Miracles and Other Realities Lee Pulos,Gary Richman,2021-02-23 Once in a generation, a person of extraordinary psychic powers comes along. Miracles and Other Realities tells the true story of Thomaz Green Morton, a gifted psychic from the Minas Gerais region of Brazil. Originally published in 1990 and now rereleased for a modern audience, Miracles and Other Realities recounts the fascinating story of Thomaz Green Morton and his powerful psychic abilities. This book will turn the heads of scientists, whose traditional acceptance of reality has been limited to that which can be measured objectively, and will introduce to a wider audience the power of mind over matter. Thomaz's story begins when he is struck by lightning on his twelfth birthday. This electrical insult to his body detonated a dazzling range of paranormal abilities. (Severe electric shock is, incidentally, common to the childhood experience of every major psychic.) Thomaz has since been called the most powerful psychic in the world. Driven by his mind to the farther reaches of reality to produce psychic phenomena such as metal-bending, spiritual healing, and transmutations of matter, Thomaz's feats are well-documented by the authors. The story is all the more captivating because Thomaz is graced with a childlike emotional temperament, making him intent on living life to its fullest. Coauthors Lee Pulos and Gary Richman explore through Thomaz the ways in which magic, or miracles, challenges the conventional view of reality, thereby shaking up rational belief systems that inhibit the experience of new realms of possibility. Readers will find Thomaz's story compelling, not only as a real-life example of human potential but as a metaphor for unleashing other realities and levels of consciousness to tap into the potential within themselves.

Citizen Wealth Wade Rathke,2009-07-13 America's safety net is torn and tattered. Income inequality continues to grow—the gap between rich and poor has expanded fivefold in the last 25 years. For millions of working families achieving basic middle class comforts has begun to seem as distant a dream as winning the lottery. What is needed, and what veteran organizer and ACORN founder Wade Rathke provides in this hard-hitting new book, is a comprehensive grassroots strategy to create what he calls citizen wealth: an enduring foundation on which working people can build a future that extends beyond paying next month's rent. Rathke shares breakthrough strategies that have enabled ACORN and other organizations help people secure the basics of citizen wealth—a house and a decent income—offering from-the-trenches advice on mounting successful living wage campaigns, battling unscrupulous and predatory lending practices, and developing new forms of worker organizations to protect wages and benefits. The anti-poverty programs still out there can provide critical support for citizen wealth-building efforts, but they're woefully underutilized. Rathke shows how to cut through government indifference and bureaucratic obstacles to provide those in need with access to these vital resources. But community organizations can't do it alone. Rathke describes ACORN partnerships with HSBC Bank and H & R Block that helped these businesses see building citizen wealth as a new market opportunity—a win for them and for the people they once exploited. And he looks at other examples of strange bedfellows in the fight for citizen wealth, including Citibank, once the target of massive protests by ACORN and now, working with them, a major investor in working class communities. "We need to create a national economic and political consensus that increasing family income, wealth and assets is not

'welfare' or an entitlement 'give-away' program but an investment in the public good and well-being." Rathke writes. Based on forty years of hard-won experience, Wade Rathke offers a new blueprint for helping millions to achieve the American Dream.

The Swamp Fox David R. Higgins,2013-10-20 The American Revolution was deadlocked in the north, and in 1778, the focus of the conflict shifted south. Following his decisive 1780 victory at Charleston, Cornwallis launched a campaign through the Carolinas that was designed to expel American Continental and militia forces from the south. The subsequent patriot victory at King's Mountain forced Cornwallis to withdraw into South Carolina in what was one of the turning points in the Revolutionary War. To the southeast, Francis Marion enacted a series of successful hit-and-run operations. Cornwallis responded to this string of raids by assigning Banastre Tarleton to capture or kill the rebel guerrilla commander. What followed was an unsuccessful pursuit of the elusive Marion, in which Tarleton practiced a scorched-earth policy that ultimately disillusioned Loyalist sympathizers and hurt the British cause in the Carolinas. This book highlights the unique style of southern frontier warfare during the Revolutionary War, and how its combatants were supplied, organized, and operated. The series of actions between August and November 1780 illustrate Marion's unconventional efforts to hinder their enemy's war effort in the south earning him his Swamp Fox moniker and Tarleton's equally irregular efforts to counter it.
