The Marcus Garvey and Universal Negro Improvement Association Papers, Vol. VII Marcus Garvey, 2023-09-01 The publication of Volume VII marks the completion of the American series of The Marcus Garvey and Universal Negro Improvement Association Papers. This final book in the seven-volume set charts the magnetic, controversial Pan-African leader's career from his deportation from the United States in November 1927 to his death in England in 1940. The volume begins with Garvey's triumphant welcome in Jamaica, his tour abroad, and his entry into Jamaican party politics. It traces his reshaping of the organizational structure of the Universal Negro Improvement Association (UNIA) in the late 1920s, and his management of UNIA affairs from Kingston and London in the 1930s. Though typically seen as a time of decline, this final period of Garvey's life appears, in editorials drawn from his publications, as a fruitful one in which some of his strongest political writings were produced. Surveillance reports filed by Jamaican police and British colonial officials provide a rich account of Garvey's speeches and activities. Although he was banned from the United States and restricted from traveling or speaking in many areas under colonial supervision, Garvey nevertheless traveled widely after his deportation, visiting and influencing affairs in Geneva, Paris, and London, and making organizational tours of Canada and the Caribbean. He chaired UNIA conferences in Toronto and inaugurated the School of African Philosophy, a series of lectures designed to train UNIA leaders. In the mid-1930s he moved the headquarters of the UNIA to London. In the final months of his life, correspondence between Garvey in England and his young sons in Jamaica shows the personal side of the public leader. The tragedy of Garvey's personal demise is framed by the cataclysmic events of Europe entering a world war and by the decline of the movement he had worked so diligently to build. The long financial hardships of the previous decade and the loss of Garvey's presence had winnowed the membership of the UNIA. Garvey suffered a disabling stroke in January 1940. He died in London the following June, as Italy invaded France and Germany prepared to occupy Paris. Volume VII ends with the reconstitution of the UNIA in the months immediately after Garvey's death and the establishment of a new headquarters with new leadership in Cleveland.

Nightclub George Rigakos, 2008 In the last thirty years bouncers have emerged as iconic gatekeepers of contemporary cool, exclusivity, and social capital in urban centres around the world. In this groundbreaking empirical study, Rigakos critiques the supposed liberating and expressive potential of nightclubs by theorizing them within the linked themes of risk, consumption and security in late capitalism. People attend nightclubs to be seen and see others, to consume others as aesthetic objects of desire and to elicit desire in others – the desire to be desired. This 'synoptic frenzy', according to Rigakos, fuses surveillance and aesthetic consumption. It fetishizes bodies and amplifies social capitals, producing optic violence and crises of respect fuelled by alcohol. At closing time, populations flow out of the haze of the nightclub and onto city streets, from private spectacle to public nuisance. Mirroring the general late capitalist compulsion to binge and purge, the nightclub's spectacle of consumption produces a litany of unfulfilled courtiers of

the night, staggering out of one spectacle and immediately into another. In this sense, bouncers are not only prime policing agents in the nighttime economy but are producers of an urban risk market – a site of circumscribed transgression and consumption that begins at the door.

Military Dogs of World War II Susan Bulanda, 2023-08-03 A fully illustrated insight into the dogs that served with both Allied and Axis nations during World War II. Animals, especially dogs, have served in all the wars of men since time immemorial. During World War II, most combatant nations employed dogs on the battlefield in a number of ways including searching for injured men or downed airmen; detecting mines; carrying messages between units or dragging communications wires, particularly in difficult terrain; transporting supplies; and sentry duty. This illustrated book is an overview of how dogs were trained and used in WWII by different countries, including the stories of some of the individual animals that served. It also summarizes the various programs established to take care of the animals and send them home after the war.

In the Philippines and Okinawa William S. Triplet, 2001 In the Philippines and Okinawa, the third volume of Colonel William S. Triplet's memoirs, tells of Triplet's experiences during the American occupations in the early years after World War II. Continuing the story from the preceding books of his memoirs, *A Youth in the Meuse-Argonne* and *A Colonel in the Armored Divisions* (University of Missouri Press), Triplet takes us to the Philippines, where his duties included rounding up isolated groups of Japanese holdouts, men who refused to believe or admit that their nation had lost the war, and holding them until the time came to transport them back to Japan.

Kabini And The Jungle Stories AK SINGH, 2022-08-02 At the turn of the 19th century in India, more than a million wild animals were trounced under the barrel of the gun, bringing them almost to the brink of extinction. There began one of the most inspirational stories of the crusade from Karapure village at the Kabini river of Mysore in South India. An innovative style of protecting nature gives immense importance to the preservation of wilderness, changing the lives of the aborigines through an instrument of eco-tourism. The book charts the key moments in the fight to conserve the natural wealth of India, which has been the

centre of admiration for maharajas, the cynosure of the eyes of all royal princes, eminent military officials and those who set on foot to India during the medieval period, embarking on a journey of incredible stories of wildlife sports such as hunting and shooting. The chronicle gives a fascinating picture of the success story of eco-tourism in Karnataka. It offers an atmospheric and entertaining account of the lives of Indian princes, early lifestyles of viceroys, kings, czars and sovereign monarchs with joyful hunting expeditions of emperors, maharajas and enjoyable sports of diplomats and bloodhound hunters, the British civil servants. In a most vivid and gripping style, the saga records the life of men who lived in the wilderness amidst tribes and aborigines and made them friends, which spread the message of the benevolence of human relationships, love and a deep affection for nature and natural resources. It is a captivating book packed with splendid quotes, entertaining anecdotes, chronicles of pre-independent, innovative, triumphant trials of Khedda operations in the princely states of Mysore and Hyderabad, absorbing tales of the wildlife of India and her natural splendours across the cultural diversity of various tribes, ethnicities and their virtues, beliefs and ethos.

Masculinity, Militarism and Eighteenth-Century Culture, 1689-1815 Julia

Banister,2018-04-26 This book investigates the figure of the military man in the long eighteenth century in order to explore how ideas about militarism served as vehicles for conceptualizations of masculinity. Bringing together representations of military men and accounts of court martial proceedings, this book examines eighteenth-century arguments about masculinity and those that appealed to the 'naturally' sexed body and construed masculinity as social construction and performance. Julia Banister's discussion draws on a range of printed materials, including canonical literary and philosophical texts by David Hume, Adam Smith, Horace Walpole and Jane Austen, and texts relating to the naval trials of, amongst others, Admiral John Byng. By mapping eighteenth-century ideas about militarism, including professionalism and heroism, alongside broader cultural concerns with politeness, sensibility, the Gothic past and celebrity, Julia Banister reveals how ideas about masculinity and militarism were shaped by and within eighteenth-century culture.
