*Child and Adolescent Psychiatry and the Media* Eugene V. Beresin, Cheryl K. Olson, 2018-10-12 Get a quick, expert overview of the increasingly important topic of technology and social media and its impact on children and adolescents. This practical resource presents a focused summary of today's current knowledge on topics of interest to psychiatrists, pediatricians, and other health professionals working with children and adolescents. It provides current, relevant information on a wide variety of media-related topics as they relate to child and adolescent health and mental illness, making it a one-stop resource for staying up to date in this critical area.

Child and Adolescent Mental Health David L. Kaye, Maureen Elmer Montgomery, 2002 Ideal for the general practitioner, this practical guide to pediatric mental health explains the various systems involved in children's mental health (i.e. schools, social services, the legal and mental health systems) and addresses common mental health problems seen frequently in practice. Included are chapters on learning disabilities, autism, ADHD, aggression, substance abuse, mood disorders, anxiety disorders, and a host of other difficulties. Each chapter is written by a general pediatrician and a child psychiatrist. Blending these perspectives, the authors present a pragmatic and current approach to issues of office evaluation, assessment, and treatment, including pediatric psychopharmacology.

**Quirky Kids** Perri Klass, Eileen Costello, 2007-12-18 The toddler whose tantrums scare all the other kids on the playground . . . The three-year-old who ignores all his toys but seems passionately attached to the vacuum cleaner . . . The fourth-grade girl who never gets invited to a birthday party because classmates think she's "weird" . . . The geek who is terrific at math, but is failing every other subject. Quirky children are different from other kids in ways that they-and their parents and teachers-have a hard time understanding or explaining. Straddling the line

between eccentric and developmentally impaired, quirky children present challenges that standard parenting books fail to address. Now, in *Quirky Kids*, nationally known writer/pediatrician Perri Klass and her colleague Eileen Costello, a seasoned pediatrician with a special interest in child development, finally provide the expert guidance and in-depth research that families with quirky children so desperately need. A generation ago, such children were called odd ducks or worse. But nowadays, they are often assigned medical, psychiatric, or neurological diagnoses. The diagnoses often overlap or shift, but the labels can be frightening. Klass and Costello illuminate the confusing list of terms applied to quirky children these days—nonverbal learning disability, sensory integration disorder, obsessive-compulsive behavior, autistic spectrum disorder, pervasive developmental disorder, Asperger's syndrome—and explain how to assess what exactly each diagnosis means and how to use it to help a child most effectively. *Quirky Kids* takes you through the stages of a child's life, helping to smooth the way at home, at school, even on the playground. How do you make it through mealtime, when emotions often erupt? How do you help the child's siblings understand what's going on? Is it better to "mainstream" the child or seek a special education program? How can you make a school more welcoming and flexible for a quirky child? How do you help your child deal with social exclusion, name-calling, and bullying? Choosing the right therapy for quirky children is especially difficult, because their problems fall outside traditional medical categories. Coping strategies might include martial arts or horseback riding, or speech and occupational therapies. Klass and Costello cover all the options, as well as offer a thorough consideration of the available medications, how they work, and whether medication is the best choice for your child. Drs. Klass and Costello firmly believe that the ideal way to help our quirky kids is to understand and embrace the qualities that make them exceptionally interesting and lovable. Written with upbeat clarity and informed

insight, their book is a comprehensive guide to loving, living with, and enjoying these wonderful if challenging children. From the Hardcover edition.

**Fast Families, Virtual Children** Ben Agger, Beth Anne

Shelton, 2016-01-20 The Internet, cell phones, and other technologies have changed the ways in which people conduct their family lives, raise children, and navigate the blurry boundary between work and home. Private life is colonized by employers, teachers, corporations; family time is taken up by work, homework, and shopping. What it means to be parents and children has changed dramatically. This book shows how the nurturance of family has increasingly become a willful, radical idea in an era of pervasive technology. The authors analyze important trends, including the acceleration and attenuation of childhood, and offer a children's bill of rights and accompanying parental responsibilities.

Born to Buy Juliet B. Schor, 2014-08-19 Ads aimed at kids are virtually everywhere -- in classrooms and textbooks, on the Internet, even at slumber parties and the playground. Product placement and other innovations have introduced more subtle advertising to movies and television. Companies are enlisting children as guerrilla marketers, targeting their friends and families. Even trusted social institutions such as the Girl Scouts are teaming up with marketers. Drawing on her own survey research and unprecedented access to the advertising industry, New York Times bestselling author and leading cultural and economic authority Juliet Schor examines how a marketing effort of vast size, scope, and effectiveness has created commercialized children. Schor, author of *The Overworked American* and *The Overspent American*, looks at the broad implications of this strategy. Sophisticated advertising strategies convince kids that products are necessary to their social survival. Ads affect not just what they want to buy, but who they think they are and how they feel about themselves. Based on long-term analysis, Schor reverses the conventional notion of causality: it's not just that problem kids become overly involved in the values of consumerism; it's that kids who are overly involved in the values of consumerism become problem kids. In this revelatory and crucial book, Schor also provides guidelines for parents and teachers. What is at stake is the emotional and social well-being of our children. Like Barbara Ehrenreich's *Nickel and Dimed*, Mary Pipher's *Reviving Ophelia*, and Malcolm Gladwell's *The Tipping Point*, *Born to Buy* is a major contribution to our understanding of a contemporary trend and its effects on the culture.

**Unplug Your Kids** David Dutwin, 2008-12-01 TV. Web Surfing. IMing. Text Messaging. Video Games. iPods. Kids today are plugged into so much, so much of the time, it's hard to keep track. But parents do know this much: It's too much, already! In this book, parent and scholar David Dutwin, Ph.D., shows parents

everywhere how to cut the digital cord and free their children to play and learn the old-fashioned way - actively! Organized in three sections, this practical, prescriptive book offers a balanced - and realistic - approach for every age, including how to: introduce toddlers to TV - or not; let little kids use computers; control pre-teens' online access; evaluate the pros and cons of video games; filter the Internet for teens; combat the impact of the media; and counteract all that sex and violence. This guide arms parents with all the tricks and tools they need to make sure their kids remain happy, healthy, active, and aware, no matter how pervasive the digital world we live in becomes.

**Multi-Ethnic Britain 2000+** ,2008-01-01 Multi-Ethnic Britain 2000+ provides an encompassing survey of artistic responses to the changes in the British cultural climate in the early years of the 21st century. It traces topical reactions to new forms of racism and religious fundamentalism, to legal as well as 'illegal' immigration, and to the threat of global terror; yet it also highlights new forms of intercultural communication and convivial exchange. Framed by contributions from novelists Patrick Neate and Rajeev Balasubramanyam, Multi-Ethnic Britain 2000+ showcases how artistic representations in literature, film, music and the visual arts reflect and respond to social and political discourses, and how they contribute to our understanding of the current (trans)cultural situation in Britain. The contributions in this volume cover a wide range of writers such as Graham Swift, Ian McEwan, Zadie Smith, Jackie Kay, Nadeem Aslam, Gautam Malkani, Nirpal Dhaliwal and Monica Ali; films ranging from Gurinder Chadha's Bend It Like Beckham and Bride and Prejudice to Michael Winterbottom's In This World and Alfonso Cuarón's Children of Men; paintings and photography by innovative black and Asian British Artists; and dubstep music.

*The "dot Kids" Internet Domain* United States. Congress. House. Committee on Energy and Commerce. *Sleeping Through The Fire* Allen Strother, 2011-08-18 It is a tragic thing when people perish while Sleeping Through The Fire. It is the same when people experience spiritual death because of the metaphorical “fires” that blind them to the things that can either save or destroy them. Allen Strother’s book addresses the issues that many of us deal with on a regular basis or that frequently come up in conversation. Though it is nothing new, the topics are presented in a way that move us out of our comfort zone and challenge us by provoking thought regarding where we stand in the social, spiritual, and economic climate we live in. Every chapter in *Sleeping through the Fire* touches on loving our neighbor as ourselves and making God our first love. This is not a how-to book or an instructional book on Christianity, but a book that stresses where our mind-set should be, which aids us in governing how we think and ultimately what we do.
