Shadow Breakers Daniel Blythe, 2013-01-01 Can she escape the shadows and face

the truth before the darkness destroys her? If the enemy is a fire, the evil is its shadow, flickering upon the wall. That's very poetic, Miss Bellini. I just wish I knew what it meant. Miranda's new home is a dull seaside town at the edge of the world, the sort of forgotten place where nothing ever happens. Until something does. Something strange and sinister. With her schoolteacher and her classmates, who might be more clued in than they let on, Miranda sets out to uncover the mystery. Her bravery borders on recklessness. She thinks she's chasing shadows, tortured spirits from centuries past, but could true darkness lie within? With a mixture of science and magic, Miranda's got to figure out how to break and banish the evil before it destroys her. An electrifying paranormal thriller that will have readers guessing till the end!

Launch! Advertising and Promotion in Real Time Michael Solomon, 2009 Launch!

Advertising and Promotion is written for advertising and promotion courses taught to students in the business school and journalism & mass communication students. This textbook is the first of its kind to teach advertising concepts by reverse engineering a real advertising campaign from beginning to end. In April 2007, SS+K, an innovative New York City communications agency, launched the first ever branding campaign for msnbc.com

with the tag A Fuller Spectrum of News. Launch! follows that campaign from initial agency pitch through roll-out of print and media assets to post-campaign analysis. Throughout, it exposes readers to the theory and concepts of advertising and promotion, and the personalities and decisions that drove this campaign. The book takes a rare look behind the curtain - even letting you see some of the paths not chosen by the agency and client. Students get a realistic sense of how theory plays out in practice, and get a flavor for the exciting field of advertising and promotion. And, they consistently learn the perspectives of both the advertising agency (where many journalism and communications students will work) and the client (where many marketing majors will work). This is a unique book, with a unique perspective, by a unique author team, and you won't find this kind of insight in any other text on the market. We think you're going to love it! This textbook has been used in classes at: Ball State University, Emerson College, Florida Institute of Technology, Grand Valley State University, Johnson County Community College, Manchester Business School, McLennan Community College, Michigan State University, North Hennepin Community College, Pierce College, Rochester Institute of Technology, Saint Louis University, Salem State College, South Dakota State University, Texas State University, Texas Tech University, University of New Hampshire, University of North Carolina, University of Notre Dame, University of South Florida, Virginia Tech, Western Kentucky University.

Mokole James Ray Comer,1999-11 Werewolf: The Apocalypse is about anger over the loss of what the shapeshifting Garou hold dearest: Gaia, the Earth itself. Corruption from without and within has caused the destruction not only of the Garou's environment, but also of their families, friends and culture, which extends in an unbroken line to the very dawn of life. No matter how righteously the Garou hold themselves, no matter how they prey on their destroyers, the corruption spreads. Now the time for reconciliation is past. This grave insult against Gaia can end in only one way: blood, betrayal... and rage. Details the werecrocodilians of the World of Darkness.

The Philosophy of Mathematics Education Paul Ernest, Ole Skovsmose, Jean Paul van Bendegem, Maria Bicudo, Roger Miarka, Ladislav Kvasz, Regina Moeller, 2016-07-15 This survey provides a brief and selective overview of research in the philosophy of mathematics education. It asks what makes up the philosophy of mathematics education, what it means, what questions it asks and answers, and what is its overall importance and use? It provides overviews of critical mathematics education, and the most relevant modern movements in the philosophy of mathematics. A case study is provided of an emerging research tradition in one country. This is the Hermeneutic strand of research in the philosophy of mathematics education in Brazil. This illustrates one orientation towards research inquiry in the philosophy of mathematics education. It is part of a broader practice of 'philosophical archaeology': the uncovering of hidden assumptions and buried ideologies within the concepts and methods of research and practice in mathematics education. An extensive bibliography is also included.

Serving as a human guinea pig for many of the most popular cutting-edge New Age, human potential, and spiritual experiments, Eliezer Sobel recounts intercontinental adventures in India, Israel, Brazil, and Haiti. From Primal Therapy to the Dalai Lama, this perceptively witty analysis includes brushes with cults, wild experiments with sex and psychedelics, and encounters with visionary gurus and contemporary madmen.

Black American Cinema Manthia Diawara, 2012-10-02 This is the first major collection of criticism on Black American cinema. From the pioneering work of Oscar Micheaux and Wallace Thurman to the Hollywood success of Spike Lee, Black American filmmakers have played a remarkable role in the development of the American film, both independent and mainstream. In this volume, the work of early Black filmmakers is given serious attention for the first time. Individual essays consider what a Black film tradition might be, the relation between Black American filmmakers and filmmakers from the diaspora, the nature of Black film aesthetics, the artist's place within the community, and the representation of a Black imaginary. Black American Cinema also uncovers the construction of Black sexuality on screen, the role of Black women in independent cinema, and the specific question of Black female spectatorship. A lively and provocative group of essays debate the place and significance of Spike Lee. Of crucial importance are the ways in which the essays analyze

those Black directors who worked for Hollywood and whose films are simplistically dismissed as sell-outs, to the Hollywood master narrative, as well as those crossover filmmakers whose achievements entail a surreptitious infiltration of the studios. Black American Cinema demonstrates the wealth of the Black contribution to American film and the complex course that contribution has taken. Contributors: Houston Baker, Jr., Toni Cade Bambara, Amiri Baraka, Jacquie Bobo, Richard Dyer, Jane Gaines, Henry Louis Gates, Jr., Ron Green, Ed Guerrero, bell hooks, Phyllis Klotman, Ntongele Masilela, Clyde Taylor, and Michele Wallace.
