Dangerous Energy Wayne D. Cocroft,2014-06-15 This book comprises a national study of the explosives industry and provides a framework for identification of its industrial archaeology and social history. Few monuments of gunpowder manufacture survive in Britain from the Middle Ages, although its existence is documented. Late 17th-century water-powered works are identifiable but sparse. In the later 18th century, however, the industry was transformed by state acquisition of key factories, notably at Faversham and at Waltham Abbey.In the mid-19th century developments in Britain paralleled those in continental Europe and in America, namely a shift to production on an industrial scale related to advances in armaments technology. The urgency and large-scale demands of the two world wars brought state-directed or state-led solutions to explosives production in the 20th century. Yhe book’s concluding section looks at planning, preservation, conservation and presentation in relation to prospective future uses of these sites.

A Portrait of Historic Athens & Clarke County Frances Taliaferro Thomas,2009 Athens, Georgia, seems the quintessential southern university town. With a geography chiseled over geologic time by its lifeblood, the slow-flowing Oconee River, Athens has developed a unique culture as the two-century-long home of the state's bustling center of learning and research, the University of Georgia. A multitude of influences have powered the emergence of Athens from its eighteenth-century rustic solitude to its current incarnation as a community striving to preserve the old while embracing the new. A Portrait of Historic Athens and Clarke County gives equal attention to Athens's natural and built environments and their coevolution into one of the modern South's most dynamic small cities. Starting with the town's beginnings, Frances Taliaferro Thomas emphasizes settlement patterns, key events, institutions, architecture, landscape, economics, and the highly distinctive personalities that have molded Athens into what it is today. This edition includes two new sections of color photographs as well as a comprehensive new chapter tracing the milestones that led town and gown into the twenty-first century. Topics include the emerging cultural importance of the Classic Center; restoration and revitalization of many historic sites; vast building projects under two presidents of the University of Georgia; the progression of the greenway along the North Oconee River; and initiatives to address rising poverty rates within the county. Blending scholarly research with archival materials, official data, newspaper accounts, interviews, and personal letters and diaries, A Portrait of Historic Athens and Clarke County is the definitive account of a place that makes history each and every day.
