The Audiovisual Cataloging Current Sandra K. Roe,2013-10-18 Examine crucial issues for audiovisual cataloging-from a variety of perspectives! This vital book addresses both current and historic issues related to audiovisual materials and cataloging. It covers the current cataloging rules for sound recordings (popular music and nonmusic recordings), videorecordings (including DVDs), electronic resources (whether accessed locally or remotely), three-dimensional objects and realia, and kits. Three historical articles chronicle the history of audiovisual catalog in general, the history of cataloging computer files, and the history of The Thesaurus for Graphic Materials. A section on audiovisual materials and subject access issues includes a chapter which proposes form/genre terms for moving-image materials and a special library's creation and use of a new thesaurus and its availability to assist online catalog users. Finally, four contributions examine audiovisual materials and cataloging from the perspectives of different library types: school, public, academic, and special. The Audiovisual Cataloging Current provides case studies that show: how the National Library of Medicine produces, collects, and catalogs non-print materials the differences between the Moving Image Genre-Form Guide and

Library of Congress Subject Headings, with recommendations for improving LCSH as a tool and an exhaustive list of LCSH terms how libraries and organized cataloging groups developed the Chapter 9 descriptive cataloging rules in AACR2 how the Westchester Library System created a user-friendly online catalog for audiovisual materials how the Illinois Fire Service Library improved firefighters' subject access to nonprint fire emergency materials how the National Library of Medicine promotes audiovisual formats and much more!

The Survey of Public Library Fundraising Practices Primary Research Group, 2014 The study presents detailed data and commentary on how public libraries raise funds through book and other materials sales, grants, events and fundraisers, bequests, sale of naming rights, direct mail and online solicitation, activities of friends of library groups and other means. The study presents data on library receipts through wills, tributes and memorials, as well as channels such as grants and annual fund drives. Data is broken out by size of library for better benchmarking. The report also looks at the activities of friends of the library groups, giving data on size and growth rates and on funds raised.

Miles Marc Antomattei,2011-03-19 You can't be a Miles Davis completist without owning this book; it is a collector's item in and of itself! Miles: The Companion Guide to the Autobiography is an annotated guide to Miles' own book previously released over twenty years ago in 1989. In his autobiography, Miles talks in great detail about all of his recording sessions with all his various labels. He usually mentions things in detail such as when they were done, who was playing with him at that session, whose arrangements the tunes were

Use this annotated sequencing companion guide to help you find and listen to those particular tunes within your collection or to help you track down those missing tracks so you can compile your own soundtrack to his life. This guide will give you a perfectly good reason to reread the autobiography, and trust me; it is better the second time around with this. Core content includes: *A listing of 388 jazz tunes and albums as mentioned by Miles Davis himself in his autobiography; Use as a guide to help you find and listen to those particular tunes within your collection or to help you track down those missing tracks so you can compile your own soundtrack to his life.
