Fortress of Dragons C. J. Cherryh,2009-10-13 The walls between the worlds are down. A new unfolding has begun... It started long ago, as a war between the shadowy Immortals that persists today, as the wizard Mauryl's Shaping confronts the Shadows summoned from Chaos. Tristen is that Shaping. Both more and less than human, he successfully fought sorcery's evil tides, a victory that brought his friend Cefwyn both a kingdom and true love. But the Lines that hold the world in place are shifting again. A ruthless enemy is preparing for battle. Once again, Tristen will take up the sword inscribed with Truth and Illusion on its blade. But he faces more than war and a pretender to Cefwyn's throne. The Shadows he sees are straight from Ruin -- a flow of darkness covering the world like ink... Fortress of Dragons completes the high-fantasy epic begun in Fortress in the Eye of Time and continued in Fortress of Eagles and Fortress of Owls --a powerful tale set in a world of magic, violence, wonder and awe -- a world as vividly real as our own.

The Only Good Indians Stephen Graham Jones, 2021-01-26 A NEW YORK TIMES BESTSELLER From USA TODAY bestselling author Stephen Graham Jones comes a “masterpiece” (Locus Magazine) of a novel about revenge, cultural identity, and the cost of breaking from tradition. Labeled “one of 2020’s buzziest horror novels” (Entertainment Weekly), this is a remarkable horror story that “will give you nightmares—the good kind of course” (BuzzFeed). Seamlessly blending classic horror and a dramatic narrative with sharp social commentary, *The Only Good Indians* is “a masterpiece. Intimate, devastating, brutal, terrifying, warm, and heartbreaking in the best way” (Paul Tremblay, author of *A Head Full of Ghosts*). This novel follows four American Indian men after a disturbing event from their youth puts them in a desperate struggle for their lives. Tracked by an entity bent on revenge, these childhood friends are helpless as the culture and traditions they left behind catch up to them in violent, vengeful ways.

A Sainly Killing Martha Ockley, 2014-10-17 It is late July, the run up to St James's Day. It is also the 1000th anniversary of the church at Little Worthy, and Faith Morgan has planned a whole range of celebratory activities - a music festival; a photographic booklet of recent history; a planting of new trees in the graveyard and vicarage garden; bell ringing; a visit from the bishop. A new painting of the church is commissioned from distinguished local artist Sal Hankley. Sal, who has recently returned from Australia, is not a universally popular choice: outspoken and opinionated, she has made her share of enemies. Before the painting can be completed, Sal is found dead at her easel on a hillock overlooking the church. Suddenly a very respectable member of the community - a PCC member, no less - is under suspicion. Faith - trying to hold church and village together - finds herself teamed with former lover Detective Inspector Ben Shorter (who has no more time for art than God).

Routledge Encyclopedia of Narrative Theory David Herman, Manfred Jahn, Marie-Laure Ryan, 2010-06-10 The past several decades have seen an explosion of interest in narrative, with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts. As accounts of what happened to particular people in particular circumstances and with specific consequences, stories have come to be viewed as a basic human strategy for coming to terms with time, process, and change. However, the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars, teachers, and students to have access to a comprehensive reference resource.

Game Feel Steve Swink, 2008-10-13 *Game Feel* exposes feel as a hidden language in game design that no one has fully articulated yet. The language could be compared to the building blocks of music (time signatures, chord progressions, verse) - no matter the instruments, style or time period - these building blocks come into play. The Globalization Paradox Dani Rodrik, 2011-03-24 For a century, economists have driven forward the cause of globalization in financial institutions, labour markets, and trade. Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous. Where are the pressure points? What could be done about them? Dani Rodrik examines the back-story from its seventeenth-century origins through the milestones of the gold standard, the Bretton Woods Agreement, and the Washington Consensus, to the present day. Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia, it is a concept that rests on shaky pillars, he contends. Its long-term sustainability is not a given. The heart of Rodrik's argument is a fundamental 'trilemma': that we cannot simultaneously pursue democracy, national self-determination, and economic globalization. Give too much power to governments, and you have protectionism. Give markets too much freedom, and you have an unstable world economy with little social and political support from those it is supposed to help. Rodrik argues for smart globalization, not maximum globalization.

The Perception of the Environment Tim Ingold, 2021-11-29 In this work Tim Ingold offers a persuasive new approach to understanding how human beings perceive their surroundings. He argues that what we are used to calling cultural variation consists, in the first place, of variations in skill. Neither innate nor acquired, skills are grown, incorporated into the human organism through practice and training in an environment. They are thus as much biological as cultural. To account for the generation of skills we have therefore to understand the dynamics of development. And this in turn calls for an ecological approach that situates practitioners in the context of an active engagement with the constituents of their surroundings. The twenty-three essays comprising this book focus in turn on the procurement of livelihood, on what it means to ‘dwell’, and on the nature of skill, weaving together approaches from social anthropology, ecological psychology, developmental biology and phenomenology in a way that has never been attempted before. The book is set to revolutionise the way we think about what

is ‘biological’ and ‘cultural’ in humans, about evolution and history, and indeed about what it means for human beings – at once organisms and persons – to inhabit an environment. The Perception of the Environment will be essential reading not only for anthropologists but also for biologists, psychologists, archaeologists, geographers and philosophers. This edition includes a new Preface by the author.

Jade, the mysterious and magical substance once exclusive to the Green Bone warriors of Kekon, is now coveted throughout the world. Everyone wants access to the supernatural abilities it provides. As the struggle over the control of jade grows ever larger and more deadly, the Kaul family, and the ancient ways of the Kekonese Green Bones, will never be the same. Battered by war and tragedy, the Kauls are plagued by resentments and old wounds as their adversaries are on the ascent and their country is riven by dangerous factions and foreign interference. The clan must discern allies from enemies, set aside bloody rivalries, and make terrible sacrifices . . . but even the unbreakable bonds of blood and loyalty may not be enough to ensure the survival of the Green Bone clans and the nation they are sworn to protect.
