*The Beer Lover's Table* Claire Bullen,Jen Ferguson,2019-03-12 Craft beer is changing everything about how people drink – and it's high time it was invited to the dinner table. The growth in craft beer is a full-blown phenomenon that is also making waves in the culinary sphere. Here, food writer and beer expert Claire Bullen answers the question: how do you successfully pair craft beer with food? Inside, 65 inspiring recipes – from cast-iron skillet pizza to harissa roast chicken – are matched with a diverse range of craft beers to enjoy with your meal. Soon you will see beer as not just a prelude to a meal, but rather as a drink that can work as well as wine when partnered with food.

**Succession of States** Mojmir Mrak,2023-12-04 The renewed interest in matters of state succession which accompanied the dissolution of three multinational, socialist states in post-communist Europe inspired the preparation of this book. The book aims to provide both practical lessons of individual countries being directly involved in matters of state succession, and more theoretical contributions to expand the body of conceptual literature in this area. Its contributions address a wide variety of matters, ranging from problems associated with the recognition of states, issues of state succession with respect to international treaties and membership in international organizations, through specific issues such as citizenship, external debts and archives. The diversity of contributions therefore provides a relatively complete survey of matters pertaining to succession of states, especially those relating to the legal, economic and financial aspects. While some authors address universal questions of state succession or the issue of membership in international organizations, most contributions focus on issue-specific problems involving state succession to three Central and Eastern European states and, in particular, the break-up of the SFRY. The contributors are policy-makers, academic lawyers and economists actively involved in succession of states issues, either in their respective countries or in various international fora. The majority of contributions collected in this book are updated and revised versions of articles published in the December 1996 issue of Development and International Cooperation.

**Access to Archives** Charles Kecskeméti,Iván Székely,2005-01-01 In July 2000, the Council of Europe adopted the first intergovernmental standard on archive access policy and practice in Europe. This standard, known as Recommendation No. R (2000) 13, is based on the belief that knowledge of the past constitutes a cultural human right and that, in a democracy, access to authentic archived information helps strengthen cultural identity, diversity and social cohesion. This publication sets out general guidelines for the implementation of archival access policy and practice in line with the Recommendation, as well as giving a summary of current situation across Europe.

**Taxation, Welfare, and the Crisis of Unemployment in Europe** Marco Buti,Paolo Sestito,Hans Wijkander,2001-01-01 The papers in this volume analyse the role of European tax and benefit systems in incentives to create and take up jobs. The first section provides an overview of the issues relating to the trade-off between equity and efficiency. The second section describes the burden of taxation and the generosity of the welfare system in Europe. Part three examines how to evaluate the effects of tax and welfare reforms and the final section looks at ways that tax can be used to deal with some structural problems. The papers show that European policy makers face tough choices and that reforms are costly, with complex trade-offs.

Witnesses to History Lyndel V. Prott,2009-01-01 This Compendium gives an outline of the historical, philosophical and ethical aspects of the return of cultural objects (e.g. cultural objects displaced during war or in colonial contexts), cites past and present cases (Maya Temple Facade, Nigerian Bronzes, United States of America v. Schultz, Parthenon Marbles and many more) and analyses legal issues (bona fide, relevant UNESCO and UNIDROIT Conventions, Supreme Court Decisions, procedure for requests etc.). It is a landmark publication that bears testament to the ways in which peoples have lost their entire cultural heritage and analyses the issue of its return and restitution by providing a wide range of perspectives on this subject. Essential reading for students, specialists, scholars and decision-makers as well as those interested in these topics.

*Liber Coloniarum - The Book of the Colonies* Giacinto Libertini,2019-07-09 The study of ancient Roman land surveyors and the Roman system of property boundaries was carried out in the nineteenth century mainly by German scholars. One of them was Karl Lachmann who published Gromatici Veteres (The Ancient Land Surveyors) [Lachmann 1848], a compilation of texts that address aspects of ancient surveying which are fundamental to Civil Engineering as we know it today. Most of the original texts, as published by Lachmann and with some corrections proposed by Thulin [Thulin 1913], was published together with the English translation by Campbell [Campbell 2000]. A complete re-proposal of Lachmann’s text with the Italian translation was recently proposed by Giacinto Libertini [Libertini 2018]. An important part of this collection of texts, the Liber Coloniarum (The Book of the Colonies), together with a rich cartography illustrating the modern persistences of the ancient agrarian boundaries, was subsequently published by the same author [G. Libertini, Liber Coloniarum - Libro delle Colonie, Istituto di Studi Atellani, Frattamaggiore (Italy), 2018]. In order to allow an understanding of this text for a wider audience, it was necessary to have an English translation, which is offered in this work. The Introduction provides a fascinating description of the ancient Roman surveying and setting of boundary signals. The author has also applied Google Earth® and a special software to many of the Roman settlements in the Lazio and Campania regions to define the property grids (centuriationes and strigationes) that are in Italy from Rome to Nocera Superiore (near Salerno). As with the title of this book, many of the technical descriptions presented here are left in the original Latin. The reader is directed to the Glossary for the meaning of the Latin terms used.
