Winning Quickly with 1.b3 and 1...b6 Ilya Odessky, 2020-07-03 "I left chess in 2012. I did not touch it for several years. Then I decided to test my strength in Internet blitz. I started from scratch. The board floated before my eyes, and my knee twitched. Less than two months later, I crossed the grandmaster rating mark. My opponents, among them lots of players with a big name, played chess better than me. Surprisingly though, I knew more. On a small island of chess theory, onto which I lured them, I was better equipped. Much better! About 30% of the games ended in wins around the 20th move. A quarter of the games simply ended in mate. In all games, I opened with the moves 1.b3 and 1...b6." International Master Ilya Odessky is the world's leading expert on the 1.b3 and 1...b6 chess opening systems. Despite their apparent calm, these openings can get extremely sharp. Now Odessky presents his findings and achievements of recent years. His baffling traps will help you crush your opponents in the opening, with both White and Black. Odessky admits that some of his lines may objectively be somewhat dubious. But in blitz and rapid games they will lead to spectacular play and many surprising wins. Ilya Odessky will entertain, amuse and surprise you in this highly unusual chess opening book full of ultra-romantic chess.

House of Outrageous Fortune Michael Gross,2014-03-11 "Michael Gross's new book...packs [in] almost as many stories as there are apartments in the building. The Jackie Collins of real estate likes to map expressions of power, money and ego... Even more crammed with billionaires and their exploits than 740 Park" (Penelope Green, The New York Times). With two concierge-staffed

lobbies, a walnut-lined library, a lavish screening room, a private sixty-seat restaurant offering residents room service, a health club complete with a seventy-foot swimming pool, penthouses that cost almost \$100 million, and a tenant roster that's a roll call of business page heroes and villains, Fifteen Central Park West is the most outrageously successful, insanely expensive, titanically tycoon-stuffed real estate development of the twenty-first century. In this "stunning" (CNN) and "deliciously detailed" (Booklist, starred review) New York Times bestseller, journalist Michael Gross turns his gimlet eye on the new-money wonderland that's sprung up on the southwest rim of Central Park. Mixing an absorbing business epic with hilarious social comedy, Gross "takes another gossip-laden bite out of the upper crust" (Sam Roberts, *The New York Times*), which includes Denzel Washington, Sting, Norman Lear, top executives, and Russian and Chinese oligarchs, to name a few. And he recounts the legendary building's inspired genesis, costly construction, and the flashy international lifestyle it has brought to a once benighted and socially déclassé Manhattan neighborhood. More than just an apartment building, 15CPW represents a massive paradigm shift in the lifestyle of New York's rich and famous—and is a bellwether of the city's changing social and financial landscape.

Born a Crime Trevor Noah, 2016-11-15 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find

himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

City Spies James Ponti, 2021-01-26 A New York Times bestseller! A GMA3 Summer Reading Squad Selection! "Ingeniously plotted, and a grin-inducing delight." —People "Will keep young readers glued to the page...So when do I get the sequel?" —Beth McMullen, author of Mrs. Smith's Spy School for Girls In this thrilling new series that Stuart Gibbs called "a must-read," Edgar Award winner James Ponti brings together five kids from all over the world and transforms them into real-life spies—perfect for fans of Spy School and Mrs. Smith's Spy School for Girls. Sara Martinez is a hacker. She recently broke into the New York City foster care system to expose her foster

parents as cheats and lawbreakers. However, instead of being hailed as a hero, Sara finds herself facing years in a juvenile detention facility and banned from using computers for the same stretch of time. Enter Mother, a British spy who not only gets Sara released from jail but also offers her a chance to make a home for herself within a secret MI6 agency. Operating out of a base in Scotland, the City Spies are five kids from various parts of the world. When they're not attending the local boarding school, they're honing their unique skills, such as sleight of hand, breaking and entering, observation, and explosives. All of these allow them to go places in the world of espionage where adults can't. Before she knows what she's doing, Sara is heading to Paris for an international youth summit, hacking into a rival school's computer to prevent them from winning a million euros, dangling thirty feet off the side of a building, and trying to stop a villain...all while navigating the complex dynamics of her new team. No one said saving the world was easy...

Planning algorithms are impacting technical

disciplines and industries around the world, including robotics, computer-aided design, manufacturing, computer graphics, aerospace applications, drug design, and protein folding. This coherent and comprehensive book unifies material from several sources, including robotics, control theory, artificial intelligence, and algorithms. The treatment is centered on robot motion planning, but integrates material on planning in discrete spaces. A major part of the book is devoted to planning under uncertainty, including decision theory, Markov decision processes, and information spaces, which are the 'configuration spaces' of all sensor-based planning problems. The last part of the book delves into planning under differential constraints that arise when automating the motions of virtually any mechanical system.
