90 Two (HB) Dastan Khalili,2022-02-23 *90 Two (HB)* By: Dastan Khalili *DiaVerse*, *dia* meaning “two” and *verse* for the poetic rhyme, is a brand-new style of poetry where the only rule is all stanzas must have a maximum of two words. Created by poet Dastan Khalili, the style of *DiaVerse* breathes new life into poetry. The restraint of *DiaVerse* forces poets to use the purest forms of expression. *90 Two* is ninety of Khalili’s *DiaVerse* poems, written over the last five years. He combines his poetic verses with digital artwork and imagery, each conveying a sensation of inspiration that came to life with each poem.

Gender Ideologies and Military Labor Markets in the U.S. Saskia Stachowitsch,2013-03 *Gender Ideologies and Military Labor Markets in the U.S.* offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women’s military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the U.S. military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military re-structuring processes, women’s military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics.
