Albert A Gayle

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Humanity Over Comfort Sharone Brinkley-Parker, Tracey L. Durant, Kendra V. Johnson, Kandice Taylor, Johari Toe, Lisa Williams, 2021-10-19 Increase your racial equity capacity for transformational change The years 2020 - 2021 will be remembered for COVID-19 and racial injustice. COVID illuminated long-standing structural inequities. Increased media focus on police brutality helped fuel a protest movement that underscored the urgency of the moment. In schools, non-profits, and various business sectors, conversations about race and institutional racism are becoming increasingly common. However, most of these conversations are performative and do little to disrupt the status quo. The authors of Humanity Over Comfort aim to move beyond the transactional response of using only conversations to respond to structural inequalities. Alternatively, the authors advance tools that promote transformational change that eliminates the access and opportunity gaps for Black and Brown individuals. Written to cultivate awareness that increases racial equity capacity, this book will help readers Understand historical context and the influence of racism in shaping reality Engage in reflections that connect learning to personal experience Understand the Conscious Anti-Racist Engendering Framework (CARE), which draws from adult learning theory to build community in organizations Leverage one's span of control to implement practices that incrementally work to dismantle systems of oppressions Direct their increased capacity towards dismantling racially predictable policies and practices Transactional responses to racism perpetuate marginalizing narratives and outcomes and do little to support the humanity of a community, including White members. This book will guide readers towards transformational change to build a system that supports the restoration of our collective humanity.
