ePortfolio as Curriculum Kathleen Blake Yancey, 2023-07-03 At a moment when the ePortfolio has been recognized as a high impact practice – as a unique site for hosting student integrative learning and as a powerful genre for assessment – this book provides faculty, staff, and administrators with a set of frameworks and models useful for guiding students in designing and creating ePortfolios that clearly communicate their purpose and effectively use the affordances of the medium. In short, this book both illustrates and provides guidance on how to support the development of students' ePortfolio literacy. The ePortfolio curricular models provided in ePortfolio as Curriculum include both those integrated within existing disciplinary courses and those offered through credit-bearing stand-alone courses. In taking up questions focused on what students need to know and do in becoming informed, effective ePortfolio makers, the contributors to this volume – from the standpoint of their course outcomes and institutional contexts – present various approaches to developing an ePortfolio curriculum. Individually and collectively, the chapters explain ways to engage students in understanding the potential purposes, structures, audiences, and designs of ePortfolios; in developing the reflective practices for contextualizing and informing the selection and curation of artifacts; and in creating appropriate focus and coherence. Synthesizing insights from the previous chapters, the concluding chapter identifies six consistent features of an ePortfolio curriculum that support the development of students' ePortfolio literacy. In addition, Kathleen Blake Yancey identifies and defines seven common ePortfolio curricular dimensions that contribute to students' ePortfolio literacy, among them student agency, digital identity, and campus and global citizenship. Not least, she describes new practices emerging from ePortfolio curricula, including new ePortfolio-specific genres; new metaphors used to characterize ePortfolios and their practices; and new issues that the ePortfolio curriculum raises.

The Portfolio of Villard de Honnecourt Carl F. Barnes Jr., 2017-03-02 This new facsimile edition of the Portfolio of the 13th-century Picard artist Villard de Honnecourt is the first ever to be published in color. The thirty-three leaves are reproduced at actual size from high-quality color transparencies to ensure the best possible color reproduction of the drawings. One can now see variations in inks and quill strokes, traces of preliminary drawings, and corrections made by the artist. This study is also the first to give a thorough description of the condition of the leaves, analysis of each drawing in the portfolio individually, and new transcriptions and literal and free translations of the inscriptions. The opening chapter covers the history and physical condition of the portfolio, including reassigning hands to text found on the leaves. The author analyses the tools and inks used, Villard's drawing technique and style, and evaluates Villard as an artist-draftsman. Chapter II, the body of the book, is devoted to detailed analyses of the leaves, one by one, and their drawings and inscriptions. These analyses are of interest to those concerned with medieval technology and theology as well as to those interested in medieval art and architecture. Chapter III is a new biography of Villard that challenges the many wild speculations of the last century and a half about Villard, separating obvious fiction from possible fact. Barnes analyzes in detail Villard's drawings of different Gothic buildings and makes a case for Villard having been a lay representative of the cathedral chapter at Cambrai, one of the buildings Villard drew. An extensive bibliography of Villard studies and a glossary of Villard's technical and artistic terms complete this important new study.

The Digital Photography Book, Part 5 Scott Kelby,2014-07-21 Scott Kelby, author of the top-selling digital photography book of all time, is back with an entirely new book in his popular series that picks up right where part 4 left off. It's more of that "Ah ha—so that's how they do it," straight-to-the-point, skip-the-technojargon stuff you can really use today that made part 1 so successful. In parts 1 through 4 of this series, the most popular chapter in the book has always been the last chapter: "Photo Recipes to Help You Get 'The Shot'." In each of those chapters, Scott shows a final image and then describes how to get that type of shot. Here, in part 5, he gives you what you've been waiting for: an entire book of nothing but those amazing photo recipes. But, he took it up a big notch by adding a behind-the-scenes photo for every single recipe. Now you can see exactly how it was done, so you can get that exact same look every time. In these extra pages, each spread allows you to dig in a little deeper and really unlock the power of these recipes. Scott breaks each spread into four segments: (1) he explains exactly what you're seeing behind the scenes, (2) he lists all of his camera settings, and lens and lighting info—it's all there, (3) he gives you his thought process, so you learn exactly why he does it this way, and (4) he shares all the post-processing in Lightroom or Photoshop that goes on after the shoot (this is something other books leave out). Plus, the whole book is packed with tips and insights you won't find anywhere else. This isn't a book of theory, full of confusing jargon and detailed concepts. This is a book on which button to push, which settings to use, and exactly how and when to use them. With around 100 of the most popular photographic "tricks of the trade," the entire book is designed to get you shooting like a pro starting today. You're gonna love it.

Pioneering Portfolio Management David F. Swensen,2009-01-06 In the years since the now-classic Pioneering Portfolio Management was first published, the global investment landscape has changed dramatically -- but the results of David Swensen's investment strategy for the Yale University endowment have remained as impressive as ever. Year after year, Yale's portfolio has trumped the marketplace by a wide margin, and, with over \$20 billion added to the endowment under his twenty-three-year tenure, Swensen has contributed more to Yale's finances than anyone ever has to any university in the country. What may have seemed like one among many success stories in the era before the Internet bubble burst emerges now as a completely unprecedented institutional investment achievement. In this fully revised and updated edition, Swensen, author of the bestselling personal finance guide Unconventional Success, describes the investment process that underpins Yale's endowment. He provides lucid and penetrating insight into the world of institutional funds management, illuminating topics ranging from asset-allocation structures to active fund management. Swensen employs an array of vivid real-world examples, many drawn from his own formidable experience, to address critical concepts such as handling risk, selecting advisors, and weathering market pitfalls. Swensen offers clear and incisive advice, especially when describing a counterintuitive path. Conventional investing too often leads to buying high and selling low. Trust is more important than flash-in-the-pan success. Expertise, fortitude, and the long view produce positive results where gimmicks and trend following do not. The original Pioneering Portfolio Management outlined a commonsense template for structuring a well-diversified equity-oriented portfolio. This new edition provides fund managers and students of the market an up-to-date guide for actively managed investment portfolios.
