## **Autonomous Archiving Pelin Tan,Özge Çelikaslan,Alper**

Sen,2016-07-02 As an institutional practice, archival practices often tend to serve to colonization, surveillance and discipline society of the Modern world. In the last ten years, with the digital technology and social movement detecting, recording and accumulating images become a civil activity. Thus, archiving videos and other types of visual images brought also non-institutional practices and as well contemporary discussions related to image, open source, collectivity and forensics. Beside interviews with video activists; this book compiles several writers' articles on their practices and discussions of archives from several angles: forensics, decolonization and commons. The term "archiving" in digital video production and dissemination designates not only open source memory making that is revealing hidden disobedient practices but also an autonomous structure that leads to tactics of montage, uploading, leaking images to re-build a collective memory of political disobedience. This book aims to discuss the notion of "autonomy" in the practice of "archiving", as well as in the perspective of videogram montage in comparative perspectives from different geographically based practitioners.

**Classical Hollywood Film Cycles** Zoe Wallin, 2019-03-07 This book explores the ways in which Hollywood film cycles from the 1930s to the 1960s were shaped by their surrounding industrial contexts and market environments, to build an inclusive conception of the form, operation, and function of film cycles. By foregrounding patterns of distribution, spaces of exhibition, and modes of consumption as key components of the form and mechanics of cycles, this book develops a methodology for defining cycles based on an analysis of the industry and trade discourse. Applying her unique framework to six case studies of different cycles, Zoe Wallin blends a wide range of historical sources to analyze the many cultural, social, political, aesthetic, and industrial contexts relevant to these films. This book makes an important contribution to the literature in the area of film historiography, and will be of interest to any scholars of film studies, history and media studies.

**Apple Pro Training Series** Brendan Boykin, 2014-01-14 The Apple-Certified Way to Learn This all-new guide presents a real-world workflow from raw media to finished project to demonstrate the features of Final Cut Pro X and the practical techniques you will use in editing projects. Using professionally acquired media, you'll utilize the same tools and editing techniques used by editors worldwide in this revolutionary editing software. Renowned editor and master trainer Brendan Boykin starts with basic video editing techniques and takes you all the way through Final Cut Pro's powerful features. The lessons start as real world as it gets—with an empty timeline. After downloading the media files, you will be guided through creating a project from rough cut to final edit. The basic workflow and tools are covered in Lessons 1 through 4 where you will create a rough cut. The real-world workflow continues through the remaining lessons as you take the basic project and enhance it with a deeper dive into the more advanced Final Cut Pro X features including how to efficiently organize and share media with the new Libraries, enhanced audio tools, streamlined media management, retiming, and more. •

Downloadable lesson media files to work sequentially through exercises for hours of hands-on training. • Focused lessons teach concepts and take students step by step through professional, real-world editing scenarios to create a final project. • Chapter review questions summarize what students learn to prepare them for the Apple certification exam. The Apple Pro Training Series is both a self-paced learning tool and the official curriculum of the Apple Training and Certification program. *Retroactivism in the Lesbian Archives* Jean

Bessette, 2017-12-11 Grassroots historiography has been essential in shaping American sexual identities in the twentieth century. *Retroactivism in the Lesbian Archives* examines how lesbian collectives have employed “retroactivist” rhetorics to propel change in present identification and politics. By appropriating and composing versions of the past, these collectives question, challenge, deconstruct, and reinvent historical discourse itself to negotiate and contest lesbian identity. Bessette considers a diverse

array of primary sources, including grassroots newsletters, place-based archives, experimental documentary films, and digital video collections, to investigate how retroactivists have revised and replaced dominant accounts of lesbian deviance. Her analysis reveals inventive rhetorical strategies leveraged by these rhetors to belie the alienating, dispersing effects of discourses that painted women with same-sex desire as diseased and criminal. Focusing on the Daughters of Bilitis, the Lesbian Herstory Archives, and the June L. Mazer Archives, and on historiographic filmmakers such as Barbara Hammer and Cheryl Dunye, Bessette argues that these retroactivists composed versions of a queer past that challenged then-present oppressions, joined together provisional communities, and disrupted static definitions and associations of lesbian identity. Retroactivism in the Lesbian Archives issues a challenge to feminist and queer scholars to acknowledge how historiographic rhetoric functions in defining and contesting identities and the historical forces that shape them.

### **The Story of Paul Bigsby** Andy Babiuk,2009-01-01 (Book).

Most musicians are familiar with the famous Bigsby Vibrato, but not as many know about the wonderful guitars that Paul Bigsby built in the 1940s. Bigsby, who was responsible for developing and refining the pedal steel guitar, also built the first modern solid body electric guitar for Merle Travis in 1948, predating Leo Fender and Gibson's Les Paul by a number of years. The Story of Paul A. Bigsby tells how Bigsby influenced Fender and Gibson, as well as a number of other guitar manufacturers, in building techniques and design. This deluxe illustrated coffee table book contains over 300 color and black & white photos. Many of these have not previously been published, and over 50 are actual Bigsby instrument photos taken by fine arts photographer Greg Morgan. The book also comes with an audio CD of Paul Bigsby, recorded in the late 1950s, telling stories of his business.

### **Researcher's Guide to British Film & Television Collections**

James Ballantyne,1993 Guide sets out to document film and television material held in archives and collections throughout the UK.

Clip, Stamp, Fold Beatriz Colomina,2021-04-29 An explosion of little architectural magazines in the 1960s and 1970s instigated a

radical transformation in architectural culture, as the magazines acted as a site of innovation and debate. Clip/Stamp/Fold takes stock of seventy little magazines from this period. The book brings together a remarkable range of documents and original research which the project has produced during its continuous travels over the last four years starting with the exhibition at the Storefront in November 2006. The book features transcripts from the “Small Talks” events in which editors and designers were invited to discuss their magazines; a stocktaking of over 100 significant issues that tracks the changing density and progression of the little magazine phenomenon; transcripts of more than forty interviews with magazine editors and designers from all over the world; a selection of magazine facsimiles; and a fold out poster that offers a mosaic image of more than 1,200 covers examined during the research.

**Victor Herbert** Neil Gould,2009-08-25 Victor Herbert is one of the giants of American culture. As a musician, conductor, and, above all, composer, he touched every corner of American musical life at the turn of the century, writing scores of songs, marches, concerti, and other works. But his most enduring legacy is on a different kind of stage, as one of the grandfathers of the modern

musical theater. Now, Victor Herbert has the biography he deserves. Neil Gould draws on his own experience as a director, producer, and scholar to craft the first comprehensive portrait in fifty years of the Irish immigrant whose extraordinary talents defined the sounds of a generation and made contemporary American music possible. Mining a wealth of sources—many for the first time—Gould provides a fascinating portrait of Herbert and his world. Born in Dublin in 1859, Herbert arrived in the United States in 1886. From his first job in the orchestra pit of the Metropolitan Opera, Herbert went on to perform in countless festivals and concerts, and conduct the Pittsburgh Orchestra. In 1894, he composed his first operetta, *Prince Ananias*, and by the time of his death in 1924, he'd composed forty-two more—many of them, such as *Naughty Marietta*, spectacular Broadway hits. Along the way, he also wrote two operas, stage music for the *Ziegfeld Follies*, and the first full score for a motion picture, *The Fall of a Nation*. Gould brilliantly blends the musical and the theatrical, classical and popular, the public and the private, in this book. He not only gives a revealing portrait of Herbert the artist, entrepreneur, and visionary, but also recreates the vibrant world of the Herbert's Broadway. Gould takes us inside the music itself—with detailed

guides to each major work and recreations of great performances. He also makes strong connections between Herbert's breakthrough compositions, such as the operetta *Mlle. Modiste*, and the later contributions of Rudolf Friml, Sigmund Romberg, Jerome Kern and other giants of the musical theater. As exuberant as Herbert himself, this book is also a chronicle of American popular culture during one of its most creative periods. For anyone enraptured by the sound of the American musical, this book is delightfully required reading.

**Optical Poetry** William Moritz, 2004 *Optical Poetry* is the first critical biography of the painter and experimental filmmaker Oskar Fischinger. Active in avant-garde art circles in Germany between the two world wars, Fischinger and his family would emigrate to Los Angeles just ahead of the Nazis' denunciation of degenerate art. Fischinger's pioneering experiments in Visual Music and the melding of graphic arts, abstract design, and sound were instrumental in shaping animation into an art and cinematic form and inspiring animators to pursue its aesthetic potential. An accomplished representational animator who eventually worked uneasily under contract for Paramount, MGM, and Disney, Fischinger produced numerous abstract animated films over his lifetime, invented machines such as the Wax Machine and the Lumigraph for creating images, and became an accomplished and influential abstract painter. A labor of love for author William Moritz and the product of decades of research, *Optical Poetry* also

includes an extensive filmography and testimonials from those who knew or were influenced by Fischinger.

### Evolution on British Television and Radio Alexander

Hall, 2021-09-30 This book charts the history of how biological evolution has been depicted on British television and radio, from the first radio broadcast on evolution in 1925 through to the 150th anniversary of Charles Darwin's *Origin of the Species* in 2009. Going beyond science documentaries, the chapters deal with a broad range of broadcasting content to explore evolutionary themes in radio dramas, educational content, and science fiction shows like *Doctor Who*. The book makes the case that the dominant use in science broadcasting of the 'evolutionary epic', a narrative based on a progressive vision of scientific endeavour, is part of the wider development of a standardised way of speaking about science in society during the 20th century. In covering the diverse range of approaches to depicting evolution used in British productions, the book demonstrates how their success had a global influence on the genres and formats of science broadcasting used today.

**Crerar's Lieutenants** Geoffrey Hayes, 2018-01-08 In 1943, General Harry Crerar noted that there was still much confusion as

to “what constitutes an ‘Officer.’” His words reflected the preoccupation of army officials with inventing an ideal officer who would not only meet the demands of war but also conform to notions of social class and masculinity. Drawing on a wide range of sources and exploring the issue of leadership through new lenses, this book looks at how the army selected and trained its junior officers to embody the new ideal. It also sheds light on the challenges these officers faced during the war – not only on the battlefield but from Canadians’ often conflicted views about social class and gender.

**National Geographic Kids Guide to Genealogy** T. J. Resler, 2018

**Race with the Devil** Susan VanHecke, 2000-08-19 Famous for his classic hit 'Be-Bop-A-Lula,' Gene Vincent was one of the most influential rock 'n' roll artists of all time. This is the first American biography written of this rock pioneer and the most comprehensive

account of his career and turbulent personal life. Adored by British and European fans, Gene Vincent moved to the UK in 1959 where his leather-clad, street-tough persona met with instant acclaim. The survivor of the crash that killed Eddie Cochran, his closest friend, he was to die himself at just 36, a victim of torment and tragedy. Illustrated.

**The Camera Phone Book** Aimee Baldrige, 2007-06-12

Marketing experts predict that by 2009, nearly 90% of all cell phones will contain a camera, as manufacturers race to create cheaper, easier-to-use models with more sophisticated cameras, more pixels, flash units and even multiple lenses. Already revolutionizing audiovisual communication, it's a trend that will only grow more explosively—and who better than National Geographic to create a how-to book aimed directly at the millions who carry a camera phone everywhere and want to make the most of it?

Created by two top professionals, this generously illustrated nuts-and-bolts guide is the first of its kind to treat these units as genuine cameras instead of novelties, and the only one to include a full-color photo-essay demonstrating the full capabilities of the latest camera phones. In five easy-to-read chapters, the book explains how to choose good equipment; take better pictures; and store,

print and send the best images. Readers will find practical tips on preventing or repairing water damage, protecting easily-scratched lenses inside pockets and purses, and retrieving accidentally-erased images. They'll also learn to access the events, advice, and opportunities of the burgeoning camera phone community, from film festivals to news organizations, moblogs, and more. Featuring the technical savvy of CNet.com's Aimee Baldrige and the creative skill of National Geographic photographer Robert Clark, a camera phone pioneer, this compact yet comprehensive reference combines up-to-the-minute expertise with superb examples, at an inexpensive price that makes it a perfect gift book—or an ideal impulse buy.
