**Blackbelt in Blackjack** Arnold Snyder, 1998 RGE Publishing was founded in 1980 with the publication of our first book, The Blackjack Formula (now out of print), by Arnold Snyder. Since our inception, we have concentrated on casino blackjack, the only true game of skill among the casino table games, our primary aim to educate players about the methods professionals use to beat the casinos. We have published books, periodicals, technical reports, software and videos on this subject. More recently, we have begun to branch out into related topics, with a book due out this fall by two prominent attorneys on gambling laws, a controversial title this winter on how casinos cheat players, written by a former Nevada Gaming Control agent, and another this spring on how to beat slot machines. Although we intend to continue concentrating on various aspects of casino gambling, this fall we will be publishing our first non-gambling title, a parody: The Seven Spiritual Laws of Making Big Bucks. This revised and expanded edition of Arnold Snyder's 1983 classic reveals how blackjack players can beat today's highly sophisticated casinos. Casino personnel recognize the traditional card counting strategies when they see them, but the big money professionals are staying alive with two methods of attack -- tracking and teaming. Tracking is the ability to track clumps of high cards from one shuffle to the next. Teaming is any joint attack on the blackjack tables by two or more card counters. Blackbelt in Blackjack also describes the high-tech surveillance techniques the casinos are using to identify and eliminate card counters.

The book contains three levels of playing strategies. For the beginner, a non-counting strategy that will give you a slight edge in some blackjack games. The intermediate level strategy contains an introduction to card counting. The advanced level playing strategy is a powerful system that will give the blackjack player up to a 1.5% edge over the casinos. Blackjack, Me and She Jack Freestone, 2022-02-14 A collection of absolutely true autobiographical stories by Jack Freestone, about his experiences blackjack gambling at various casinos around the world, showing some of the ridiculous highs and lows of gambling with and without alcohol, with various girlfriends, through a couple of decades. Also included is a list of his tips on blackjack gambling, based on his experiences. Every gambler needs to hit that one morning, day or night when everything goes right. And you will talk about that run until you die. If you are a gambler and have not hit that run at least once in your life, keep going, it will appear just as sure as mathematics and probability. And you may think that mathematics and probability are boring, not a beautiful thing, lifeless, but when you hit that run it will be as magical and beautiful and empowering as anything you have ever experienced in your life.
