Ernest S. Burch Jr.

Handbook of American Indians North of Mexico Frederick Webb Hodge, 1911

Anthropological Theory R. Jon McGee, Richard L. Warms, 2003 A comprehensive and accessible survey of the history of theory in anthropology, this anthology of classic and contemporary readings contains in-depth commentary in introductions and notes to help guide students through excerpts of seminal anthropological works. The commentary provides the background information needed to understand each article, its central concepts, and its relationship to the social and historical context in which it was written.

Aerial and Land-based Surveys of Steller Sea Lions (*Eumetopias Jubatus*) in Alaska, June and July 1999 and 2000 John L. Sease, 2001

Atlas of British Columbia Albert L. Farley, 1979 The Atlas of British Columbia is the first major cartographic study of the province to be published since 1956. Created through close co-operation between government, the private sector, and the university, it is the successor to the British Columbia Atlas of Resources which, for twenty years, has been the standard reference work used by schools, industry, government, and the general public. The most recent data available have been used to give an accurate, comprehensive picture of British Columbia's economy as it is today. Comparative studies show the development of the province's manpower and natural resources as well as the rapid growth of industry and technology since the beginning of the century. In part, the emphasis of the atlas reflects thousands of specific requests for up-to-date resource information recorded over the last ten years.

The Bowhead Whale J.C. George, J.G.M. Thewissen, 2020-09-11 The Bowhead Whale: *Balaena mysticetus*: Biology and Human Interactions covers bowhead biology from their anatomy and behavior, to conservation, distribution, ecology and evolution. The book also discusses the biological and physical aspects of the Arctic ecosystem in which these whales live, with careful attention paid to the dramatic changes taking place. A special section of the book describes the interactions of humans with bowheads in past and present, focusing on their importance to Indigenous communities and the challenges regarding entanglement in fishing gear, industrial noise and ship strikes. This volume brings together the knowledge of bowheads in one place for easy reference for scientists that study the species, marine mammal biologists, but, equally important, for everyone who is interested in the Arctic. Presents the only current book dedicated to this species Includes short, high-impact chapters that make it possible to review all bowhead biology in one compact volume Illustrated with never-before published photos of bowheads in their natural environment Provides a platform for an in-depth understanding of indigenous whaling

History in the Making Donald H. Holly Jr., 2013-10-18 The Eastern Subarctic has long been portrayed as a place without history. Challenging this perspective, *History in the Making: The Archaeology of the Eastern Subarctic* charts the complex and dynamic history of this little known archaeological region of North America. Along the way, the book explores the social processes through which native peoples "made" history in the past and archaeologists and anthropologists later wrote about it. As such, the book offers both a critical history and historiography of the Eastern Subarctic.

America's History: for the AP® Course James A. Henretta, Eric Foner, Rebecca Edwards, Robert O. Self, 2018-03-09 *America's History* for

the AP® Course offers a thematic approach paired with skills-oriented pedagogy to help students succeed in the redesigned AP® U.S. History course. Known for its attention to AP® themes and content, the new edition features a nine part structure that closely aligns with the chronology of the AP® U.S. History course, with every chapter and part ending with AP®-style practice questions. With a wealth of supporting resources, America's History for the AP® Course gives teachers and students the tools they need to master the course and achieve success on the AP® exam.

The American Indian in Graduate Studies ,1973

Preliminary Determination of Epicenters ,2002

Management of Large Mammalian Carnivores in North America The Wildlife Society,2012 This review addresses the current management of larger mammalian carnivores to increase, maintain, or reduce their numbers, while taking into account the population of certain ungulate prey and their relation to predators, social pressures and attitudes of the public towards predators, and the effects of sport hunting and trapping on carnivore population dynamics. This review considers brown bears (*Ursus arctos*), black bears (*U. americanus*), coyotes (*Canis latrans*), wolves (*Canis lupus*, *C. lycaon*), and mountain lions (*Felis concolor*). The appendix presents the results of a statistical analysis of trends discussed in this report.

Administration testimony United States. Congress. Senate. Committee on Finance. Subcommittee on Public Assistance,1978

Caribou Herds of Northwest Alaska, 1850-2000 Ernest S. Burch Jr.,2012-09-15 In his final, major publication Ernest S. "Tiger" Burch Jr. reconstructs the distribution of caribou herds in northwest Alaska using data and information from research conducted over the past several decades as well as sources that predate western science by more than one hundred years. Additionally, he explores human and natural factors that contributed to the demise and recovery of caribou and reindeer populations during this time. Burch provides an exhaustive list of published and unpublished literature and interviews that will intrigue laymen and experts alike. The unflinching assessment of the roles that humans and wolves played in the dynamics of caribou and reindeer herds will undoubtedly strike a nerve. Supplemental essays before and after the unfinished work add context about the author, the project of the book, and the importance of both.

New Century Reference Library of the World's Most Important Knowledge ,1909

Iñupiaq Ethnohistory Ernest S. Burch,2013 It took more than a century for colonialism to reach Alaska after the first Europeans set foot in what would become the continental United States. The complex society of the Iñupiaq, settled at the very top of the world, remained unknown and undisturbed longer than many other Native tribes in America. Ernest S. Burch Jr. dedicated most of his life and career to understanding this precolonial period and the lives of Northwest Alaska Natives. *Iñupiaq Ethnohistory* finally collects in one place Burch's critical research in this area, bringing to light work that had once been buried in scholarly books or scattered across journals. It is a fascinating and accessible window into a now-vanished world.

Changing Tracks Timothy Rawson,2001 In the 1930s, the National Park Service stopped killing wolves in Alaska's McKinley National Park, beginning a controversy over the value of predators and game animals which lasted for more than 20 years. In this volume, Rawson (history, Alaska Pacific U.) examines the history of this controversy and discusses the ways in which it

continues to shape National Park Service policy. c. Book News Inc.

The Devil's Alternative Frederick Forsyth, 2012-09-04 #1 New York Times bestselling author Frederick Forsyth delivers a frighteningly possible novel of international terrorism and impending war... As the Russian people face starvation, the Politburo is faced with a hard choice: negotiate with America for food, go to war for national survival, or deal with an uprising in the motherland. Through an informant, British Agent Adam Munro learns that the situation is growing dangerously tense, with powerful forces in the USSR maneuvering for supremacy. But even as East and West conduct delicate talks, events spiral out of control and threaten to undo every step taken. The world's largest oil tanker is hijacked by terrorists, and a Ukrainian "freedom fighter" is rescued in a bloody catastrophe on the Black Sea. From Moscow to Washington, the stakes grow ever more perilous as the mad actions of a few threaten to engulf the entire world in nuclear war—unless Munro can stop them.

The Return of Caribou to Ungava A. T. Bergerud, Stuart N. Luttich, Lodewijk Camps, 2012-07-31 How a caribou population went from the brink of extinction in the 1950s to the largest herd in the world in the late 1980s - and whether it can survive today's environmental changes.

The South China Sea Pinxian Wang, Qianyu Li, 2009-05-27 Pinxian Wang and Qianyu Li The South China Sea (SCS) (Fig. 1. 1) offers a special attraction for Earth scientists world-wide because of its location and its well-preserved hemipelagic sediments. As the largest one of the marginal seas separating Asia from the Pacific, the largest continent from the largest ocean, the SCS functions as a focal point in land-sea interactions of the Earth system. Climatically, the SCS is located between the Western Pacific Warm Pool, the centre of global heating at the sea level, and the Tibetan Plateau, the centre of heating at an altitude of 5,000m. Geomorphologically, the SCS lies to the east of the highest peak on earth, Zhumulangma or Everest in the Himalayas (8,848m elevation) and to the west of the deepest trench in the ocean, Philippine Trench (10,497m water depth) (Wang P. 2004). Biogeographically, the SCS belongs to the so-called "East Indies Triangle" where modern marine and terrestrial biodiversity reaches a global maximum (Briggs 1999). Among the major marginal sea basins from the west Pacific, the SCS presents some of the best conditions for accumulating complete paleoclimatic records in its hemipelagic deposits. These records are favorable for high-resolution paleoceanographic studies because of high sedimentation rates and good carbonate preservation. It may not be merely a coincidence that two cores from the southern SCS were among the first several cores in the world ocean used by AMS ¹⁴C dating for high-resolution stratigraphy (Andree et al. 1986; Broecker et al. 1988).

Essays on the Ethnography of the Aleuts Roza Gavrilovna Liapunova, 1996 The work translated here is *Ocherki po etnografii aleutov (konets XVIII-pervaia polovina XIX v.)* (Leningrad: Nauka, 1975), one of Roza G. Liapunova's two monographs on the Aleuts of Alaska. Liapunova discusses the archaeology of Aleut origins, Aleut life as documented in early historical sources, and Aleut material culture based on historical sources and in museum collections. *Essays* remains a valuable synthesis of English- and Russian-language sources on these topics. It also showcases the wide-ranging interests and broad expertise of a Soviet scholar whose work deserves to be read by an English-speaking audience. The volume includes a brief biography and bibliography of

selected works of the author and an index.

Epidemics in Colonial America John Duffy, 1971
