20th Century-Fox Scott Eyman,2021-09-21 From New York Times bestselling author Scott Eyman, this is the story one of the most influential studios in film history, from its glory days under the leadership of legendary movie mogul Darryl F. Zanuck up to its 2019 buyout by Disney. March 20, 2019 marked the end of an era -- Disney took ownership of the movie empire that was Fox. For almost a century before that historic date, Twentieth Century-Fox was one of the preeminent producers of films, stars, and filmmakers. Its unique identity in the industry and place in movie history is unparalleled -- and one of the greatest stories to come out of Hollywood. One man, a legendary producer named Darryl F. Zanuck, is the heart of the story. This narrative tells the complete tale of Zanuck and the films, stars, intrigue, and innovations of the iconic studio that was.

My First Movie Stephen Lowenstein,2000 Nobody forgets their first time--and film directors are no exception. In these vivid and revealing interviews, a collection of filmmakers as diverse as the Coen brothers and Ken Loach, Ang Lee and Kevin Smith, Anthony Minghella and Gary Oldman, Neil Jordan and Mira Nair talk in extraordinary detail and with amazing candor about making their first films. Each chapter focuses on a director's celebrated debut--be it *Angel* or *Blood Simple*, *Clerks* or *Diner*, *Muriel's Wedding* or *Truly, Madly, Deeply*--and tells the inside story: from writing the script to raising the money, from casting the actors to assembling the crew, from shooting to editing, from selling the movie to screening it. Along the way, every aspect of the movie industry is explored: from dealing with agents and moguls for the first time to pitching your movie as a debutante director, from languishing in development hell to confronting test audiences from hell. The questions have been posed by Stephen Lowenstein, a young director with two acclaimed short films to his credit. Remembering the struggle to launch their careers, the directors have opened up about their first films and themselves to an unprecedented degree. Each chapter is not only a memoir of a particular movie, but also an emotional journey in which the director relives the pain and elation, the comedy and tragedy, of making a first feature. For anyone who wants to direct movies, these tales of triumph and disaster, of sleepless nights and nail-biting days, will be enthralling and terrifying in equal measure. For all other film fans, the interviews provide fascinating and entertaining insights into filmmakers who have become household names.

Modernist Poetry, Gender and Leisure Technologies Alex Goody,2019-10-29 *Modernist Poetry, Gender and Leisure Technologies: Machine Amusements* explores how modernist women poets were inspired by leisure technologies to write new versions of the gendered subject. Focusing on American women writers and particularly on the city of New York, the book argues that the poetry of modernist women that engages with, examines or critiques the new leisure technologies of their era is fundamentally changed by the encounter with that technology. The chapters in the book focus on shopping, advertising, dance, film, radio and phonography, on city spaces such as Coney Island, Greenwich Village and Harlem, and on poetry that embraces the linguistic and formal innovations of modernism whilst paying close attention to the embodied politics of gender. The technologized city,

and the leisure cultures and media forms emerging from it, enabled modernist women writers to re-imagine forms of lyric embodiment, inspired by the impact of technology on modern ideas of selfhood and subjectivity.

Hollywood as Historian Peter C. Rollins, 1983 Freddie Maas's revealing memoir offers a unique perspective on the film industry and Hollywood culture in their early days and illuminates the plight of Hollywood writers working within the studio system. An ambitious twenty-three-year-old, Maas moved to Hollywood and launched her own writing career by drafting a screenplay of the bestselling novel *The Plastic Age* for It girl Clara Bow. On the basis of that script, she landed a staff position at powerhouse MGM studios. In the years to come, she worked with and befriended numerous actors and directors, including Norma Shearer, Joan Crawford, and Eric von Stroheim, as well as such writers and producers as Thomas Mann and Louis B. Mayer. As a professional screenwriter, Fredderica quickly learned that scripts and story ideas were frequently rewritten and that screen credit was regularly given to the wrong person. Studio executives wanted well-worn plots, but it was the writer's job to develop the innovative situations and scintillating dialogue that would bring to picture to life. For over twenty years, Freddie and her friends struggled to survive in this incredibly competitive environment. Through it all, Freddie remained a passionate, outspoken woman in an industry run by powerful men, and her provocative, nonconformist ways brought her success, failure, wisdom, and a wealth of stories, opinions, and insight into a fascinating period in screen history.

Screen Savers John DiLeo, 2010 Boris Karloff will forever be *Frankenstein's Monster*, but is that any reason for us to overlook his later great horror film *Isle of the Dead* (1945)? An Oscar was George Clooney's reward for *Syriana* (2005), but isn't the underrated war film *Three Kings* (1999) still his best movie? *Woman of the Year* (1942) introduced the team of Tracy and Hepburn, yet didn't their later *Pat and Mike* (1952) resoundingly surpass it? Jeff Bridges has long been one of our best actors, so why didn't anyone take notice of his sleeper *Bad Company* (1972)? The lasting impact of *Psycho*

(1960) unfairly overshadows Anthony Perkins's great work in the darkly comic thriller *Pretty Poison* (1968), while Stanley Kubrick's later work keeps his terrific caper *The Killing* (1956) from attaining classic status. Can you really say you love Audrey Hepburn if you haven't seen her at her most radiant in Stanley Donen's gem *Two for the Road* (1967)? *Screen Savers: 40 Remarkable Movies Awaiting Rediscovery* puts the spotlight on these and other superb yet underappreciated movies spanning the twentieth century. Essential stars and directors are represented here, not for their undisputed marvels but for other equally wonderful films that warrant overdue or renewed recognition: *Cover Girl*, *They Came to Cordura*, *Portrait of Jennie*, *The Seventh Cross*, *The Lusty Men*, *Hail the Conquering Hero*, *Rambling Rose*, *Time after Time*, and many others. Author John DiLeo offers full-bodied appraisals of each of his selections, breezily combining scholarly acumen with a film fanatic's passion. DiLeo utilizes his lively, accessible style and sharp, insightful critical eye, venturing beyond obvious choices and whetting our appetites to see these vital movies. Be they underseen, dismissed, or taken-for-granted in their day, the films in *Screen Savers* deserve a place of honor in our film heritage.

Film Firsts Ethan Alter, 2014-02-17 This forward-looking exploration of contemporary American film across the last 40 years identifies and examines the specific movies that changed the film industry and shaped its present and future. Since the mid-1970s, American cinema has gone through enormous changes, such as the birth of the modern summer blockbuster, the rise of the independent film industry, ongoing technological advancements in special effects, and the ever-evolving models for film distribution. Written by a professional film critic and film buff, this book tells the story of contemporary American cinema in a unique and engaging way: by examining 25 key movies that demonstrated a significant creative, technological, or business innovation that impacted the industry at large. Each chapter in this chronological survey of contemporary film is divided into two sections: *The Film*, which offers a critical overview of the film in question; and *The First*, which describes the specific innovation achieved by that film and places that achievement in the larger historical context. Two additional appendices in each chapter explore other significant aspects of both the film and its groundbreaking nature. The broad coverage—ranging from action movies to horror films to science fiction favorites—ensures the work's appeal to all film fans.

Do the Movies Have a Future? David Denby, 2012-10-02 In the second decade of the twenty-first century, the movies, once America's primary

popular art form, have become an endangered species. *Do the Movies Have a Future?* is a rousing and witty call to arms. In these sharp and engaging essays and reviews, New Yorker movie critic David Denby weighs in on “conglomerate aesthetics,” as embodied in the frenzied, weightless action spectacles that dominate the world’s attention, and “platform agnosticism,” the notion that movies can be watched on smaller and smaller screens: laptops, tablets, even phones. At the same time, Denby reaffirms that movies are our national theater, and in this exhilarating book he celebrates such central big movies as *Avatar* and *The Social Network* as well as small but resonant triumphs like *There Will Be Blood* and *The Tree of Life*. Denby joyously celebrates what remains of the shared culture in romantic comedy, high school movies, and chick flicks; he assesses the expressive triumphs and failures of auteurs Quentin Tarantino, the Coen brothers, Pedro Almodóvar, and David Fincher. Refusing nostalgia, he mines the past for strength, examining the changing nature of stardom and the careers of Joan Crawford, Otto Preminger, and Victor Fleming, and the continuing self-invention of Clint Eastwood. And he recreates the excitement of reading two critics who embodied the film culture of their times, James Agee and Pauline Kael. Wry, passionate, and incisive, *Do the Movies Have a Future?* is both a feast of good writing and a challenge to fight back. It is an essential guide for movie lovers looking for ammunition and hope.

Fiction and Imagination in Early Cinema Mario Sluġan, 2019-11-28 When watching the latest instalment of *Batman*, it is perfectly normal to say that we see *Batman* fighting *Bane* or that we see *Bruce Wayne* making love to *Miranda Tate*. We would not say that we see *Christian Bale* dressed up as *Batman* going through the motions of punching *Tom Hardy* dressed up as *Bane*. Nor do we say that we see *Christian Bale* pretending to be *Bruce Wayne* making love with *Marion Cotillard*, who is playacting the role *Miranda Tate*. But if we look at the history of cinema and consider contemporary reviews from the early days of the medium, we see that people thought precisely in this way about early film. They spoke of film as no more than documentary recordings of actors performing on set. In an innovative combination of philosophical aesthetics and new cinema history, Mario Sluġan investigates how our default imaginative engagement with film changed over the first two decades of cinema. It addresses not only the importance of imagination for the understanding of early cinema but also contributes to our understanding of what it means for a representational medium to produce fictions. Specifically, Sluġan argues that cinema provides a better model for understanding fiction than literature.
