Jim Lochner

The Music of Charlie Chaplin Jim Lochner, 2018-10-02 Charlie Chaplin the actor is universally synonymous with his beloved Tramp character. Chaplin the director is considered one of the great auteurs and innovators of cinema history. Less well known is Chaplin the composer, whose instrumental theme for Modern Times (1936) later became the popular standard Smile, a Billboard hit for Nat King Cole in 1954. Chaplin was prolific yet could not read or write music. It took a rotating cast of talented musicians to translate his unorthodox humming, off-key singing, and amateur piano and violin playing into the singular orchestral vision he heard in his head. Drawing on numerous transcriptions from 60 years of original scores, this comprehensive study reveals the untold story of Chaplin the composer and the string of famous (and not-so-famous) musicians he employed, giving fresh insight into his films and shedding new light on the man behind the icon.

Philippe Garrel Michael Leonard, 2020-01-17 Described by Giles Deleuze as 'one of the greatest modern auteurs', Philippe Garrel is widely acknowledged as the most significant filmmaker to emerge in France after the New Wave. His deeply personal cinema traces the troubled sentimental lives of couples, exploring the relationship between art and political struggle. This study observes the eclecticism of the director's influences, looking to avant-garde movements such as the Situationists, Surrealism, Arte Povera and the American Underground, in order to explore his original body of work. Consideration is also given to Garrel's relationship with other members of the so-called 'post-New Wave', including Jean Eustache and Chantal Akerman. The first book on Garrel's cinema to appear in English, it will appeal to Garrel enthusiasts as well as to students and lecturers specialising in film studies or French studies.

At 640 pages, it contains the scores and standings for every international game and event ever contested, the statistics for every player, coach, and on-ice official in IIHF competition history, and the results and histories of every nation that has ever participated in an IIHF event. Full of information on every aspect of the international game, this is the one and only source fans will need if they are interested in the World Junior Championship, Team Canada, or any other aspect of the international game. Memory in World Cinema Nancy J. Membrez, 2019-09-03 Film itself is an artifact of memory. A blend of all the other fine arts, film portrays and preserves human memory, someone's memory, faulty or not, dramatically or comically, in a documentary, feature film or short. Hollywood may dominate 80 percent of cinema production but it is not the only voice. World cinema is about those other voices. Drawn initially from presentations from a series of film conferences held at the University of Texas at San Antonio, this collection of essays covers multiple geographical, linguistic, and cultural areas worldwide, emphasizing the historical and cultural interpretation of films. Appendices list films focusing on memory and invite readers to explore the films and issues raised.
