Cheap Insurance for Your Home, Automobile, Health, & Life Carla Rowley, Lee Rowley, 2008 Insurance takes a huge bite out of the average American's monthly budget, and as stated above, many Americans simply forgo insurance because they consider it out of reach. Shopping for insurance requires more effort than many people want to devote to it. They simply grab the first price they come across or accept routine rate increases when it is important to compare not only the price but also coverage and exclusions among carriers. In this easy to read and comprehensive new book you will learn hundreds of ways to secure and or reduce your health, automobile, life, and home insurance costs. If you do not have or cannot afford insurance, we will show you how to get it at a price you can afford. The Internet and technology have opened up a great new way to search for low cost insurance services; we will give you the Web sites, tell you what to look for and to look out for. There is a great deal you can do right now to cut insurance costs. For example, did you know that installing a theft tracking device in your car can save you up to 35% on your auto insurance and that your credit history can dramatically affect your auto insurance premium. Recent studies have shown that more than 90% of insurers use credit information to create an insurance risk score, which they then use as a factor to determine your insurance rate. Add a simple home security system to monitor your home, and your insurance rates may be discounted up to 30%, depending upon where you live. Your insurance could end up costing you more if you choose to make monthly payments rather than pay the entire premium annually. Notify your agent if you retire, your children go to school, or you start working from home (when you're not traveling as much your rates will go down). Have you stopped smoking? Lost weight? Started exercising? All of these efforts can have a dramatic effect on your insurance rates. Insurance topics covered in this book are How Insurance Works, Insurance Company Rating, National and Local Firms, Auto, Health, and Disability Insurance, along with work sheets and forms to assist you in your search for the best coverage at the lowest price. Ten Questions - The Insider's Guide to Saving Money on Auto Insurance John David,Sarah David,2010-11-01 How much do you pay for your auto insurance? If you are reading this, the answer is most likely “too much!” You are looking for information that will help you save your hard-earned dollars, and you have found it. Ten Questions has been completely updated, revised, and expanded for 2012. It has also been reformatted for the Kindle at last, and the most effective way to use the guide is to own both the ebook and paperback versions. Ten Questions is not a book for dummies, but it is an easy to use, half-hour read, specifically designed to help save you money. It is a comprehensive and detailed explanation of the underwriting process involved in determining the amount of premium you pay. The facts and clear examples included in the guide are based on my years of experience as a top-rated Sales Agent, and the thousands of auto insurance policies I personally have sold. Chapter One, “Risk” will help you understand what factors are used to determine your rating “tier,” and how to improve them. The amount of premium you pay is determined by the amount of “risk” you are seen to represent. Much of that determination is made through your answers to a series of questions you will be asked, either online, or in person by an agent. These are the “Ten Questions” referred to in the title. Chapter Two, “Discounts” contains a detailed description of nearly every available auto insurance discount, and how to obtain them. A single 5% discount that you have been missing each policy term is costing you far more than this guide will. You will also gain the knowledge that you will need to progressively lower your rates over time. Chapter Three, “Coverages” is a comprehensive explanation of nearly every available auto insurance coverage, including what each one does, (and does not do) for you, and how to the determine the proper balance of cost versus benefit when choosing them. When you finish reading it, you will know more about auto insurance than most agents do. Ten Questions isn't about getting the cheapest policy at the cheapest price: It's about getting the best policy at the best price. Chapter Four, “Sample Quote Process,” is your ultimate weapon in getting your new policy, because it details an actual phone quote in real time, along with the “correct” answers to the “Ten Questions.” Knowledge is power, and this guide is a very powerful tool that you will be able to use as long as you are driving and insuring vehicles. Advanced Topics is new for 2012,and this section includes “Youthful Driver Strategies,” and “State Specific Information,” such as a layman's explanation of so-called “No-Fault” coverages, and “Full,” versus “Limited” Tort. The Appendix contains all the technical terms that are used in the guide, to help you understand the trade talk in the auto insurance industry. This guide will save you money in several ways, including: It will help you find and qualify for discounts. It will show you how to improve your rating tier, and lower your “base rate.” It will help you allocate your premium dollars more effectively, so that you get the best coverage at the best price. Find out what the insurance companies don't want you to know, like the fact that you can switch carriers any time you want, as often as you want. You do not have to wait until your current policy renews in order to do so. Learn the answers to the Ten Questions today, and get a better policy for less money, tomorrow.
