The Survivors D. Brandon, K. Wells, C. Francis, E. Ramsay, 2023-03-24 First published in 1980, *The Survivors* is a detailed and original study of the experiences of homeless young people in central London. The book is based on in-depth interviews with 107 'newcomers', who were selected at two nightshelters and a government reception centre. Their views and experiences are recorded, their backgrounds described and their reasons for coming to London examined. We learn how they coped with the interventions of both those who want to hinder and those who want to help, and how in general they survived – and sometimes even enjoyed themselves – in an extreme environment. The authors also examine the ways in which the various helping agencies view the 'problem'. They claim that the agencies tend to present a pessimistic picture – one that understates the resilience and resourcefulness of these young people, dismisses their spirit of their adventure, and concentrates almost exclusively on the dangers, difficulties and hardships. This book will be of interest to students of sociology, urban studies, public policy and economics.

Changes to housing benefit announced in the June 2010 budget Great Britain: Parliament: House of Commons: Work and Pensions Committee, 2010-12-22 The Work and Pensions Committee report that there is still a level of uncertainty around the impact of the proposed changes to Housing Benefit and their cumulative effect on households. The report examines the wide-ranging reforms to the Housing Benefit system proposed by the Government, and in particular for claimants in the private rented sector, in receipt of Local Housing Allowance. The Committee accepts the Government's desire to slow the sharp

rise in Housing Benefit costs, particularly in the private rented sector, and thereby to influence the private rental market. However, it expresses some concerns about the availability of private rented accommodation in certain localities, which tenants are likely to be able to secure at the new Housing Benefit levels.
