Al Wasl Plaza Adrian Smith + Gordon Gill Architecture Adrian Smith + Gordon Gill Architecture,2022-04-12 In the book Al Wasl Plaza: Dubai Expo the architects, Adrian Smith + Gordon Gill Architecture highlight the inspiration and innovation of the design of Al Wasl Plaza. The book explores each aspect of the project including the garden, the trellis, three office buildings, and two hotel buildings, all of which serve to define the center of Expo 2020. The book is essentially

divided into three phases of design. The first phase focuses on the inspiration and conception of the project. Architectural studies, sketches, and models show the process that led to the final iconic form. The second phase introduces each of the parcels including the garden, trellis, offices, hotels, the Leadership Pavilion, and the Arrivals Plaza. Each chapter illustrates the design process, architectural details, and the development of the technical systems. The third and final phase summarizes the construction process, sustainability achievements, and looks to the future to reveal the District 2020 legacy master plan concept by AS+GG.

The Declaration of the Rights of Man and of Citizens Georg Jellinek, 2022-11-13 Georg Jellinek argues in his essay The Declaration of the Rights of Man and the Citizen for a universal theory of rights, as opposed to the culturally and nationally specific arguments then in vogue. Jellinek indicates that the French Revolution, which was the focal point of 19th-century political theory, should not be thought of as arising from a purely French tradition (namely the tradition stemming from Jean-Jacques Rousseau) but as a close analogue of revolutionary movements and ideas in England and the United States.

Chart No. 1 Nima, 2010 Chart Number One is essential to correct and accurate use of nautical charts. More than a chart, it is a book that defines the symbols, abbreviations and terms used on charts. It also provides important information about buoys, light visibility (range) and aids to navigation. This new and improved edition from Paradise Cay is a complete and accurate high quality reproduction of information provided by NOAA and NIMA.

Indian Textiles John Gillow, Nicholas Barnard, 2014-01-07 [A] handsome digest of commercial, tribal, and folk textiles. —Fiberarts The production of textiles in India continues to flourish just as it has for many centuries. The interactions of indigenous tribes, invaders, traders, and explorers throughout history has built a culture legendary for its variety and color. From the Rann of Kutch to the Coromandel coast, handloom weavers, block printers, painters, dyers, and embroiderers are creating the most extraordinary textiles. This all-encompassing survey of textiles from every region of the Indian subcontinent runs the gamut of commercial, tribal, and folk textiles. The authors first place them in context by examining the cultural background: the history, the materials, and the techniques—weaving, printing, painting, and tie-dye. They then give a detailed region-by-region account of traditional textiles production, including chapters on Pakistan, Bangladesh, and Sri Lanka. A dazzling array of images provides an unsurpassed visual representation of the textiles,

while a detailed reference section with further reading, museums, and information on technical terms completes this essential guide.
