E-Business Essentials Nick Bontis,2004-09-01 This special issue of QJEC marks the final instalment of the journal. The QJEC has had a long-standing history of international scholarship focused on the emerging field of electronic commerce with a broad, interdisciplinary approach. It has established the field's intellectual foundation with state-of-the-art research from business, computer science, engineering, law, psychology, and sociology. This particular issue focuses on an eclectic group of papers that are international in scope with authors from Canada, Australia, France, Germany, South Africa and Italy. The papers range in topics from valuing dot com companies, to mobile health and portals, to supply chain management.

**The Family Tree Toolkit** Kenyata D. Berry,2018-11-06 The popularity of Family History has increased over the past five years due to TV shows like Genealogy Roadshow, Finding Your Roots, and Who Do You Think You Are? The ability to access records online has opened up the one time hobby for genealogy enthusiasts to the mainstream. Companies like Ancestry.com, Familysearch.org, Findmypast.com, and MyHeritage have spent millions of dollars making records available around the

world. DNA technology continues to evolve and provides the instant gratification that we have become use to as a society. But then the question remains, what does that really mean? Knowing your ancestry is more than just ethnic percentages it's about creating and building a story about your family history. The Family History Toolkit is designed to help you navigate the sometimes overwhelming and sometimes treacherous waters of finding your ancestors. While this is not a comprehensive guide to all things genealogy, it is a roadmap to help you on this journey of discovery, whether you are looking for your African Asian, European, or Jewish ancestry. The Family History Toolkit guides you on how and where to begin, what records are available both online and in repositories, what to do once you find the information, how to share your story and of course DNA discoveries.

**Sports Cardiology Casebook** Antonio Pelliccia,2009-07-21 Comparatively little is known about the risk of sudden death associated with exercise in young competitive athletes, and whether the benefits of sports activity outweigh the hazards of exercise-related fatal events is a clinical dilemma. This is only a small part of the story, however, as there are considerable effects of exercise whether it be at a competitive level or on a 'leisure' level on patients of all ages. This in itself is of massive importance to the cardiac patient population as exercise is a key component of effective recovery and recommended as central in the prevention of much cardiac disease.

The Foundlings Nathan Dylan Goodwin,2021-10-30 Forensic genealogist, Morton Farrier, agrees to take on a case to identify the biological mother of three foundlings, abandoned in shop doorways as new-born babies in the 1970s. He has just one thing with which to begin his investigation: the three women's DNA, one of whom is his half-aunt. With just six days of research time available to him, his

investigation uncovers some shocking revelations and troubling links to his own grandfather; and Morton finds that, for the first time in his career, he is advising his clients not to read his concluding report. This is the ninth novel in the Morton Farrier genealogical crime mystery series, although it can be enjoyed as a stand-alone story. **Benjamin Franklin's Family: Volume I: English Ancestors** Michael J. Leclerc Cg, 2019-11-04 Benjamin Franklin is one of the most well-known figures in history. Franklin himself was very interested in his family history and collected a number of stories about his Franklin ancestors. Despite hundreds of volumes that have been published on him that include details his family, no compiled genealogy of the family has ever been done. Here for the first time is the genealogy of the family, published to modern documentation standards. This volume documents more than two dozen Franklin families from the 1500s to the 1700s, elaborating on many previously-known individuals, correcting inaccurate information, and adding new family members. It also reviews Franklin families that are not related to Benjamin Franklin. In addition to the Franklins, the ancestries of the women who married into the family in England are examined for the first time: Anne Child, wife of Josiah Franklin; Jane White, wife of Thomas Franklin; Agnes Jones, wife of Henry Franklin; and Margery Meadows, wife of Thomas Franklin.

**The Chester Creek Murders** Nathan Dylan Goodwin, 2021-01-15 When Detective Clayton Tyler is tasked with reviewing the formidable archives of unsolved homicides in his police department's vaults, he settles on one particular cold case from the 1980s: The Chester Creek Murders. Three

young women were brutally murdered—their bodies dumped in Chester Creek, Delaware County—by a serial killer who has confounded a slew of detectives and evaded capture for over thirty-eight years. With no new leads or information at his disposal, the detective contacts Venator for help, a company that uses cutting-edge investigative genetic genealogy to profile perpetrators solely from DNA evidence. Taking on the case, Madison Scott-Barnhart and her small team at Venator must use their forensic genealogical expertise to attempt finally to bring the serial killer to justice. Madison, meanwhile, has to weigh professional and personal issues carefully, including the looming five-year anniversary of her husband's disappearance. *The Sterling Affair* Nathan Dylan Goodwin, 2020-01-17 When an unannounced stranger comes calling at Morton Farrier's front door, he finds himself faced with the most intriguing and confounding case of his career to-date as a forensic genealogist. He agrees to accept the contract to identify a man who had been secretly living under the name of his new client's long-deceased brother. Morton must use his range of resources and research skills to help him deconstruct this mysterious man's life, ultimately leading him back into the murky world of 1950s international affairs of state. Meanwhile, Morton is faced with his own alarmingly close DNA match which itself comes with far-reaching

implications for the Farriers. This is the eighth novel in the Morton Farrier genealogical crime mystery series of ten stories, although it can be enjoyed as a stand-alone story. **Creating Family Archives** Margot Note,2019 Not just a gift. It's history in the making. Family history is important. Photos, videos, aged documents, and cherished papers--these are the memories that you want to save. And they need a better home than a cardboard box. Creating Family Archives is a book written by an archivist for you, your family, and friends, taking you step-by-step through the process of arranging and preserving your own family archives. It's the first book of its kind offered to

the public by the Society of American Archivists. Gathering up the boxes of photos and years of video is a big job. But this fascinating and instructional book will make it easier and, in the end, much better--
