My Color Companion Global Doodle Gems, 2016-04-30 My Color Companion, the idea for this book comes from my own need, to always keep records of my colors, it is the first thing I do, when I get new pencils, markers or pens, as an artist I also test fineliners and pencils, I have handdrawn the 30 different templates inside this book (each template is repeated 4 times in the book), I recommend that you use a piece of cardstock between the pages when you test markers. The book is printed on the same paper as 90 % of most of the coloring books you will find on Amazon, which means it is a great place to test how your colors will work in the books, and create your own unique color palettes that are your style. Also check out the pocket edition with 15 different templates (also repeated 4 times, giving you a whole 60 single pages to work with your colors on).

Colour Mania Victionary, 2009 Green with envy. Feeling blue. White lies.

Grey areas. In every language spoken on earth human beings use colors to express themselves. World renowned author, Vladimir Nabokov*, claimed he could hear color and actually assigned a color to each letter of the alphabet based on each letter's particular sound. The Eskimos of the polar regions have countless words that uniquely describe the color white. In the world of graphics some designers have devoted their entire body of work to one color, sometimes showing it off in all of its full-bodied glory, sometimes stripping it back to its barest essentials. Colour Mania brings together an eclectic group of talented designers who have one thing in common: they are artists who simply can't get enough of one particular color be that red, orange, yellow, green, blue, purple, black or white. This book offers a depth of understanding of individual colors that is unprecedented.

The Politics of Color in the Fiction of Jessie Fauset and Nella Larsen Jacquelyn Y. McLendon, 1995 A critical examination of Fauset's Plum Bun and Comedy: American Style, and Larsen's Quicksand, recovering a subversive element in the Harlem Renaissance writers whose work was revived by feminists in the late 1970s. McLendon (English, College of William and Mary) explores how the white writers' 19th century stereotype of the tragic mulatto is reinvented in the work of the two writers and transformed into a concept of doubleness representing African-American experience. Provenance and Early Cinema Joanne Bernardi, Paolo Cherchi Usai, Tami Williams, Joshua Yumibe, 2021-02-01 Remnants of early films often have a story to tell. As material artifacts, these film fragments are central to cinema history, perhaps more than ever in our digital age of easy copying and sharing. If a digital copy is previewed before preservation or is shared with a researcher outside the purview of a film archive, knowledge about how the artifact was collected, circulated, and repurposed threatens to become obscured. When the question of origin is overlooked, the story can be lost. Concerned contributors in *Provenance and Early Cinema* challenge scholars digging through film archives to ask, How did these moving images get here for me to see them? This volume, which features the conference proceedings from Domitor, the International Society for the Study of Early Cinema, 2018, questions preservation, attribution, and patterns of reuse in order to explore singular artifacts with long and circuitous lives.
