The Better Mom Ruth Schwenk, 2018-04-24 Mothering is messy. Our joy and hope in raising children doesn't change the reality that being a mom can be frustrating, stressful, and tiring. But just as God is using us to shape our children, God is using our children and motherhood to shape us. In *The Better Mom*, author Ruth Schwenk, herself a mother of four children, encourages us with the good news that there is more to being a mom than the extremes of striving for perfection or simply embracing the mess. We don't need to settle for surviving our kids' childhood. We can grow through it. With refreshing and heartfelt honesty Ruth emboldens moms to: Find freedom and walk confidently in purpose Create a God-honoring home environment Overcome unhealthy and destructive emotions such as anger, anxiety, and more Avoid glorifying the mess of mom-ing or idolizing perfection Cultivate life-giving friendships At the heart of *The Better Mom* is the message that Jesus calls us to live not a weary life, but a worthy life. We don't have to settle for either being apathetic or struggling to be perfect. Both visions of motherhood go too far. Ruth offers a better option. She says, "It's okay to

come as we are, but what we're called to do and be is far too important to stay there! The way to becoming a better mom starts not with what we are doing, but with who God is inviting us to become.

Cyber-Safe Kids, Cyber-Savvy Teens Nancy E. Willard, 2007-03-16 Essential strategies to keep children and teens safe online As our children and teens race down the onramp to the Information Superhighway, many parents feel left behind in the dust. News stories about online sexual predators, child pornography, cyberbullies, hate groups, gaming addiction, and other dangers that lurk in the online world make us feel increasingly concerned about what our children are doing (and with whom) in cyberspace. In *Cyber-Safe Kids, Cyber-Savvy Teens*, Internet safety expert Nancy Willard provides you with need-to-know information about those online dangers, and she gives you the practical parenting strategies necessary to help children and teens learn to use the Internet safely and responsibly. Parents protect younger children by keeping them in safe places, teaching them simple safety rules, and paying close attention. As children grow, we help them gain the knowledge, skills, and values to make good choices--choices that will keep them safe and show respect for the rights of

others. In *Cyber-Safe Kids, Cyber-Savvy Teens*, Willard shows you how those same strategies can be translated from the real world to the cyberworld, and that you don't have to learn advanced computer skills to put them into effect. As you work on these strategies with your child, you will also discover that remaining engaged with what your children are doing online is much more valuable than any blocking software you could buy. Willard blends the perspectives of a wise parent and a serious scholar about issues related to Internet behavior and safety. . . . Pick up the book, open it to any random page, and you will find on that page or nearby a wealth of helpful advice and useful commentary on the cyberreality facing our children and on how to deal with any of the issues she's identified. --Dick Thornburgh, J.D., former U.S. Attorney General; chair, National Academy of Sciences Committee on Youth Pornography and the Internet Simply put, this book is a must-read for anyone--parents, educators, law enforcement, and policymakers alike--concerned with the critical issue of children's internet safety and what to do about it. --Douglas Levin, senior director of education policy, *Cable in the Classroom*

The Authority On? Child Safety Gary Martin Hays,Adam Weart,Mary Ellen Fulkus,2012-11-30 What Would Your Child Do in these situations? * If your child was approached on the playground and asked if he could help find a lost puppy, what would he do? * If you and your daughter became separated in the mall, what would she do? * If your home catches on fire in the middle of the night, would your children know what to do? * If he is being bullied in the bathroom at school or on the bus, what should he do? Do you really know how your child would respond (or should respond), or are you just guessing? Have you ever asked him or her to find out? Would you know what to ask or how to ask it? Would you know what to discuss with your child in these situations? **The Authority On Child Safety: How To Talk To Your Kids About Their Personal Safety Without Scaring Them** is NOT just a book that tells parents how to keep their kids safe. We want to make that point perfectly clear. If you think that

your kids will be safe because you bought and read a book about child safety, then you are sadly mistaken. What you learn and digest does not matter one bit unless your child also learns safety concepts and drills. Then why should you buy it? This is the first place to start with educating your child on how to be safe. This is an interactive guide for parents to use to BEGIN the dialogue with their kids on how to be safe. We can not be with our kids 24/7. We will not always be there to protect them. At some point, they need to be empowered to stand up for themselves and to be able to protect themselves. Honestly ask yourself - what are you doing for your child - for your children - right now that is helping them to be able to protect themselves when you are not around? We are giving you a blueprint for you to use to start that process - right here, right now! In this guide, you will learn: * Why sticking your head in the sand and pretending crime does not exist is NOT a great way to protect your child (or yourself); * Important crime statistics that cannot be ignored! * Why Stranger Danger should NEVER be taught to our kids! * Where the registered sex offenders live in your area (hint: The U.S. Dept. Of Justice tells us there is on average one sex offender per square mile in the US); * Why your

child is NEVER too young to learn safety concepts; * Why you should not be comfortable in thinking your child is safe because you never leave your kid alone with someone you don't know; * Why the Once A Year Safety Day programs in our schools are not working; * Why education is the key to keeping our kids safe! * HOW TO start the all important dialogue with your child about safety issues they may face, including topics such as: -Abduction Prevention -Bullying Prevention -Good / Bad / Unwanted Touch -Sexual Assault Prevention -Home Safety -Water Safety -Fire Safety -Bicycle Safety - Car Safety -Dog Safety -Gun Safety -Out and About Safety -Internet Safety -Social Media Safety -Drug and Alcohol Awareness * How to EMPOWER you child! So how do you keep your child from becoming a victim? Education is the key. And it starts with a simple conversation between you and your child. We need to make sure our kids are taught to: (1) Understand and be able to recognize dangerous situations and behaviors. (2) Trust their gut - to trust their instincts. If something does not feel right to them, it probably isn't. (3) Have the self-confidence to be able to say NO if they ever feel threatened. You can't rely on our schools or others to empower your child. The process must start with you and

we show you how to begin. Also note: ALL proceeds from the sale of this book will benefit Let's Protect Our Kids, a program of Keep Georgia Safe.org, a 501(c)(3) charitable organization with the mission to provide safety education and crime prevention training.
