From Crib to Kindergarten Dorothy A. Drago, 2007-06-29 Named One of the Best Consumer Health Books of 2007 by Library Journal In childhood, the occasional bump or scrape comes with the territory. But serious injury is another matter, creating anxiety for even the most experienced parent. Fortunately, unintentional injury can be prevented. In this essential guide, an eminent child safety specialist explains how to reduce the risk of childhood injury at home—and beyond. Her tips help protect children from birth to age five—those who are most vulnerable to serious injury. She describes how to provide a safe environment during the daily activities of sleeping, eating, bathing, dressing, playing, and traveling. The major hazards and potential injuries associated with each activity are identified along with the age when the child is at greatest risk. Illustrations, checklists, and summary charts complement the text and put valuable lessons and critical information at parents' fingertips. *From Crib to Kindergarten* is an indispensable "how to" for parents, grandparents, teachers, babysitters, and daycare providers.

Safe Kids Vivian Kramer Fancher, 1991-09-03 With immunization against major childhood diseases widely available, parental concerns in the nineties are focused on safety issues. A handbook and working reference for parents of children from birth through high school. Using positive guidelines rather than a list of do's and don'ts, the book will help you provide your child with a sense of security and the ability to act and react in challenging situations. Topics covered include school, street, transportation, recreation and medical safety, spending time at home alone, sexual abuse and more. Parents and children will learn how to handle the hazards of today's complex world.

Safe Kids, Smart Parents Rebecca Bailey,Elizabeth Bailey,2013-06-11 Leading family psychologist and personal therapist to Jaycee Dugard, Rebecca Bailey tells parents how to keep their children safe in this accessible, must-have guidebook, with a foreword by Terry Probyn, Jaycee's mother. Whether their children are toddlers or teens, six years old or sixteen, whether they live in a rural town, suburb, or a bustling city, all parents worry about threats—from cyber-bullying to exploitation and abduction. What should they tell their children and when? What practical steps can they take to reduce the risks and keep their kids safe? Dr. Rebecca Bailey, with the assistance of her sister and registered nurse, Elizabeth, gives easily understood, easily followed answers. Safe Kids, Smart Parents builds on Dr. Bailey's years of experience as a family psychologist helping real families deal with real situations. From abduction to abuse, Bailey explains how parents can speak to their kids about troubling topics while building their self-esteem and teaching them how to protect themselves. A smart, comprehensive, and easy-to-read resource, Safe Kids, Smart Parents is the most important book a parent can own.

The Child Safety Guide for New and Expecting Parents Christian J. Bezick, 2004 You may not be aware of it, but being a young child can be dangerous. Children under the age of five ? babies, toddlers and preschoolers ? are injured and treated in hospital emergency rooms almost twice as frequently as the U.S. population five and older (on a per capita basis). Each year, approximately 1 in 11 children under age five are treated in hospital emergency rooms for injuries. And for every 2 young children treated in the ER, 3 are treated in doctors' offices and clinics. Although there are many ways in which a young child can get injured, in the overwhelming majority of cases, there is one common and consistent element ? a parent or caregiver did not recognize the danger involved. Child safety is different from many other aspects of parenting. The way a young child interacts with his environment ? the home, furniture and fixtures, baby products ? must be fully understood in

order to make his environment safe. Fortunately, most injuries are easily preventable when parents learn the child safety basics and become aware of the many subtle and unforeseen dangers facing their children. The Child Safety Guide for New and Expecting Parents enables parents and caregivers to learn about these important and critical elements essential for providing a safe environment for their children. Topics covered include childproofing, car seat selection, use and installation, child products, product recalls and hazards ? water, choking, window, poison ? which face our children daily. The content was selected to provide the most important information available to keep young children safe and focuses on safety issues for children from 0 to 5 years of age. The book was designed and organized for the sleep deprived and over-worked parent. We have used a larger than normal type face to go easy on the eyes (sleep deprived eyes) and have included many illustrations to visually portray safety concepts. The use of this book can and will go a long way in helping to reduce the many avoidable child injuries that occur daily throughout the U.S.
