This conference also cares about teaching/learning materials, various forms of assessment, traditional and innovative educational research designs, Informatics' contribution to the preparation of children for the 21st century, motivating competitions, projects and activities supporting informatics education in school.

**Handbook Of Detergents, Part C** Heinrich Waldhoff,Rudiger Spilker,2016-04-19 The scope and spectrum of methods and techniques applied in detergent analysis have changed significantly during the last decade. Handbook of Detergents, Part C: Analysis demonstrates state-of-the-art strategies, methods, and techniques for the analytical deformation of modern detergents. It offers a comprehensive view of all aspects of detergents, including typical ingredients of modern products, testing of detergent formulations, the determination of detergent ingredients in the environment, and the application of modern instrumental techniques. The handbook outlines features and experimental parameters for many essential procedures, and emphasizes the latest techniques and methods.

The Art of Analog Layout Alan Hastings,2006 For Electrical Engineering courses in analog layout or professional layout designers. This text covers the issues involved in successfully laying out analog integrated circuits. Hastings provides clear guidance and does not stress theoretical physics or mathematical analysis of layouts. He emphasizes cross- sections of devices and carrier-based models of device operation as compared to the more common geometric and schematic representation of devices.

**E-Business Essentials** Nick Bontis,2004-09-01 This special issue of QJEC marks the final instalment of the journal. The QJEC has had a long-standing history of international scholarship focused on the emerging field of electronic commerce with a broad, interdisciplinary approach. It has established the field's intellectual foundation with state-of-the-art research from business, computer science, engineering, law, psychology, and sociology. This particular issue focuses on an eclectic group of papers that are international in scope with authors from Canada, Australia, France, Germany, South Africa and Italy. The papers range in topics from valuing dot com companies, to mobile health and portals, to supply chain management.

**Dalits** Anand Teltumbde,2016-08-19 This book is a comprehensive introduction to dalits in India (who comprise over one-sixth of the country's population) from the origins of caste system to the present day. Despite a plethora of provisions for affirmative action in the Indian Constitution, dalits are largely excluded from the mainstream except for a minuscule section. The book traces the multifarious changes that befell them during the colonial period and their development thereafter under the leadership of Babasaheb Ambedkar in the centre of political arena. It looks at hitherto unexplored aspects of the degeneration of the dalit movement during the

post-Ambedkar period, as well as salient contemporary issues such as the rise of the Bahujan Samaj Party, dalit capitalism, the occupation of dalit discourse by NGOs, neoliberalism and its impact, and the various implicit or explicit emancipation schemas thrown up by them. The work also discusses ideology, strategy and tactics of the dalit movement; touches upon one of the most contentious issues of increasing divergence between the dalit and Marxist movements; and delineates the role of the state, both colonial and post-colonial, in shaping dalit politics in particular ways. A tour de force, this book brings to the fore many key contemporary concerns and will be of great interest to students, scholars and teachers of politics and political economy, sociology, history, social exclusion studies and the general reader.
