**The Professor, the Banker, and the Suicide King** Michael Craig, 2006-06-05 - One of the author's sources for this book is a member of the illustrious and mysterious Corporation of top-10 poker players who pool their money to play for millions--revealing for the first time the secrets of their games, strategies, and partnership. - Books about gambling sell extremely well, as evidenced by the success of *Bringing Down the House* (Free Press, 2002), which has 320,000 hardcover and trade paperback copies in print combined, and *Positively Fifth Street* (Farrar, Straus and Giroux, 2003), which has sold more than 80,000 hardcover copies. - With celebrity poker tournaments boosting the Bravo cable network's ratings, and ESPN drawing over one million viewers per episode to its coverage of the World Series of Poker (held every June), public interest in the game has never been higher. Additionally, it is estimated that more than 90,000 Americans play poker on the Internet daily, with as much as 55 million dollars being wagered on any given day. - A brilliantly told, fascinating adventure story. *The Professor, The Banker, And The Suicide King* gives readers a view into an exclusive world--one that very few have had the opportunity to witness. - Michael Craig has written for *The American Spectator*, *Cigar Aficionado*, and *Penthouse*.

**Computer Gaming World**, 1995

**10 PRINT CHR\$(205.5+RND(1)); : GOTO 10** Nick Montfort, Patsy Baudoin, John Bell, Ian Bogost, Jeremy Douglass, 2012-11-23 A single line of code offers a way to understand the cultural context of computing. This book takes a single line of code--the extremely concise BASIC program for the Commodore 64 inscribed in the title--and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text--in the case of *10 PRINT*, a text that appeared in many different printed sources--that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.

**Rules of Play** Katie Salen Tekinbas, Eric Zimmerman, 2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television--but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the

emerging discipline of game design.

**Four New Messages** Joshua Cohen, 2012-08-07 A quartet of audacious fictions that capture the pathos and absurdity of life in the age of the internet \*A New York Times Book Review Editors' Choice\* \* One of Flavorwire's 50 Books That Define the Past Five Years in Literature A spectacularly talented young writer has returned from the present with Four New Messages, urgent and visionary dispatches that seek to save art, sex, and even alienation from corporatism and technology run rampant. In Emission, a hapless drug dealer in Princeton is humiliated when a cruel co-ed exposes him exposing himself on a blog gone viral. McDonald's tells of a frustrated pharmaceutical copywriter whose imaginative flights fail to bring solace because of a certain word he cannot put down on paper.

In The College Borough a father visiting NYU with his daughter remembers a former writing teacher, a New Yorker exiled to the Midwest who refuses to read his students' stories, asking them instead to build a replica of the Flatiron Building. Sent begins mythically in the woods of Russia, but in a few virtuosic pages plunges into the present, where an aspiring journalist finds himself in a village that shelters all the women who've starred in all the internet porn he's ever enjoyed. Highbrow and low-down, these four intensely felt stories explain what happens when the virtual begins to colonize the real -- they harness the torrential power and verbal dexterity that have established Cohen as one of America's most brilliant younger writers.

**Deception Point** Dan Brown, 2019-07-30 From the #1 New York Times bestselling author of The Da Vinci Code, Angels & Demons, and Inferno and the "master of smart thrills" (People) comes a "rocket-fast thriller" (Vince Flynn) about an astonishing NASA discovery that unravels a deadly conspiracy that leads all the way to the White House. When a NASA satellite spots evidence of an astoundingly rare object buried deep in the Arctic ice, the floundering space agency proclaims a much-needed victory—one that could have profound implications for US space policy and the impending presidential election. With his re-election hanging in the balance, the President sends White House Intelligence analyst Rachel Sexton to the Milne Ice Shelf to verify the authenticity of the find. Accompanied by a team of experts, including the charismatic academic Michael Tolland, Rachel uncovers the unthinkable: evidence of scientific trickery. Before she can contact the President, she and Michael are attacked by a deadly team of assassins controlled by a mysterious power broker who will stop at nothing to hide the truth. Fleeing for their lives in an environment as desolate as it is lethal, their only hope for survival is to find out who is behind this masterful ploy. The truth, they will learn, is the most shocking deception of all in this "taut, fast-paced, barn-burner of a book" (St. Petersburg Times).

**The Longest Trek** Grace Lee Whitney, Jim Denney, 1998 She opened for jazz great Billie Holiday, shared the set with Marilyn Monroe, and flirted on-screen with Jack Lemmon. But a terrifying sexual assault on the studio lot and her lifelong feelings of emptiness and isolation would soon combine to turn her starry dream into a nightmare.

**The Art of Deception** Kevin D. Mitnick, William L. Simon, 2011-08-04 The world's most infamous hacker offers an insider's view of the low-tech threats to high-tech security Kevin Mitnick's exploits as a cyber-desperado and fugitive form one of the most exhaustive FBI manhunts in history and have spawned dozens of articles, books, films, and documentaries. Since his release from federal prison, in 1998, Mitnick has turned his life around and established himself as one of the most sought-after computer security experts worldwide. Now, in The Art of Deception, the world's most notorious hacker gives new meaning to the old adage, It takes a thief to catch a thief. Focusing on the human factors involved with information security, Mitnick explains why all the firewalls and encryption protocols in the world will never be enough to stop a savvy grifter intent on rifling a corporate database or an irate employee determined to crash a system. With the help of many fascinating true stories of

successful attacks on business and government, he illustrates just how susceptible even the most locked-down information systems are to a slick con artist impersonating an IRS agent. Narrating from the points of view of both the attacker and the victims, he explains why each attack was so successful and how it could have been prevented in an engaging and highly readable style reminiscent of a true-crime novel. And, perhaps most importantly, Mitnick offers advice for preventing these types of social engineering hacks through security protocols, training programs, and manuals that address the human element of security.

The Brand Innovation Manifesto John Grant, 2006-05-12 The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of *The New Marketing Manifesto*, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In *The Brand Innovation Manifesto*, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.

*Treat Your Poker Like a Business*, 2009-12 Poker star Dusty Schmidt presents his first book [→ one that stands to shake up poker in the same way *Moneyball* did for baseball. Schmidt offers an inspiring look at how in just five years, he went from not knowing a thing about poker to netting a seven-figure annual income. Far from a mathematical or technological genius, Schmidt says what guides him through is a fundamental understanding of business. *Treat Your Poker Like A Business* provides a foundation upon which all poker will be evaluated in the

future, and will help an entire generation of poker players evolve their games into empires. A consummate grinder, Dusty Schmidt has played nearly 7 million hands of online poker over more than 10,000 hours during his five-year career. He's won over \$3 million during that period, and has never experienced a losing month. In 2007, he achieved Poker Stars' SuperNova Elite status in just eight months while playing high-stakes cash games exclusively. Schmidt posted the world's highest win rate in both 5/10 NL and 10/20 NL in both 2007 and 2008. In a four-month period between Nov. 2007 and Feb. 2008, Schmidt won in excess of \$600,000 in high-stakes cash games. He is now a highly respected instructor at Stoxpoker.com, and plays as high as 25/50 NL. As a young man, Schmidt was a top-ranked golfer. He broke two of Tiger Woods' junior records, and was the leading money winner on the Golden States Tour when, at age 23, he suffered a career-ending heart attack. Schmidt returned to golf in 2009, winning medalist honors in qualifying for the Oregon Amateur Championship. Later that year, Schmidt famously represented himself in federal court in his suit against the United States Golf Association, which controversially stripped him of his amateur status, in part due to his poker profession. Schmidt is now a volunteer assistant coach for the University of Oregon's men's golf team, working under his good friend, Head Coach Casey Martin. Schmidt is also a successful entrepreneur. He is part-owner of Stoxpoker.com and Imagine Media, and the creator of 10thGreen.com, the first social network for golfers.
