NICOMACHEAN ETHICS Aristotle, 2017-04-20 ♦ EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity— as bridlemaking and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others— in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned. ♦

Management 3.0 Jurgen Appelo, 2011 In many organizations, management is the biggest obstacle to successful Agile development. Unfortunately, reliable guidance on Agile management has been scarce indeed. Now, leading Agile manager Jurgen Appelo fills that gap, introducing a realistic approach to leading, managing, and growing your Agile team or organization. Writing for current managers and developers moving into management, Appelo shares insights that are grounded in modern complex systems theory, reflecting the intense complexity of modern software development. Appelo's Management 3.0 model recognizes that today's organizations are living, networked systems; and that management is primarily about people and relationships. Management 3.0 doesn't offer mere checklists or prescriptions to follow slavishly; rather, it deepens your understanding of how organizations and Agile teams work and gives you tools to solve your own problems. Drawing on his extensive experience as an Agile manager, the author identifies the most important practices of Agile management and helps you improve each of them. Coverage includes • Getting beyond “Management 1.0” control and “Management 2.0” fads • Understanding how complexity affects your organization • Keeping your people active, creative, innovative, and motivated • Giving teams the care and authority they need to grow on their own • Defining boundaries so teams can succeed in alignment with business goals • Sowing the seeds for a culture of software craftsmanship • Crafting an organizational network that promotes success • Implementing continuous improvement that actually works Thoroughly pragmatic—and never trendy—Jurgen Appelo's Management 3.0 helps you bring greater agility to any software organization, team, or project.

Bad Bug Book Mark Walderhaug, 2014-01-14 The Bad Bug Book 2nd Edition, released in 2012, provides current information about the major known agents that cause foodborne illness. Each chapter in this book is about a pathogen—a bacterium, virus, or parasite—or a natural toxin that can contaminate food and cause illness. The book contains scientific and technical information about the major pathogens that cause these kinds of illnesses. A separate “consumer box” in each chapter provides non-technical information, in everyday language. The boxes describe plainly what can make you sick and, more important, how to prevent it. The information provided in this handbook is abbreviated and general in nature, and is intended for practical use. It is not intended to be a comprehensive scientific or clinical reference. The Bad Bug Book is published by the Center for Food Safety and Applied Nutrition (CFSAN) of the Food and Drug Administration (FDA), U.S. Department of Health and Human Services.

Fisk, 2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. *Slides for Students* does just that. *Slides for Students* is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. David Burke's New American Classics David Burke, Judith Choate, 2009-04-22 One of America's most innovative and accomplished chefs gives us a book full of deliciously original recipes both for everyday meals and for memorable entertaining. Over the course of a brilliant career, David Burke has created imaginative and irresistible updates of classic American cuisine. Now he makes it easy for the home cook to master a classic dish and then add innovative touches to make it even more tempting, in what he calls contemporary classics. In addition, he includes "Second Day Dishes," a new and magical approach to leftovers. Here is how it works: classic Eggs Benedict with Hash Brown Potatoes and Oven-Dried Tomatoes leads to Canadian Bacon and Onion Potato Cake with Poached Eggs and Spicy Tomato Salsa, which in turn leads to Bacon, Potato, and Eggs Strudel on the second day. Traditional Broiled Shrimp with Scampi Butter and Tomato-Rice Pilaf is transformed into Sautéed Shrimp with Spinach-Lasagna Roll and Crisp Spinach, and then into Shrimp Fried Rice and Sausage the next day. A Classic Chef's Salad Bowl can be turned into Carpaccio of Chef's Salad, and then Chef's Salad Bruschetta. Roast Chicken "Farmhouse Style" with Potatoes, Mushrooms, Bacon, Onions, and Apple Cider Gravy is reconceived as Seawater-Soaked Chicken with Thyme and Poppy Seed Gnocchi, and a day later can become Chicken-Potato Pancakes with Apple-Sour Cream Sauce. New York Cheesecake becomes Grand Marnier Soufflés, changed on the next day into Coconut Cheesecake Beignets with Red Fruit Sorbet and Berries. From appetizers to desserts, for breakfast, lunch, and dinner—117 delectable recipes (including Titanic French Toast with Three Jams; Oh, My Cod!; Chocolate Chip UFOs; and many more of Burke's signature whimsical creations)—a fabulous cookbook.
