**Seismic Interpretation: The Physical Aspects** Nigel A. Anstey, 2013-11-11 In this course we shall assume that all participants are familiar with the essentials of seismic prospecting. Thus A the rudiments of the field work -- spreads, sources, arrays B and digital recording -- are assumed known.

So also are the rudiments of processing -- such processes as gain recovery, D filtering, deconvolution, velocity analysis, and display. E Just as important, we shall assume that all participants F have some feeling for the realities of seismic work -- in the I(B) field, under real conditions. Elementary signal theory and the basic techniques of interpretation are also assumed known. However, for certainty, the following pre-course notes include sections reviewing basic signal theory, geophysical aspects of interpretation, and geological aspects of interpretation. These reviews are not intended to be comprehensive. Their function is solely to cover, with the minimum possible discussion, the essential features which will be assumed to be known in the course. None of the course time will be spent on the material of these pre-course notes. Participants are advised that they will not derive full benefit from the course if this background is not known. Most course participants will be already familiar with this material, and will need to do little more than read it through. If, before the course, any participant requires further discussion of signal theory in the same non-rigorous style, he will find it in other writings of the present author, particularly: Wiggles, Journal of the CSEG, December 1965,

pp.13-43.

*The Bride Price* Barclay Franklin, 2004-08 Eight horses, two rifles and gold coins without number are what Geoff Shine pays as the bride price for Sarah Blackford when he weds her in a Cheyenne ceremony of joining. But can the love of a Cheyenne half-breed for a white woman overcome the fears, hatreds and prejudices of the soldiers who man the Julesburg Army Encampment, or Geoff's betrayal by Major Hastings? Geoff and Sarah, along with their friends, Clay and Belinda Hanes, attempt to survive and thrive in the hostile Wyoming Territory in the early 1870s. Will Geoff and Sarah's bond be strong enough to withstand the differences in their backgrounds, or survive the desire of the camp commander's wife to force them into a Christian marriage ceremony?
