Olive, Mabel & Me: Life and Adventures with Two Very Good Dogs Andrew Cotter,2020-12-01 The story of Olive and Mabel, Labrador retrievers who rose to internet fame as the subjects of Andrew Cotter's BBC sports parodies. When sporting events were put on hold in March 2020, commentator Andrew Cotter shifted to working from home. The one-on-one competitors? His two Labrador retrievers, Olive and Mabel. In the hilarious videos that ensued, the dogs engage in various contests, from bone-snatching and breakfast-eating to crushing it on the dog walk, while Cotter narrates to hilarious effect. The scene of Mabel, simply standing still in a fetid pond was one of the most popular. Why? Because this is how dogs live, and Cotter captured it with humor and joy. It's why the series has been viewed more than 50 million times, entertaining dog owners, sports fans and celebrities around the world. Olive and Mabel are more than online celebrities, however, as revealed in this charming narrative. Filled with stories about how Cotter fell in love with his dogs, his passion for hiking with them through the glens and over the peaks of his native Scotland, and the ongoing relationship between Olive and Mabel (particularly the "competitive fire" lit during these days of quarantine), the memoir is by turns side-splittingly funny and thoughtfully tender. It's sure to resonate with all dog lovers.

If the Tomb Is Empty Joby Martin,2022-02-08 A beloved pastor and a New York Times bestselling author examine scripture and share inspiring personal stories to help reveal the important role that Jesus' resurrection plays in our everyday lives. The Son of God was crucified, died and buried, and He lay in the tomb for three days—until He walked out shining like the sun. In a culture in which history is erased or rewritten at will, the existence of an empty tomb matters. Why? Because if the tomb is empty—then anything is possible. In his first book, Joby Martin, Lead Pastor of The Church of Eleven22, dives deep into scripture and traces the story of salvation by highlighting the seven mountains throughout scripture where God manifests himself. As he describes each encounter with God, Martin shows us how the interaction on each mountain laid the groundwork for the sacrifice of Christ on Calvary, and shows what God revealed about Himself in the process. He illuminates seven familiar passages, unveiling how God's plan for Christ's sacrifice is threaded throughout scripture, and shows why Christ's resurrection—impossible, unbelievable—means that nothing is too hard for our God. Ultimately, he asks readers, Do you live every day of your life as if the tomb is empty—or as though Jesus is still hanging on that cross? Written with New York Times bestselling author Charles Martin, *If the Tomb is Empty* is an insightful and spiritually rich examination of what the miracle of Christ's resurrection means for all of us.

It Started with a Helmet Gerald Sanford,Chris Griffith,2021-06-23 This is the amazing, true story of Gerald Sanford, a former New York City police officer and FDNY firefighter who retired and moved to Naples, Florida. Retirement didn't take, and he found himself working at North Naples Fire Control and Rescue District, which is how he stumbled on an early 1900s antique fire helmet. He instantly knew the helmet was from New York City. By an amazing coincidence, Sanford presented the fire helmet back to the FDNY firehouse in the Bronx the day before the Sept. 11, 2001, terrorist attacks. With the city in ruins, Sanford volunteered to serve the FDNY in one of his former roles—press secretary. In this memoir, he recalls volunteering after 9/11 as well as his earlier years working for the NYPD and FDNY, including his observations of political figures such as Mayor Ed Koch, Mayor David Dinkins, Mayor Rudy Giuliani, and others. Join Sanford as he shares an incredible story about Sept. 11 and how an antique leather helmet led two fire departments to forge a lasting bond.

I Want a Hippopotamus for Christmas John Rox,2005-09-27 Christmas is coming, and one little girl wants nothing more than a hippopotamus to play with and enjoy. But will Santa Claus and her parents make her Christmas wish come true? As shown in his best-selling titles *The Night Before Christmas* and *Here Comes Santa Claus*, no one can portray the holidays better than Bruce Whatley; and he does it again with *I Want a Hippopotamus For Christmas*. The song *I Want a Hippopotamus for Christmas* was written in 1950 by John Rox and became a nationwide hit in 1953 when ten-year-old Oklahoma native Gayla Peevey sang the song as a way to raise money for the Oklahoma City Zoo's first hippopotamus. In December of that year the city received Matilda the hippo for Christmas.

The Death of Jane Lawrence Caitlin Starling,2021-10-05 ***AN INSTANT BESTSELLER!*** Best Books of 2021 · NPR ALA/The Reading List Best Horror 2021 Pick Longlisted for the Bram Stoker Awards for Superior Achievement in a Novel, 2021 From the Bram Stoker-nominated author of *The Luminous Dead* comes a gothic fantasy horror—*The Death of Jane Lawrence*. A jewel box of a Gothic novel. —New York Times Book Review “Delicious.... By the time the book reached that point of no return, I was so invested that I would have followed Jane into the very depths of hell.” —NPR.org “Intense and amazing! It’s like Jonathan Strange and Mr. Norrell meets Mexican Gothic meets *Crimson Peak*.” —BookRiot Practical, unassuming Jane Shoringfield has done the calculations, and decided that the most secure path forward is this: a husband, in a marriage of convenience, who will allow her to remain independent and occupied with meaningful work. Her first choice, the dashing but reclusive doctor Augustine Lawrence, agrees to her proposal with only one condition: that she must never visit Lindridge Hall, his crumbling family manor outside of town. Yet on their wedding night, an accident strands her at his door in a pitch-black rainstorm, and she finds him changed. Gone is the bold, courageous surgeon, and in his place is a terrified, paranoid man—one who cannot tell reality from nightmare, and fears Jane is an apparition, come to haunt him. By morning, Augustine is himself again, but Jane knows something is deeply wrong at Lindridge Hall, and with the man she has so hastily bound her safety to. Set in a dark-mirror version of post-war England, Caitlin Starling crafts a new kind of gothic horror from the bones of the beloved canon. This *Crimson Peak*-inspired story assembles, then upends, every expectation set in place by Shirley Jackson and Rebecca, and will leave readers shaken, desperate to begin again as soon as they are finished.

The Rise of Nuclear Fear Spencer R. Weart,2012-04-02 After a tsunami destroyed the cooling system at Japan's Fukushima Nuclear Power Plant, triggering a meltdown, protesters around the world challenged the use of nuclear power. Germany announced it would close its plants by 2022. Although the ills of fossil fuels are better understood than ever, the threat of climate change has never aroused the same visceral dread or swift action. Spencer Weart dissects this paradox, demonstrating that a powerful web of images surrounding nuclear energy holds us captive, allowing fear, rather than facts, to drive our thinking and public policy. Building on his classic, *Nuclear Fear*, Weart follows nuclear imagery from its origins in the symbolism of medieval alchemy to its appearance in film and fiction. Long before nuclear fission was discovered, fantasies of the destroyed planet, the transforming ray, and the white city of the future took root in the popular imagination. At the turn of the twentieth century when limited facts about radioactivity became known, they produced a blurred picture upon which scientists and the public projected their hopes and fears. These fears were magnified during the Cold War, when mushroom clouds no longer needed to be imagined; they appeared on the evening news. Weart examines nuclear anxiety in sources as diverse as Alain Resnais's film *Hiroshima Mon Amour*, Cormac McCarthy's novel *The Road*, and the television show *The Simpsons*. Recognizing how much we remain in thrall to these setpieces of the imagination, Weart hopes, will help us resist manipulation from both sides of the nuclear debate.

The Great Texas Wind Rush Kate Galbraith,Asher Price,2013-07-15 In the late 1990s, West Texas was full of rundown towns and pumpjacks, aging reminders of the oil rush of an earlier era. Today, the towns are thriving as 300-foot-tall wind turbines tower above those pumpjacks. Wind energy has become Texas’s latest boom, with the Lone Star State now leading the nation. How did this dramatic transformation happen in a place that fights federal environmental policies at every turn? In *The Great Texas Wind Rush*, environmental reporters Kate Galbraith and Asher Price tell the compelling story of a group of unlikely dreamers and innovators, politicians and profiteers. The tale spans a generation and more, and it begins with the early wind pioneers, precocious idealists who saw opportunity after the 1970s oil crisis. Operating in an economy accustomed to exploiting natural resources and always looking for the next big thing, their ideas eventually led to surprising partnerships between entrepreneurs and environmentalists, as everyone from Enron executives to T. Boone Pickens, as well as Ann Richards, George W. Bush and Rick Perry, ended up backing the new technology. In this down-to-earth account, the authors explain the policies and science that propelled the “windcatters” to reap the great harvest of Texas wind. They also explore what the future holds for this relentless resource that is changing the face of Texas energy.

Unreal City Judith Nies,2014-04-08 An epic struggle over land, water, and power is erupting in the American West and the halls of Washington, DC. It began when a 4,000-square-mile area of Arizona desert called Black Mesa was divided between the Hopi and Navajo tribes. To the outside world, it was a land struggle between two fractious Indian tribes; to political insiders and energy corporations, it was a divide-and-conquer play for the 21 billion tons of coal beneath Black Mesa. Today, that coal powers cheap electricity for Los Angeles, a new water aqueduct into Phoenix, and the neon dazzle of Las Vegas. Journalist and historian Judith Nies has been tracking this story for nearly four decades. She follows the money and tells us the true story of wealth and water, mendacity, and corruption at the highest levels of business and government. Amid the backdrop of the breathtaking desert landscape, *Unreal City* shows five cultures colliding—Hopi, Navajo, global energy corporations, Mormons, and US government agencies—resulting in a battle over resources and the future of the West. Las Vegas may attract 39 million visitors a year, but the tourists mesmerized by the dancing water fountains at the Bellagio don’t ask where the water comes from. They don’t see a city with the nation’s highest rates of foreclosure, unemployment, and suicide. They don’t see the astonishing drop in the water level of Lake Mead—where Sin City gets 90 percent of its water supply. Nies shows how the struggle over Black Mesa lands is an example of a global phenomenon in which giant transnational corporations have the power to separate indigenous people from their energy-rich lands with the help of host governments. *Unreal City* explores how and why resources have been taken from native lands, what it means in an era of climate change, and why, in this city divorced from nature, the only thing more powerful than money is water.
