Software and Mind Andrei Sorin,2013-01-01 Addressing general readers as well as software practitioners, *Software and Mind* discusses the fallacies of the mechanistic ideology and the degradation of minds caused by these fallacies. Mechanism holds that every aspect of the world can be represented as a simple hierarchical structure of entities. But, while useful in fields like mathematics and manufacturing, this idea is generally worthless, because most aspects of the world are too complex to be reduced to simple hierarchical structures. Our software-related affairs, in particular, cannot be represented in this fashion. And yet, all programming theories and development systems, and all software applications, attempt to reduce real-world problems to neat hierarchical structures of data, operations, and features. Using Karl Popper's famous principles of demarcation between science and pseudoscience, the book shows that the mechanistic ideology has turned most of our software-related activities into pseudoscientific pursuits. Using mechanism as warrant, the software elites are promoting invalid, even fraudulent, software notions. They force us to depend on generic, inferior systems, instead of allowing us to develop software skills and to create our own systems. Software mechanism emulates the methods of manufacturing, and thereby restricts us to high levels of abstraction and simple, isolated structures. The benefits of software, however, can be attained only if we start with low-level elements and learn to create complex, interacting structures. Software, the book argues, is a non-mechanistic phenomenon. So it is akin to language, not to physical objects. Like language, it permits us to mirror the world in our minds and to communicate with it. Moreover, we increasingly depend on software in everything we do, in the same way that we depend on language. Thus, being restricted to mechanistic software is like thinking and

communicating while being restricted to some ready-made sentences supplied by an elite. Ultimately, by impoverishing software, our elites are achieving what the totalitarian elite described by George Orwell in Nineteen Eighty-Four achieves by impoverishing language: they are degrading our minds.

Dinosaurs Before Dark Mary Pope Osborne, 2012 Eight-year-old Jack and his younger sister Annie find a magic treehouse, which whisks them back to an ancient time zone where they see live dinosaurs.

Amazing Irv's Handbook of Everyday Magic Irv Furman, 2015-12-22 Looking for a little magic in your life? Presto! Here's Amazing Irv's Handbook of Everyday Magic—a hip, how-to guide to making magic with everyday objects in everyday situations! With the expert guidance of Amazing Irv, you'll learn all the tricks of the conjuring trade. Using nothing more than your own two hands and the everyday items around you—cell phones, saltshakers, airsickness bags, TV remote controls, and others—you'll be mystifying family, friends, coworkers, and fellow commuters in no time flat. More than 45 astounding tricks—complete with step-by-step instructions and detailed illustrations—are within these pages, divided into sections on magic at home, at work, on the go, and on the town. Learn to: • Magically Feed a Parking Meter • Pull a Banana Out of Thin Air • Use Your Calculator to Predict the Future • Make a Shot Glass Vanish • Make Time Stand Still, and more! Be ready to create magic anytime, anyplace with this entertaining book for magicians of all ages.

My World Ends With You Thomas Holiday , 2023-08-11 Fire, blood, and death, these smells are all too familiar in this world. A world that exists in a Reality where humans and vampires coexist. This world has been breaking apart as strange anomalies occur across the globe, and without any idea of the cause the World governments are trying to cast the blame on the vampires. A Reaper named Malkiel is a special class of vampire that has a soul. He has wandered the earth for hundreds of years,

hiding underneath the sun from humanity and his own kind. Now he works as a firefighter saving anyone he can from the strange anomalies. This time, hiding won't be an option as demons emerge from above and below, causing mayhem with strange new powers bestowed to them by an unknown entity. In order to save himself and this world, Malkiel will fight, and learn about who he is, and the connection that vampires, demons, and humans all share. The answers will be the key in finding away to stop the demons, and keeping the world governments from going to war with the vampires.

Magic Joshua Jay, 2008-11-08 Finally, a book that brings the art of magic into the 21st century!—Rick Merrill, 2006 World Champion of Magic Every 10 or 20 years a book comes along that introduces a whole new generation to the art and craft of magic. This is it!—Stan Allen, Editor-in-Chief of Magic Magazine The Book: A book of powerful secrets. How to master the art of direction. Perfect the Sid Lorraine force, essential to card tricks. Harness PATEO to read minds. Learn skills like the false transfer, palm switch, big-action-covers-the-small-action, and more. Above all, how to create an emotional hook so that, in the fleeting moment when an effect occurs, magic truly happens, revealing the world to be a place of boundless wonder. Dazzle your friends. Impress a date like never before. Confound your kids, or better yet, confound your parents. Magic shows you how to master over 100 effects that are simple to learn and guaranteed to astonish. The DVD: Included with Magic is an entertaining 132-minute DVD featuring 35 effects performed and taught in great detail, with particular emphasis on rhythm and action and the nuances of timing and direction. The author: Joshua Jay was crowned champion at the World Magic Seminar in 1998, when he was still a teenager. He's performed and lectured in over 50 countries, is a headliner at the Magic Castle in Hollywood, and writes a monthly column in MAGIC, the leading magazine for magicians. His website is www.joshuajay.com.

LIFE ,1944-02-14 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. Large photos take readers on a journey of page layout possibilities; step-by-step instructions help them create their own travelogue for a scrapbook that they will return to time and again. 100 photos

70802 Charlie T Smith,2020-12-04 It is a practiced belief that it takes a community to raise the youth of that community. But what happens to the youth of that community if the people of the community and the very soil the community is built on are corrupted? Vietnam G. Franklin, also

known as Li'l One Gone, was conceived through a mixture of heated passion laced with a dose of intoxicants. Born into a community rampant with crime and violence, a place where the consumption of illegal drugs is more prevalent to the substance of life to the occupants of the community than food and water are; trying to find his way; rejected, ridiculed, and despised by his peers; an introvert by circumstance roaming the streets solo, trying to find his way, Li'l One Gone often finds himself in the company of the neighborhood movers and shakers. Pulled in under their wings, thrown into the hustle and bustle of the streets, schooled by them on the ways of the game and the arts of the streets called the life, will Li'l One Gone rise to the top of the cesspool of the streets, or will he be met with the same fate of the ones who tucked him in underneath their wings?

Accidental Alex Richards, 2020-07-07 This timely, emotionally-resonant story about a teen girl dealing with the aftermath of a tragic shooting is a must-read from an exciting new YA talent. Johanna has had more than enough trauma in her life. She lost her mom in a car accident, and her father went AWOL when Johanna was just a baby. At sixteen, life is steady, boring . . . maybe even stifling, since she's being raised by her grandparents who never talk about their daughter, her mother Mandy. Then he comes back: Robert Newsome, Johanna's father, bringing memories and pictures of Mandy. But that's not all he shares. A tragic car accident didn't kill Mandy--it was Johanna, who at two years old, accidentally shot her own mother with an unsecured gun. Now Johanna has to sort through it all--the return of her absentee father, her grandparents' lies, her part in her mother's death. But no one, neither her loyal best friends nor her sweet new boyfriend, can help her forgive them. Most of all, can she ever find a way to forgive herself? In a searing, ultimately uplifting story, debut author Alex Richards tackles a different side of the important issue that has galvanized teens across our country.

Develop the Winners Mentality Bob Reese MA ATC, 2005-08-26 Develop the Winner's Mentality: 5

Essential Mental Skills for Enduring Success Bob Reese, Ph.D. In the genre of psychological self-help and success literature, Bob Reese has contributed a most valuable addition with his *Develop the Winner's Mentality*. He has taken the essentials of cognitive-behavioral, motivational, and sport psychology and integrated them with an energy component that not only explains why they work, but accelerates their outcomes. The technique of Feelazation, which is the addition of powerful emotional energy to visualization, is also introduced. Reese says, There's nothing really new about goal setting, visualization, stress management, and how to think effectively. They are all important and effective for promoting success. What I bring to the party is adding the emotional and energetic components to the other skills so that with proper integration you can cause enduring success. The 5 Essential Mental Skills are goal setting, visualization, energy management, effective thinking, and mental toughness. As stand-alones, each of the five mental skills can have a positive impact on performance, behavior, and success. According to Reese, when these skills are integrated, there is a synergistic effect created in which the result (enduring success) is much greater than the sum of the parts. He also posits that the integration of the first four essential mental skills can encourage mental toughness, a trait that many feel you have to be born with. In his Ph.D. dissertation Reese showed that a Div. I Volleyball team enhanced both individual performance and mental toughness when the program was implemented. For 25 years Reese served as an athletic trainer in the NFL. *Develop the Winner's Mentality* is replete with both humorous and poignant stories of how some of the athletes he worked with utilized these skills to ensure their success. The most moving example is that of Dennis Byrd, a New York Jets player who was quadriplegic from a broken neck and who had a grim prognosis - he would be confined to a wheelchair for life. Byrd's use of emotive goal setting to walk out of the hospital only three months after his injury leads Reese to refer to him as the Ultimate Goal Setter.

Forewards for *Develop the Winner's Mentality* are provided by two time NCAA National Champion University of Southern California Head Football Coach Pete Carroll, and former NFL All-Pro wide receiver and TV Celebrity Ahmad Rashad. Both high performers, Carroll and Rashad discuss their use of the mental skills and their personal relationship with Reese. The book is sectioned into 15 chapters that are written in a manor that facilitates the novice in the learning and application of each of the 5 Essential Mental Skills. Winner's is also interesting enough to keep the successful veterans of mental skills training engaged so that they can enhance the skills they already possess. Included in *Develop the Winner's Mentality* are many exercises for the reader to apply, which makes it a workbook within a text. Adjunct materials such as a voiceover PowerPoint and web support are in development so that *Develop the Winner's Mentality* can be used as continuing education for executive, life and success coaches; athletic trainers, physical therapists and physical therapists assistants; strength and fitness coaches; and anyone else interested in enhancing performance with individuals or groups. Winner's is well researched from both popular and scientific literature, and may be used as a primary or supplemental text for college courses such as introductory psychology, college success, and sport psychology.

Clever Close-up Magic Bob Longe, 2003 Invite the audience up close; they'll still never figure out how these easy tricks work. Start with a can't-miss gambit, where you challenge your friends to pick the hand that holds the odd number of coins. Then try a classic; though it sounds like a real stretch, it's a mere sleight of hand to make a handkerchief seem to get longer, and longer...and longer. Plus: astonishing magic with math, string, cards, paper clips, and more.

Jumbo Book of My First Hidden Pictures Highlights, 2021-09-28 Perfect for the youngest puzzlers, this jumbo book is jam-packed with hilarious Hidden Pictures puzzles and other activities that extend

the puzzle experience. This book contains more than 115 colorful Hidden Pictures puzzles, along with bonus mazes, drawing prompts, tracing activities, and more. It is specially designed to entertain emerging puzzle-lovers and to help develop visual perception and problem-solving skills. Makes a fun activity for family game night or a great gift for any occasion!

Magic for You Patabhi Ram,2004-12 As the title only suggests that even if you know nothing about magic, still you can learn with the help of this book. Here are over 50 fabulous tricks that anyone can learn and entertain his family and friends with. The first two books by the author on the same subject have already received tremendous applause from the public. This one is the third in the series and has been appreciated by the British master magician and top TV entertainer Paul Daniel.
