*The SAGE Encyclopedia of Surveillance, Security, and Privacy* Bruce A. Arrigo, 2016-06-15 Although surveillance hit the headlines with revelations by Edward Snowden that the National Security Agency had been tracking phone calls worldwide, surveillance of citizens by their governments actually has been conducted for centuries. Only now, with the advent of modern technologies, it has exponentially evolved so that today you can barely step out your door without being watched or recorded in some way. In addition to the political and security surveillance unveiled by the Snowden revelations, think about corporate surveillance: each swipe of your ID card to enter your office is recorded, not to mention your Internet activity. Or economic surveillance: what you buy online or with a credit card is recorded and your trip to the supermarket is videotaped. Drive through a tollbooth, and your license plate is recorded. Simply walk down a street and your image could be recorded again and again and again. Where does this begin and end? In all levels of social structure, from the personal to the political to the economic to the judicial, *The SAGE Encyclopedia of Surveillance, Security, and Privacy* uncovers and explains how surveillance has come to be an integral part of how our contemporary society operates worldwide and how it impacts

our security and privacy. Key Features: Approximately 450 signed entries from contributors around the globe Further readings and cross-references conclude each article to guide students further as they explore a topic A Reader's Guide organizes entries by broad thematic areas

*An Impeccable Spy* Owen Matthews, 2019-03-21 SHORTLISTED FOR THE PUSHKIN HOUSE PRIZE 'The most formidable spy in history' IAN FLEMING 'His work was impeccable' KIM PHILBY 'The spy to end spies' JOHN LE CARRÉ Born of a German father and a Russian mother, Richard Sorge moved in a world of shifting alliances and infinite possibility. In the years leading up to and during the Second World War, he became a fanatical communist – and the Soviet Union's most formidable spy. *Precision Public Health* Tarun Weeramanthri, Hugh Dawkins, Gareth Baynam, Matthew Bellgard, Ori Gudes, James Semmens, 2018-06-25 Precision Public Health is a new and rapidly evolving field, that examines the application of new technologies to public health policy and practice. It draws on a broad range of disciplines including genomics, spatial data, data linkage,

epidemiology, health informatics, big data, predictive analytics and communications. The hope is that these new technologies will strengthen preventive health, improve access to health care, and reach disadvantaged populations in all areas of the world. But what are the downsides and what are the risks, and how can we ensure the benefits flow to those population groups most in need, rather than simply to those individuals who can afford to pay? This is the first collection of theoretical frameworks, analyses of empirical data, and case studies to be assembled on this topic, published to stimulate debate and promote collaborative work.

The Wizard of the Nile Matthew Green, 2012-03-22 A foreign correspondent's chronicle of the Ugandan warlord and his Lord's Resistance Army of abducted child soldiers: "a readable and compelling account" (Independent, UK). Somewhere in the jungles of Uganda, there hides a fugitive rebel leader: he is said to take his orders directly from the spirit world and, together with

his ragged army of brutalized child soldiers, he has left a bloody trail of devastation across his country. Joseph Kony is now an internationally wanted criminal, and yet nobody really knows who he is or what he is fighting for. To get the truth behind the rumors and myths, Matthew Green ventures into the war zone, meeting the victims, the peacemakers and the regional powerbrokers as he tracks down the man himself. The Wizard of the Nile is the first book to peel back the layers of mysticism and murky politics surrounding Kony, to shine a searching light onto this forgotten conflict, and to tell the gripping human story behind an inhumane war and a humanitarian crisis.
