More Than Acupuncture Martin Wang,2018-04-16 Acupuncture has become more popular in recent years because it can help many patients who have not found relief through conventional medicine. As people have become more aware of acupuncture, they have lots of questions about how and why it works. This book attempts to answer the most frequent questions our own patients have asked during their visits. A better understanding of acupuncture can help patients cooperate with their acupuncturist for faster improvement of their illness. And because acupuncture is only a branch of traditional Chinese medicine (TCM), we also introduce other aspects of Chinese medicine in this book, including herbal therapy, cupping, bleeding, folk therapy, and more. The information of this book is based on the author’s own understanding about Chinese medicine and goes far beyond the scope of the standard Chinese medicine textbooks. Therefore, professional acupuncturists will also find it useful to expand their own knowledge about Chinese medicine.

Linking agriculture and tourism to strengthen agrifood systems in Asia and the Pacific Food and Agriculture Organization of the United Nations,2023-08-03 Agrifood systems in Asia and the Pacific can be strengthened by tapping on agrifood-tourism linkages. When tourism and agrifood systems interact, both synergies and competition appear. Agriculture and tourism compete between themselves and other sectors for land, water, labour, capital, and transport and logistics services. Cross-sectoral synergies arise when agriculture and tourism influence each other through their respective demand conditions and changes in the enabling environment. These cross-sectoral synergies can be instrumental in strengthening agrifood systems in the region and addressing interlinked crises in the post-pandemic era.Governments across Asia and the Pacific have acknowledged the potential of tapping into agrifood- tourism linkages to advance sustainable development in both urban (food tourism) and rural areas (mostly agricultural tourism), and are implementing efforts to develop this subsector.Agrifood-tourism linkages can create income-generating opportunities for farmers and tourism operators, boost employment and stimulate overall economic growth, promote the development of sustainable agrifood systems, prevent rural youth outmigration and help preserve culinary and agricultural heritage.This publication guides policymakers in the region in the preparation of a strategic plan aimed at developing agrifood tourism and the tourism food value chain as drivers of sustainable development. The successful positioning of a country or location as a culinary or agricultural tourism destination and the creation of synergies between the agriculture and tourism sectors requires a shared vision and coordination between policymakers, destination managers, tourism and agrifood businesses, chefs, farmers and other key stakeholders.

Alesia 52 BC Nic Fields,2014-06-20 In 52 BC Caesar's continued strategy of annihilation had engendered a spirit of desperation, which detonated into a revolt of Gallic tribes under the leadership of the charismatic young Arvernian noble Vercingetorix. Major engagements were fought at Noviodunum, Avaricum, and Gergovia, with the last action being the most serious reverse that Caesar faced in the whole of the Gallic War. However, Vercingetorix soon realized that he was unable to match the Romans in pitched battle. Taking advantage of the tribesmen's superior knowledge of their home territory, Vercingetorix began a canny policy of small war and defensive manoeuvres, which gravely hampered Caesar's movements by cutting off his supplies. For Caesar it was to be a grim summertime – his whole Gallic enterprise faced disaster. In the event, by brilliant leadership, force of arms, and occasionally sheer luck, Caesar succeeded in stamping out the revolt in a long and brutal action culminating in the siege of Alesia. Vercingetorix finally surrendered and Alesia was to be the last significant resistance to the Roman will. Never again would a Gallic warlord independent of Rome hold sway over the Celts of Gaul.

Social Sciences Katherine D. McCann,2000-12-01 Beginning with volume 41 (1979), the University of Texas Press became the publisher of the Handbook of Latin American Studies, the most comprehensive annual bibliography in the field. Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines, the Handbook alternates from year to year between social sciences and humanities. The Handbook annotates works on Mexico, Central America, the Caribbean and the Guianas, Spanish South America, and Brazil, as well as materials covering Latin America as a whole. Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas. The Handbook of Latin American Studies is the oldest continuing reference work in the field. Katherine D. McCann is acting editor for this volume. The subject categories for Volume 57 are as follows: Electronic Resources for the Social Sciences Anthropology Economics Geography Government and Politics International Relations Sociology

Framing the Early Middle Ages Chris Wickham,2006-11-30 The Roman empire tends to be seen as a whole whereas the early middle ages tends to be seen as a collection of regional histories, roughly corresponding to the land-areas of modern nation states. As a result, early medieval history is much more fragmented, and there have been few convincing syntheses of socio-economic change in the post-Roman world since the 1930s. In recent decades, the rise of early medieval archaeology has also transformed our source-base, but this has not been adequately integrated into analyses of documentary history in almost any country. In *Framing the Early Middle Ages* Chris Wickham combines documentary and archaeological evidence to create a comparative history of the period 400-800. His analysis embraces each of the regions of the late Roman and immediately post-Roman world, from Denmark to Egypt. The book concentrates on classic socio-economic themes, state finance, the wealth and identity of the aristocracy, estate management, peasant society, rural settlement, cities, and exchange. These give only a partial picture of the period, but they frame and explain other developments. Earlier syntheses have taken the development of a single region as 'typical', with divergent developments presented as exceptions. This book takes all different developments as typical, and aims to construct a synthesis based on a better understanding of difference and the reasons for it.

The Key to the Chronology of the Three Dynasties David S. Nivison,1999

Foundations of Confucian Thought Yuri Pines,2002-01-31 This ambitious work focuses on the world of Chinese thought during the two and a half centuries directly preceding and partly overlapping the time of Confucius. Ideas developed by Chunqiu statesmen and thinkers formed the intellectual milieu of Confucius and his disciples and contributed directly to the intellectual flowering of the Zhanguo (Warring States) era (453-221 B.C.E.), the formative period of the Chinese intellectual tradition. This study is the first attempt to systematically reconstruct major intellectual trends in pre-Confucian China. *Foundations of Confucian Thought* is based on an exploration of the Zuo zhuan, the largest pre-imperial historical text. Relying on meticulous textual and linguistic analysis, Yuri Pines argues that hundreds of the speeches of Chunqiu statesmen recorded in the Zuo zhuan were not invented by the compiler of the treatise but reproduced from earlier sources, thus making it an authentic reflection of the Chunqiu intellectual tradition. By tracing changes in ideas and concepts throughout the Chunqiu period, Pines reconstructs the dynamics of contemporary political and ethical discourse, distilling major intellectual impulses that Chunqiu thinkers bequeathed to their Zhanguo descendants.

Basketball Sports Medicine and Science Lior Laver,Baris Kocaoglu,Brian Cole,Amelia J. H. Arundale,Jeffrey Bytowski,Annunziato Amendola,2020-10-05 This book is designed as a comprehensive educational resource not only for basketball medical caregivers and scientists but for all basketball personnel. Written by a multidisciplinary team of leading experts in their fields, it provides information and guidance on injury prevention, injury management, and rehabilitation for physicians, physical therapists, athletic trainers, rehabilitation specialists, conditioning trainers, and coaches. All commonly encountered injuries and a variety of situations and scenarios

specific to basketball are covered with the aid of more than 200 color photos and illustrations. Basketball Sports Medicine and Science is published in collaboration with ESSKA and will represent a superb, comprehensive educational resource. It is further hoped that the book will serve as a link between the different disciplines and modalities involved in basketball care, creating a common language and improving communication within the team staff and environment.
