*The Senate Intelligence Committee Report on Torture (Academic Edition)* Senate Select Committee On Intelligence,2020-02-18 The study edition of book the Los Angeles Times called, The most extensive review of U.S. intelligence-gathering tactics in generations. This is the complete Executive Summary of the Senate Intelligence Committee's investigation into the CIA's interrogation and detention programs -- a.k.a., The Torture Report. Based on over six million pages of secret CIA documents, the report details a covert program of secret prisons, prisoner deaths, interrogation practices, and cooperation with other foreign and domestic agencies, as well as the CIA's efforts to hide the details of the program from the White House, the Department of Justice, the Congress, and the American people. Over five years in the making, it is presented here exactly as redacted and released by the United States government on December 9, 2014, with an introduction by Daniel J. Jones, who led the Senate investigation. This special edition includes: • Large, easy-to-read format. • Almost 3,000 notes formatted as footnotes, exactly as they appeared in the original report. This allows readers to see obscured or clarifying details as they read the main text. • An introduction by Senate staffer Daniel J. Jones who led the investigation and wrote the report for the Senate Intelligence Committee, and a forward by the head of that committee, Senator Dianne Feinstein.

Essentialism Greg McKeown,2014-04-15 NEW YORK TIMES BESTSELLER • More than one million copies sold! Essentialism isn't about getting more done in less time. It's about getting only the right things done. "A timely, essential read for anyone who feels overcommitted, overloaded, or overworked."—Adam Grant Have you ever: • found yourself stretched too thin? • simultaneously felt overworked and underutilized? • felt busy but not productive? • felt like your time is constantly being hijacked by other people's agendas? If you answered yes to any of these, the way out is the Way of the Essentialist. Essentialism is more than a time-management strategy or a productivity technique. It is a systematic discipline for discerning what is absolutely essential, then eliminating everything that is not, so we can make the highest possible contribution toward the things that really matter. By forcing us to apply more selective criteria for what is Essential, the disciplined pursuit of less empowers us to reclaim control of our own choices about where to spend our precious time and energy—instead of giving others the implicit permission to choose for us. Essentialism is not one more thing—it's a whole new way of doing everything. It's about doing less, but better, in every area of our lives. Essentialism is a movement whose time has come.

**Families Caring for an Aging America** National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Care Services,Committee on Family Caregiving for Older Adults,2016-11-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

**Getting MAD: Nuclear Mutual Assured Destruction, Its Origins and Practice** ,2004 Nearly 40 years after the concept of finite deterrence was popularized by the Johnson administration, nuclear Mutual Assured Destruction (MAD) thinking appears to be in decline. The United States has rejected the notion that threatening population centers with nuclear attacks is a legitimate way to assure deterrence. Most recently, it withdrew from the Anti-Ballistic Missile Treaty, an agreement based on MAD. American opposition to MAD also is reflected in the Bush administration's desire to develop smaller, more accurate nuclear weapons that would reduce the number of innocent civilians killed in a nuclear strike. Still, MAD is influential in a number of ways. First, other countries, like China, have not abandoned the idea that holding their adversaries' cities at risk is necessary to assure their own strategic security. Nor have U.S. and allied security officials and experts fully abandoned the idea. At a minimum, acquiring nuclear weapons is still viewed as being sensible to face off a hostile neighbor that might strike one's own cities. Thus, our diplomats have been warning China that Japan would be under tremendous pressure to go nuclear if North Korea persisted in acquiring a few crude weapons of its own. Similarly, Israeli officials have long argued, without criticism, that they would not be second in acquiring nuclear weapons in the Middle East. Indeed, given that Israelis surrounded by enemies that would not hesitate to destroy its population if they could, Washington finds Israel's retention of a significant nuclear capability totally understandable.

**SAP Backup using Tivoli Storage Manager** Budi Darmawan,Miroslav Dvorak,Dhruv Harnal,Gerson Makino,Markus Molnar,Rennad Murugan,Marcos Silva,IBM Redbooks,2013-04-26 In this IBM® Redbooks® publication, we give an overview of different data management topics related to a typical SAP® data center. The intrinsic functionality of SAP is not designed to completely handle all the tasks of a data center by itself, but the SAP system offers several interface possibilities to attach external tools to it to accomplish this task We explain SAP basic concepts and the issues with SAP data management. We introduce Tivoli® Storage Manager and all of its products that are related to SAP data management. We provide some comparison between database backup and recovery tools. Finally, we discuss data archiving using IBM DB2® CommonStore for SAP, and discuss high availability requirements and disaster recovery considerations. The second part of this book discusses a practical implementation of SAP backup and recovery with Tivoli Storage Manager. We implement this setup on two separate SAP systems: one running DB2 and the other running Oracle® database. We also implement LAN-free backup and FlashCopy® scenarios. In the sample implementation section, we show many different tasks, such as backup and

restore, database recovery, backup monitoring, and tuning. We also cover some advanced backup/availability considerations, such as split mirror backup and standby databases. This book helps individuals that operate an SAP environment to devise a strategy for a sound and comprehensive data backup solution using the IBM Tivoli Storage Management product family.

This book is packed with from the trenches programming secrets and features undocumented Pentium programming tips. Provides hundreds of optimized coding examples.

Climate Information for Public Health Action Madeleine C. Thomson,Simon J. Mason,2018-09-21 Policy-makers are increasingly concerned about the impact of climate variability and change on the health of vulnerable populations. Variations and trends in climatic factors and extreme weather events impact many health outcomes, including malaria, heat stress and undernutrition. Climate Information for Public Health Action is based on the premise that climate knowledge and information can help protect the public from climate-sensitive health risks. With a focus on infectious disease, hydro-meteorological disasters and nutrition, the book explores why, when and how data on the historical, current and future (from days to decades) climate can be incorporated into health decision-making. Created as a collaborative effort between climate and health experts, this book targets a broad technical public health community, alongside development practitioners and policy-makers engaged in climate change adaptation. It may also guide climate experts in the development of climate services tailored to health needs. Written in an accessible, informative style, while maintaining the highest technical and scientific standards, it will also be a valuable resource for students and academics studying and working in the emerging field of environment and health. The Open Access version of this book, available at <http://www.tandfebooks.com/doi/view/10.4324/9781315115603>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

*Finite Fields with Applications to Coding Theory, Cryptography and Related Areas* Gary L. Mullen,Henning Stichtenoth,Horacio Tapia-Recillas,2012-12-06 The Sixth International Conference on Finite Fields and Applications, Fq6, held in the city of Oaxaca, Mexico, from May 21-25, 2001, continued a series of biennial international conferences on finite fields. This volume documents the steadily increasing interest in this topic. Finite fields are an important tool in discrete mathematics and its applications cover algebraic geometry, coding theory, cryptology, design theory, finite geometries, and scientific computation, among others. An important feature is the interplay between theory and applications which has led to many new perspectives in research on finite fields and other areas. This interplay has been emphasized in this series of conferences and certainly was reflected in Fq6. This volume offers up-to-date original research papers by leading experts in the area.

**Practising Virtue** David D. Caron,Stephan W. Schill,Abby Cohen Smutny,Epaminontas E. Triantafilou,2015 International arbitration has developed into a global system of adjudication, dealing with disputes arising from a variety of legal relationships: between states, between private commercial actors, and between private and public entities. It operates to a large extent according to its own rules and dynamics - a transnational justice system rather independent of domestic and international law. In response to its growing importance and use by disputing parties, international arbitration has become increasingly institutionalized, professionalized, and judicialized. At the same time, it has gained significance beyond specific disputes and indeed contributes to the shaping of law. Arbitrators have therefore become not only adjudicators, but transnational lawmakers. This has raised concerns over the legitimacy of international arbitration. Practising Virtue looks at international arbitration from the 'inside', with an emphasis on its transnational character. Instead of concentrating on the national and international law governing international arbitration, it focuses on those who practice international arbitration, in order to understand how it actually works, what its sources of authority are, and what demands of legitimacy it must meet. Putting those who practice arbitration into the centre of the system of international arbitration allows us to appreciate the way in which they contribute to the development of the law they apply. This book invites eminent arbitrators to reflect on the actual practice of international arbitration, and its contribution to the transnational justice system.

**Congressional Record** United States. Congress,2003 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

**Sustainable Supply Chains** Tonya Boone,Vaidyanathan Jayaraman,Ram Ganeshan,2012-06-07 A sustainable enterprise is one that contributes to sustainable development by simultaneously delivering economic, social and environmental benefits or what has been termed the triple bottom line. While pursuing profit, socially responsible companies should be sensitive to the environment and uphold the rights of all the firm's stakeholders. This edited volume explores leading-edge ideas – both by academics and forward-thinking companies – to (re)design and market products, source, manufacture, and eventually distribute and recover or dispose of them in an environmentally, ecologically, and socially responsible way. This edited volume is made up of fifteen chapters loosely grouped into clusters. After an introduction, chapter 2 shows the greenhouse emissions at various levels, from countries all the way to individual products. Chapters 3-7 each focus on an industrial sector and address issues specific to that industry, with chapter 7 presenting a case study on LEED certification of Miller Hall, home of the Mason School of Business where two of the authors (Tonya and Ram) work. Chapters 8-10 address product take back in the supply chain. Chapter 8 introduces e-waste and surveys what firms are doing to combat it. Chapter 9 provides an overview of existing take-back legislation and academic papers that have studied various research questions associated with them. Chapter 10 is a tutorial that addresses the problem of product disposition on a closed-loop supply chain: what should a firm do with a product return? Chapters 11-15 address measurement, monitoring, decision-making, and reporting regarding environmental issues in a firm. Chapter 11 provides an academic survey of eco-labeling and the consumer's willingness to pay for them. Chapter 12 discusses how firms can measure the total carbon footprint in their supply chains and some of the strategies

they can use to mitigate carbon emissions. Using the price of call options, chapter 13 illustrates how managers can quantify the savings attributed to sustainability-related investment. Chapter 14 develops a non-linear optimization model that addresses the complex trade-offs involved in making joint operational and environmental decisions. Finally, chapter 15 develops a Data Envelopment Analysis-based method for supplier evaluation incorporating environmental and business factors.
