**Blue** Steve Aoki,Daniel Paisner,2019-09-03 The music. The mix. His life. [A] passionate, introspective memoir. —Publishers Weekly Sometimes I think my whole life can be seen through shades of blue... —Steve Aoki Blue is the remarkable story—in pictures and words—of Steve Aoki, the superstar DJ/producer who started his career as a vegan straightedge hardcore music kid hellbent on defying his millionaire father, whose unquenchable thirst to entertain—inherited from his dad, Rocky Aoki, founder of Benihana—led him to global success and two Grammy nominations. Ranked among the top ten DJs in the world today, Grammy-nominated artist, producer, label head, fashion designer, philanthropist and entrepreneur Steve Aoki is an authentic global trendsetter and tastemaker who has been instrumental in defining contemporary youth culture. Known for his outrageous stage antics (cake throwing, champagne spraying, and the ‘Aoki Jump’) and his endearing personality, Steve is also the brains behind indie record label Dim Mak, which broke acts such as The Kills, Bloc Party, and The Gossip. Dim Mak also put out the first releases by breakout EDM stars The Chainsmokers and The Bloody Beetroots, as well as the early releases for Grammy-nominated artist Iggy Azalea, in addition to EDM star Zedd and electro duo MSTRKFT. In Blue, Aoki recounts the epic highs of music festivals, clubs and pool parties around the world, as well as the lows of friendships lost to drugs and alcohol, and his relationship with his flamboyant father. Illustrated with candid photos gathered throughout his life, the book reveals how Aoki became a force of nature as an early social media adopter, helping to turn dance music into the phenomenon it is today. All this, while remaining true to his DIY punk rock principles, which value spontaneity, fun and friendship above all else—demonstrable by the countless cakes he has flung across cities worldwide.

*E-viller* Ronald Maestri,2005-01-01 ...If you have ever known someone who was addicted to sex, drugs, alcohol or anything else, you need to read this book. ...If you have wanted to understand what the life of a homosexual man caught in addiction looked like, then this book will enlighten you. ronald scott maestri allows you into the world only addicts know, and has combined the drama of a science fiction novel with the deeply personal process of addiction recovery. Reading e-ville® , you will come to understand the profound and deep emotional pain and wounding that co-creates addiction. And yet, this is a book about recovery, acceptance and understanding. In e-ville® , you will journey first into the downward spiral that is deep family suffering and lack of love. You will learn how intolerance undermines and causes long lasting scars that continue to cut away at the soul until the only answer seems like escape from this reality. You will find yourself caught in the internal battle of the characters looking at the duality within. And you will feel yourself crawl out of the illusion back into the reality or conscious clarity. If you are ready for a book that tests your belief systems and opens you to worlds previously unknown, then take a deep breath and read e-ville® . --Suzanne Wagner Psychic, Healer, Teacher P.S. This book is not rated PG.

**The Shape of Colors. Life is a Story - story.one** Christian Schmitz,2024-02-28 The curly blond hair is what I noticed first. No, wait. It was the eyes. Those deeply blue and unsettling eyes that feel like an ice-cold lake. It must have definitely been those eyes. Or was it her voluptuous rosy lips? Why am I unable to process a proper thought since she walked in? My name is Emilia, Emmy for short. And this is where my story begins.

**The Noisy Paint Box: The Colors and Sounds of Kandinsky's Abstract Art** Barb Rosenstock,2014-02-11 A Caldecott Honor Book Vasya Kandinsky was a proper little boy: he studied math and history, he practiced the piano, he sat up straight and was perfectly polite. And when his family sent him to art classes, they expected him to paint pretty houses and flowers—like a proper artist. But as Vasya opened his paint box and began mixing the reds, the yellows, the blues, he heard a strange sound—the swirling colors trilled like an orchestra tuning up for a symphony! And as he grew older, he continued to hear brilliant colors singing and see vibrant sounds dancing. But was Vasya brave enough to put aside his proper still lifes and portraits and paint . . . music? In this exuberant celebration of creativity, Barb Rosenstock and Mary GrandPré tell the fascinating story of Vasily Kandinsky, one of the very first painters of abstract art. Throughout his life, Kandinsky experienced colors as sounds, and sounds as colors—and bold, groundbreaking works burst forth from his noisy paint box. Backmatter includes four paintings by Kandinsky, an author’s note, sources, links to websites on synesthesia and abstract art.

**What Sound Does a Color Make?** Kathleen Forde,2005 Explores the subject of synesthesia in contemporary electronic art, where sound and visual stimuli seemingly fuse together in immersive sensory environments. Connecting recent developments in digital audiovisual art to their predigital roots, this exhibition provokes a renewed awareness of human cognition and perception through a selection of compelling works by an international group of artists.

*The Secret Lives of Colour* Kassia St Clair,2016-10-20 THE SUNDAY TIMES BESTSELLER 'A mind-expanding tour of the world without leaving your paintbox. Every colour has a story, and here are some of the most alluring, alarming, and thought-provoking. Very hard painting the hallway magnolia after this inspiring primer.' Simon Garfield The Secret Lives of Colour tells the unusual stories of the 75 most fascinating shades, dyes and hues. From blonde to ginger, the brown that changed the way battles were fought to the white that protected against the plague, Picasso's blue period to the charcoal on the cave walls at Lascaux, acid yellow to kelly green, and from scarlet women to imperial purple, these surprising stories run like a bright thread throughout history. In this book Kassia St Clair has turned her lifelong obsession with colours and where they come from (whether Van Gogh's chrome yellow sunflowers or punk's fluorescent pink) into a unique study of human civilisation. Across fashion and politics, art and war, The Secret Lives of Colour tell the vivid story of our culture.

*Clever Fresno Girl* Marguerite Zorach,2008 This volume features 30 art-related travel articles by the American modern artist, Marguerite Thompson Zorach (1887-1968). The accompanying essay examines her life in Paris, the people she met, and the art she was exposed to.

**The Color of Sound** Emily Barth Isler,2024-03-05 Twelve-year-old Rosie is a musical prodigy whose synesthesia allows her to see music in colors. Her mom has always pushed her to become a concert violinist, but this summer Rosie refuses to play, wanting a normal life. Forced to spend the summer with her grandparents, Rosie is excited to meet another girl her age hanging out on their

property. The girl is familiar, and Rosie quickly pieces it together: somehow, this girl is her mother, when her mother was twelve. With help from this glitch in time—plus her grandparents, an improv group, and a new instrument—Rosie comes to understand her mother, herself, and her love of music in new ways.

**The Will to Create** Astrida Orle Tantillo,2002-04-01 Better known as a poet and dramatist, Johann Wolfgang von Goethe (1749–1832) was also a learned philosopher and natural scientist. Astrida Orle Tantillo offers the first comprehensive analysis of his natural philosophy, which she contends is rooted in creativity. Tantillo analyzes Goethe's main scientific texts, including his work on physics, botany, comparative anatomy, and metereology. She critically examines his attempts to challenge the basic tenets of Newtonian and Cartesian science and to found a new natural philosophy. In individual chapters devoted to different key principles, she reveals how this natural philosophy—which questions rationalism, the quantitative approach to scientific inquiry, strict gender categories, and the possibility of scientific objectivity—illuminates Goethe's standing as both a precursor and critic of modernity. Tantillo does not presuppose prior knowledge of Goethe or science, and carefully avoids an overreliance on specialized jargon. This makes The Will to Create accessible to a wide audience, including philosophers, historians of science, and literary theorists, as well as general readers.

**The Taste of Colors** Brittany M. Scott,2013-12-06 What does the color red sound like? Does the color pink feel soft? How sweet is the color yellow? What does the color blue smell like? Discover what other colors taste, feel, smell, and sound like in The Taste of Colors, where two young boys learn about the power of storytelling to overcome differences and make new friends.
