Heal the Pain, Comfort the Spirit Dorene O'Hara, M.D.,2016-11-11 Specialists estimate that as many as 60 million Americans suffer from chronic pain, and approximately 20 percent of the population in most

developed countries reports having chronic pain. According to one study, chronic back pain alone afflicts more than four million Americans, and nearly 50 percent of these are disabled by it. Pain is the most frequent cause of disability in the United States, with as many as 50 million Americans on short- or long-term disability leave from work at any one time. As these figures suggest, chronic pain is extremely difficult to treat successfully—it is a complex and baffling phenomenon, poorly understood even in the medical centers devoted to its diagnosis and treatment. In *Heal the Pain, Comfort the Spirit* Dorene O'Hara, an anesthesiologist with extensive training in pain management and clinical pharmacology, explores treatment techniques developed over many years of studying, treating, and lecturing on chronic pain. She also examines the important contributions made by other clinical professionals and by practitioners of alternative medicine. Combining a general survey of the forms of pain therapy with suggestions for how patients can find the most appropriate treatment plan for themselves, *Heal the Pain, Comfort the Spirit* provides needed answers for pain sufferers as well as practitioners.

Comfort in Affliction: a Series of Meditations

James Buchanan,1837

Leadership Unlocked Yan Maschke,2021-02

Overview Even with the best intentions, business leaders find it difficult to make measurable behavior changes to create effective long-term growth. In this book, award-winning executive coach Yan Maschke declares that the most effective leaders use more than just the Mind to reach their full potential. They embrace Embodied Leadership, a leadership approach that actively integrates the holistic intelligence of the Body and Mind to increase leadership effectiveness, impact, and fulfillment. Drawing on 25 years of experience as a corporate executive, management consultant, executive coach, and strategic advisor, Maschke uses her cross-cultural life experience to bring an integrative Mind-Body approach that delivers proven results. By working with the Body and Mind in cultivating their BEING (inner game), leaders can deepen self-awareness. By working with the Body and Mind in cultivating their DOING (outer game), leaders can accelerate real change.

Details This book offers practical applications to address real-life leadership challenges while referencing modern neuroscience and ancient wisdom. In her engaging story-telling style, Maschke highlights eight case studies of successful leaders enhancing their Embodied Leadership. She shows how they used the leadership strategies and practices to become better leaders and happier people. Leaders learn how to connect with their authentic self, develop emotional intelligence, enhance executive presence, drive change, learn impulse control, listen powerfully, think and act strategically, and lead through delegation. Each case study is followed by an Embodied Leadership Practice that can be put into use right away. Filled with artistic illustrations, this easy-to-read business book is designed to delight the eye and can be read in a single sitting, though the concepts and practices will remain with the reader for the rest of

her career. This book is for leaders who are tired of the same old tools and are interested in creative yet proven ways to achieve better leadership results while feeling whole. Leadership coaches may also use this book to build the next generation of high-performing leaders. Whatever your role, this book aims to unlock your full business potential and create a better way to lead.
