Extension Alexander M. Vaiserman,Alexey A. Moskalev,Elena G. Pasyukova,2015-06-09 This book looks at aging through research on Drosophila, the fruit fly that is one of the most widely used model organisms in bio gerontology. Work in model organisms can expand the theoretical knowledge of aging: it yields valuable insight into the molecular and cellular processes that underlie aging process, and it can perhaps provide new therapeutic targets for the treatment of age-related disorders in humans. Drosophila models have been developed for a large variety of aging-related processes and diseases, and this book provides readers with an overview of current research on the use of the Drosophila model to understand the genetic, molecular and physiological mechanisms that underlie the aging process. Themes of health span, life extension and longevity-associated genes emerge in this collation of international research on Drosophila that is of relevance to geriatrics and gerontology, animal genetics and genomics, and biomedicine. This fascinating, illustrated book will be of interest to a wide audience, ranging from academic researchers to the general reader.

Nobody's Property Blake Hutchison,2017-08-04 Sisters Clia Foster and Carissa Sutherland, born twelve years apart to different mothers, find themselves facing very different demons as they reclaim ownership of themselves. Elder sister Clia, a successful musician, nearly died from a traumatic brain injury at age nine caused at the hand of their abusive common biological father, Percy Barnett. Sometimes she talks to inanimate objects, or people nobody else can see but her. Even music and medical marijuana can't free her from her severe mental issues. Sometimes she even has weird dreams about the future and a teenage girl who looks a lot like her...or are they dreams at all? In the year 2015, eighteen-year-old younger sister Carissa returns to America after nearly fifteen years living in Australia, to attend film school. Though excited to finally get to know her sister much better, she finds her own mental issues with anger and depression reaching a boiling point not only as Percy's parole hearing date on the other side of the country approaches, but also as Clia's irreparably damaged, slowly deteriorating mental health state unravels before her very own matching eyes...

E-Commerce Strategy Sanjay Mohapatra,2012-08-16 E-Commerce Strategy: Text and Cases provides the fundamental literature required for graduate students and practitioners to understand electronic commerce. Each chapter provides clearly designed learning objectives and review questions to highlight the major topics and goals. This book covers many of the new innovations and technologies that have been established for e-commerce site development. Unlike similar books, topics such as e-channel adoption, factors affecting e-commerce adoption, and strategy design are reviewed in greater depth. Additionally, the book examines areas not normally covered like open source, online research, and peer-to-peer systems. E-Commerce Strategy: Text and Cases is divided into

two parts. Part 1 examines the evolution of e-commerce, analyzes different sectors such as B2B and m-Commerce, and explores the challenges they face. Case studies of well known companies reinforce the concepts learned to demonstrate both successes and failures in the field. Part 2 deals with developing strategies in e-Commerce and looks at future trends including Web 2.0. Overall, the useful guidelines provided should prove valuable to students and researchers in the field.

Endurance Rick Broadbent,2016-04-21 Shortlisted for the William Hill Sports Book of the Year A runner must run with dreams in his heart. Emil Zatopek. In the summer of 1952 Emil Zatopek became the king of the running world with an unprecedented distance treble at the Olympic Games in Helsinki. Together with his wife Dana, who won another gold medal in the javelin, they were the embodiment of sporting romance. Born on the same day, they were champions on the same day too. Yet in 1968 this affable but eccentric Czech solider was betrayed by his Communist paymasters and cast out into wilderness. Hidden from world view, monitored by the secret police and forced to live in a caravan in mining country, he became the invisible hero. 'Endurance' is the first biography to document the remarkable rise, fall and rehabilitation of a man voted the 'greatest runner of all time' by 'Runner's World' in 2013. It is also the story of a golden age of sport played out against a backdrop of Cold War politics and paranoia. From the London Olympics of 1948 to Czech concentration camps, this is an uplifting and harrowing story of survival. As Emil rises to global fame, his old coach is locked up and tortured by StB henchmen. Their diverging paths expose the fickleness of popularity and eventually cross again when Zatopek's world is torn asunder. All both men can do is endure. The running world of this era is brought to life by dramatic accounts of Zatopek's great triumphs, manifold records and a rich collection of characters vying to dethrone him. In Britain the sharp-tongued Gordon Pirie falls foul of the media as he becomes obsessed with Zatopek and adopts increasingly-masochistic methods; mild-mannered marathon champion Jim Peters begins a quest that would make "women weep and grown men lose their lunch". In France Alain Mimoun crawls from the bloody carnage of his war-time exploits to overcome racial snubs and become known as Zatopek's Shadow; and in the Soviet Union, the tragic figure of Vladimir Kuts is moulded into a brutal running machine at huge cost. Only Zatopek manages to bridge this East-West divide as a savage power struggle is fought in both the Olympic arena and in the corridors of power. Due to extensive access to those involved, including Dana herself, award-winning Times author Rick Broadbent has written a vivid history involving blood and guns and a love that sustained the cruellest twists of fate. From heady nights at White City to the brave resistance during the Prague Spring, this is a book that plants the son of a carpenter at the very centre of a revolution. Whether talking to his rivals on the track or Red Army troops as tanks roll into Prague, Zatopek's humanity shines through and carries all. With traces of 'Chariots of Fire' and Laura Hillenbrand's 'Unbroken', Endurance is both a wonderful love story and a landmark tale of hope and strength in the face of crushing opposition. It's at the borders of pain and suffering that the men are separated from the boys. Emil Zatopek
