The Routledge Handbook of Public Taxation in Medieval Europe Denis Menjot, Mathieu Caesar, Florent Garnier, Pere Verdés Pijuan, 2022-11-30 Beginning in the twelfth century, taxation increasingly became an essential component of medieval society in most parts of Europe. The state-building process and relations between princes and their subject cities or between citizens and their rulers were deeply

shaped by fiscal practices. Although medieval taxation has produced many publications over the past decades there remains no synthesis of this important subject. This volume provides a comprehensive overview on a European scale and suggests new paths of inquiry. It examines the fiscal systems and practices of medieval Europe, including essential themes such as medieval fiscal theory and the power to tax; royal and urban taxation; and Church taxation. It goes on to survey the entire European continent, as well as including comparative chapters on the non-European medieval world, exploring questions on how taxation developed and functioned; what kinds of problems authorities encountered assessing their fiscal power; and the circulation of fiscal cultures and practices across cities and kingdoms. The book also provides a glossary of the most important types of medieval taxes, giving an essential definition of key terms cited in the chapters. The Routledge Handbook of Public Taxation in Medieval Europe will appeal to a large audience, from seasoned scholars who need a comprehensive synthesis, to students and younger scholars in search of an overview of this critical subject.

Intellectual Property Rights, Copynorm and the Fashion Industry Marlena Jankowska, 2023-12-22 This book traces the development of the fashion industry, providing insight into the business and, in particular, its interrelations with copyright law. The book explores how the greatest haute couture fashion designers also had a sense for business and that their attention to copyright was one of the weapons in protecting their market position. The work also confronts the peculiarities of the fashion industry as a means of demonstrating the importance of intellectual property protection while pointing out the many challenges involved. A central aim is to provide a copyrightability test for fashion goods based on detailed analysis of the legal regulations in the USA and EU countries, specifically Italy, France,

the Netherlands, Germany and Poland. The book will be of interest to researchers and academics working in the areas of Intellectual Property Law, Copyright Law, Business Law, Fashion Law and Design.

The Wanton Jesuit and the Wayward Saint Mita
Choudhury, 2016-01-20 This microhistory investigates the famous and scandalous 1731 trial in which Catherine Cadière, a young woman in the south of France, accused her Jesuit confessor, Jean-Baptiste Girard, of seduction, heresy, abortion, and bewitchment. Generally considered to be the last witchcraft trial in early modern France, the Cadière affair was central to the volatile politics of 1730s France, a time when magistrates and lawyers were seeking to contain clerical power. Mita Choudhury's examination of the trial sheds light on two important phenomena with broad historical implications: the questioning of traditional authority and the growing disquiet about the role of the sacred and divine in French society. Both contributed to the French people's ever-increasing disenchantment with the church and the king. Choudhury builds her story through an extensive examination of archival material, including trial records, pamphlets, periodicals, and unpublished correspondence from witnesses. *The Wanton Jesuit and the Wayward Saint* offers new insights into how the eighteenth-century public interpreted the accusations and why the case consumed the public for years, developing from a local sex scandal to a referendum on religious authority and its place in French society and politics.

On the Margins of Crusading Helen Nicholson,2016-05-23 Founded to support Christian pilgrims to the Holy Land and most famous for their support for crusading, the Military Religious Orders' activities and interests stretched far beyond the frontiers of Christendom. Representing some of the most recent advances in

research, in this volume eleven scholars from Europe and North America explore important and hitherto under-researched aspects of the Orders' history, scrutinising their relations with the papacy, their organisational structure, their devotional practices, their fortresses and their presence in the localities of Western Europe. Particular attention is given to the Templars' trial of 1307-12 and the question of how the surviving Orders reorganised themselves after the loss of the kingdom of Jerusalem in 1291. The majority of the papers consider the leading Military Orders, the Hospitallers and Templars, but there are also studies of the Orders of Mountjoy and of St Lazarus, showing how they adapted their activities to local requirements. These studies reflect the vitality of current scholarship on the Military Religious Orders.

Double Recovery in Investment Arbitration Leyla Bahmany,2023-09-14 This book presents the first comprehensive analysis of the risk of double compensation, often called double recovery, in the investor-State dispute settlement (ISDS) system and proposes a practical solution to the problems which double compensation creates. The book responds to all the key questions that legal counsel, arbitrators, judges, and scholars facing the double compensation issue may have, including: What requirements must be met for the problem to arise? What have others said and done about the problem? What is the most effective way to tackle it? The proposed solution is based on currently

available legal doctrines and practice and strikes a balance between investors' and States' interests.

Unnaturally French Peter Sahlins, 2018-08-06 In his rich and learned new book about the naturalization of foreigners, Peter Sahlins offers an unusual and unexpected contribution to the histories of immigration, nationality, and citizenship in France and Europe. Through a study of foreign citizens, Sahlins discovers and documents a premodern world of legal citizenship, its juridical and administrative fictions, and its social practices. Telling the story of naturalization from the sixteenth to the early nineteenth centuries, *Unnaturally French* offers an original interpretation of the continuities and ruptures of absolutist and modern citizenship, in the process challenging the historiographical centrality of the French Revolution. *Unnaturally French* is a brilliant synthesis of social, legal, and political history. At its core are the tens of thousands of foreign citizens whose exhaustively researched social identities and geographic origins are presented here for the first time. Sahlins makes a signal contribution to the legal history of nationality in his comprehensive account of the theory, procedure, and practice of naturalization. In his political history of the making and unmaking of the French absolute monarchy, Sahlins considers the shifting policies toward immigrants, foreign citizens, and state membership. Sahlins argues that the absolute citizen, exemplified in Louis XIV's attempt to tax all foreigners in 1697, gave way to new practices

in the middle of the eighteenth century. This citizenship revolution, long before 1789, produced changes in private and in political culture that led to the abolition of the distinction between foreigners and citizens. Sahlins shows how the Enlightenment and the political failure of the monarchy in France laid the foundations for the development of an exclusively political citizen, in opposition to the absolute citizen who had been above all a legal subject. The author completes his original book with a study of naturalization under Napoleon and the Bourbon Restoration. Tracing the twisted history of the foreign citizen from the Old Regime to the New, Sahlins sheds light on the continuities and ruptures of the revolutionary process, and also its consequences.

American Exceptionalism, the French Exception, and Digital Media Law Lyombe S. Eko, 2013-07-10
This volume explores and explains sameness and difference between the United States and France in the matters of freedom of expression on the Internet, the management of the tensions that arise between freedom of expression and the right of privacy of public figures, the comparative role of interest groups in the regulation of Internet content in both countries, the intellectual property implications of the digitization and transfer of journalistic works from print to searchable electronic databases, how courts in the United States and France managed the copyright issues that were triggered by the Google Book

Search project, as well as the clash between intellectual property rights and freedom of expression in the area of parody or “gripe” web sites on the Internet. The volume presents American exceptionalism and the French exception as functionally equivalent logics that lead to different freedom of expression outcomes. This book makes a significant contribution to comparative communication law studies, an area that has not received serious academic interest.
