Roleplaying Games in the Digital Age Stephanie Hedge,Jennifer Grouling,2021-02-22 The Digital Age has created massive technological and disciplinary shifts in tabletop role-playing, increasing the appreciation of games like Dungeons & Dragons. Millions tune in to watch and listen to RPG players on podcasts and streaming platforms, while virtual tabletops connect online players. Such shifts elicit new scholarly perspectives. This collection includes essays on the transmedia ecology that has connected analog with digital and audio spaces. Essays explore the boundaries of virtual tabletops and how users engage with a variety of technology to further role-playing. Authors map the growing diversity of the TRPG fandom and detail how players interact with RPG-related podcasts. Interviewed are content creators like Griffin McElroy of The Adventure Zone podcast, Roll20 co-creator Nolan T. Jones, board game designers Nikki Valens and Isaac Childres and fan artists Tracey Alvarez and Alex Schiltz. These essays and interviews expand the academic perspective to reflect the future of role-playing.

Programming in C++ T. B. D'Orazio,2004 D'Orazio's Programming in C++: Lessons and Applications provides an accessible introduction to programming in C++. It teaches the C++ language and object-oriented design to students with no previous programming experience. The focus is on developing programs for solving a variety of problems. Each chapter of the book is divided into two parts--Lessons and Applications. The Lessons teach C++ language elements and simple programming techniques, and the Applications teach program design. A step-by-step methodology for program development is presented early in the text and reinforced throughout with the help of the application examples and over thirty case studies.

100 Days of Sunlight Abbie Emmons,2019-08-07 When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's obnoxious optimism, convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. 100 Days of Sunlight is a poignant and

heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.
