Current Airport Inspection Practices Regarding FOD (Foreign Object Debris/Damage) C. Daniel Prather,2011 TRB's Airport Cooperative Research Program (ACRP) Synthesis 26: Current Airport Inspection Practices Regarding FOD (Foreign Object Debris/Damage) details the components of a comprehensive FOD management program, and compiles current practices, techniques, and lists of tools available for use or those currently being used by airports for FOD inspections.

*Loss Control Auditing* E. Scott Dunlap,2023-12-29 Loss Control Auditing: A Guide for Conducting Fire, Safety, and Security Audits is a one-stop resource for both developing and executing a loss control audit program. This fully updated second edition addresses loss control auditing from the perspectives of workplace safety, physical security, and fire risks. It focuses on the three core areas of an audit: documentation review, physical inspection, and employee interviews, and presents a three-phase model - pre-audit, audit, and post-audit activities - which can be used for all three core areas. This new edition benefits from the addition of auditing and system measurement material as promulgated in ISO 45001 and ANSI/ASSP Z10 standards and the Occupational Safety and Health Administration's Recommended Practices for Safety and Health Programs. It offers an expanded discussion of the application of auditing to the field of emergency management and new text explaining how leading and lagging measures can be used in the auditing process during assessment as well as in the post-audit evaluation. Subsidiary organizations and their integration into the auditing process, such as the areas of contractor management and temporary worker safety are covered in detail. The book discusses the integration of qualitative and quantitative measures in an effort to arrive at a more holistic scoring mechanism to assess organizational performance. In all, the depth of material presented in this thorough book showcases how to develop and execute a loss control management system audit program to a high quality. An ideal read for industry professionals, students, and postgraduates in the fields of fire service, loss prevention, and safety

management.

**Sierra Peaks** Blair Beebe, 2016-05-16 Few experts in the world know more about Asian epidemics than Dr. Luke Lucas and his microbiologist wife, Lynn. But as a stream of new patients travel from the same city in Uzbekistan to the emergency room at University Hospital in San Francisco, each hopes for a miracle that the doctors are not sure they can deliver. As the hospital's capacity is tested with patients battling tuberculosis caused by microbes resistant to all antibiotics, other victims wander the city, coughing amid crowds of people and creating a public health disaster. Now forced to battle against the complacency of the press, the police, and even some health officials who fail to appreciate the magnitude of an impending epidemic, Luke and Lynn must race against time as they attempt to determine whether or not they are facing an act of bioterrorism. And if so, is it too late to stop the attack? In this medical suspense novel, two doctors struggle to uncover the cause of a highly contagious and lethal illness ravaging the streets of San Francisco.

**Biology and Management of Invasive Quagga and Zebra Mussels in the Western United States** Wai Hing Wong, Shawn L. Gerstenberger, 2015-05-07 Biology and Management of Invasive Quagga and Zebra Mussels in the Western United States is a synthesis of the biology and management of invasive mussels from scientists and managers working on invasive quagga and zebra mussels in the western United States. Invasive dreissenid mussels have spread throughout southwestern United States at unprecedented speeds, and present a unique threat to native ecosystems. This book documents the efforts, both successful and unsuccessful, of individuals and agencies after dreissenid mussels invaded the West. Although the book is designed specifically for scientists and managers fighting invasive mussels in western waterbodies, it offers an opportunity for scientists and lake managers worldwide to compare successful strategies relevant to their unique situation. It includes guidance documents and protocols related to early detection, prevention, regulation, monitoring, and control of these invasive pests in the West. It compares quagga and zebra mussels in the western United States with those mussels colonizing the Great Lakes and European waters.

2022 2nd International Conference on Management Science and Software Engineering (ICMSSE 2022) Syed Abdul Rehman Khan, Noor Zaman Jhanjhi, Hongbo Li, 2023-02-10 This is an open access book. Management science and engineering is a systematic discipline that combines modern information technology and digital technology, and then uses some related discipline methods, such as systems science, mathematical science, economics and behavioral science, and engineering methods. After analyzing and researching some problems arising from social economy, engineering, education, finance, etc., and making corresponding countermeasures. The main purpose is to achieve control and planning, decision-making and adjustment in social, economic, education, engineering and other aspects, and then make improvements, and finally organize and coordinate. The relevant departments can be combined to achieve system management, so that the allocation of resources and the Management can be rationally optimized, so that individual functions can play the greatest role, minimize resource consumption, and maximize the optimal allocation of resources. This is also the ultimate research purpose. Liangliang Wang said: Management is the productive force, which promotes the development of the country, society and enterprise. The relationship between management practice and management science is the relationship between theory and practice. The research on management science helps to improve the level of management, and then promote the development of the country, society and enterprises. On the other hand, management

practice changes with the continuous progress of the times. It is necessary to study the current situation and trend of management science in the new era, which will help to clarify the future development direction of the discipline and discover the deficiencies in management scientific research and grasp it. The focus of management science research, thereby promoting research in management science. Therefore, it is necessary to create a space for management science practitioners, engineering practitioners, researchers and related enthusiasts to gather and discuss this current issue. The 2nd International Conference on Management Science and Software Engineering (ICMSSE 2022) aims to accommodate this need, as well as to: 1. provide a platform for experts and scholars, engineers and technicians in the field of management and software engineering to share scientific research achievements and cutting-edge technologies 2. understand academic development trends, broaden research ideas, strengthen academic research and discussion, and promote the industrialization cooperation of academic achievements 3. Promote the institutionalization and standardization of management science through modern research The conference will focus on software processing and information systems, combining research directions in the field of management. ICMSSE International Conference on Management Science and Software Engineering welcomes papers dealing with management systems research, software programming, management systems optimization, information systems management, etc. The 2nd International Conference on Management Science and Software Engineering (ICMSSE 2022) will be held in Chongqing on July 15-17, 2022. The conference sincerely invites experts, scholars, business people and other relevant personnel from domestic and foreign universities, research institutions to participate in the exchange.
