Switch Chip Heath,Dan Heath,2010-02-16 Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results: • The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients • The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping • The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect transformative change. *Switch* shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

The Fall of Language in the Age of English Minae Mizumura,2015-01-06 Winner of the Kobayashi Hideo Award, *The Fall of Language in the Age of English* lays bare the struggle to retain the brilliance of one's own language in this period of English-language dominance. Born in Tokyo but raised and educated in the United States, Minae Mizumura acknowledges the value of a universal language in the pursuit of knowledge yet also embraces the different ways of understanding offered by multiple tongues. She warns against losing this precious diversity. Universal languages have always played a pivotal role in advancing human societies, Mizumura shows, but in the globalized world of the Internet, English is fast becoming the sole common language of humanity. The process is unstoppable, and striving for total language equality is delusional—and yet, particular kinds of knowledge can be gained only through writings in specific languages. Mizumura calls these writings texts and their ultimate form literature. Only through literature and, more fundamentally, through the diverse languages that give birth to a variety of literatures, can we nurture and enrich humanity. Incorporating her own experiences as a writer and a lover of language and embedding a parallel history of Japanese, Mizumura offers an intimate look at the phenomena of individual and national expression.

Raising a Bilingual Child Barbara Zurer Pearson,2008-04-15 If you would like your children to experience the benefits of becoming bilingual, but you aren't sure how to teach them a second language, then *Raising a Bilingual Child* is the perfect step-by-step guide for you. *Raising a Bilingual Child* provides parents with information, encouragement, and practical advice for creating a positive bilingual environment. It offers both an overview of why parents should raise their children to speak more than one language and detailed steps parents can take to integrate two languages into their child's daily routine. *Raising a Bilingual Child* also includes inspirational first-hand accounts from parents. It dispels the myth that bilingualism may hinder a child's academic performance and explains that learning languages at a young age can actually enhance a child's overall intellectual development.

The Language of Transition in Leadership Jakob van Wielink,Riet Fiddelaers-Jaspers,Leo Wilhelm,2023-08-24 In this book, the authors utilise their decades of experience in leadership and coaching for change to help leaders develop the necessary skills to lead people and organisations in transition. Combining a scientific and practice-based approach, they show readers how to develop and maintain their own impactful leadership style while creating psychological safety in their teams. Leadership that achieves sustainable results comes from connecting past, present and future. Describing leadership as a journey, the book invites the reader to discover their calling and realise the importance of examining the roots of their leadership, before thinking about its destination. It gives leaders access to a new dimension of unprecedented growth and demonstrates the ways these lessons and skills can transform change into lasting transitions. Accessible and written in a lively style, *The Language of Transition in Leadership* is an important book for leaders and executives. It will also be of interest to coaches, organisational advisors, management consultants, students of leadership and those transitioning into the workforce.

Language Choices Martin Pütz,1997-01-01 This volume concerns various aspects of the theory and application of language conflict phenomena seen from an interdisciplinary perspective. The focus is on linguistic, social, psychological and educational issues (conditions, constraints and consequences) involved in the status and use of languages in multilingual settings. The book is divided into four sections, which deal with: theoretical issues - such as the nature of the concepts of language maintenance; language policy and language planning; attitudes towards languages; and codeswitching and language choice.

Tomboyland Melissa Faliveno,2020 A fiercely personal and startlingly universal essay collection about the mysteries of gender and desire, of identity and class, of the stories we tell and the places we call home. Flyover country, the middle of nowhere, the space between the coasts. The American Midwest is a place beyond definition, whose very boundaries are a question. It's a place of rolling prairies and towering pines, where guns in bars and trucks on blocks are as much a part of the landscape as rivers and lakes and farms. Where girls are girls and boys are boys, where women are mothers and wives, where one is taught to work hard and live between the lines. But what happens when those lines become increasingly unclear? When a girl, like the land that raised her, finds herself neither here nor there? In this intrepid collection of essays, Melissa Faliveno traverses the liminal spaces of her childhood in working-class Wisconsin and the paths she's traveled since, compelled by questions of girlhood and womanhood, queerness and class, and how the lands of our upbringing both define and complicate us even long after we've left. Part personal narrative, part cultural reportage, *Tomboyland* navigates midwestern traditions, mythologies, landscapes, and lives to explore the intersections of identity and place. From F5 tornadoes and fast-pitch softball to gun culture, strange glacial terrains, kink party potlucks, and the question of motherhood, Faliveno asks curious, honest, and often darkly funny questions about belonging and the body, isolation and community, and what we mean when we use words like woman, family, and home.

Childbirth as a Metaphor for Crisis Claudia D. Bergmann,2009-03-13 Crises and catastrophes of all kinds have always confronted humans with great challenges. The present study examines the question of how literary texts process and deal with these challenges through the imaginary world of metaphors. It concentrates on the metaphor of childbirth, which compares people racked with crisis to women in labour (and sometimes vice versa). The texts examined are taken from the Ancient Orient and the Old Testament, together with a text exemplar from the Qumran corpus, which takes up the metaphor of childbirth and develops it further.

106 Mortgage Secrets All Borrowers Must Learn - But Lenders Don't Tell Gary W. Eldred,2007-12-10 The only guidebook that shows you how to finance any property--with or without bank approval Would you like to discover all of the many ways that you can finance real estate? Want to learn

Fully updated, this practical guide explains how today's changing mortgage market really works. Unlike other mortgage guides, this book goes beyond traditional bank-originated loans and shows you how to benefit with seller financing, assumables, subject-to, wraparounds, lease options, foreclosures, and other money-saving possibilities. 106 Mortgage Secrets also protects you from the sharp practices of loan reps that have recently sparked Congressional hearings and multiple state investigations. In addition, Eldred shows how and why the right financing decisions can add tens (and sometimes hundreds) of thousands of dollars to your long-term net worth. With these 106 secrets, you'll build the confidence and the knowledge to: * Increase your borrowing power * Obtain the lowest interest rate * Understand the true pros and cons of ARMs * Cut (or eliminate) the cost of mortgage insurance * Save big with seller financing, assumptions, foreclosures, and REOs * Strengthen your credit profile and credit score * Avoid getting taken... by the fine print and garbage fees * Steer clear of scams and unprincipled loan reps and lenders * Accumulate wealth through homeownership and investment properties Simple, concise, and comprehensive, this book reveals everything property buyers need to know--especially the 106 financing secrets lenders too often omit.

Food and Language Kathleen C. Riley,Amy L. Paugh,2018-08-08 Food and Language: Discourses and Foodways across Cultures explores in innovative ways how food and language are intertwined across cultures and social settings. How do we talk about food? How do we interact in its presence? How do we use food to communicate? And how does social interaction feed us? The book assumes no previous linguistic or anthropological knowledge but provides readers with the understanding to pursue further research on the subject. With a full glossary at the end of the book and additional tools hosted on an eResources page (such as recommended web and video links and some suggested research exercises), this book serves as an ideal introduction for courses on food, language, and food-and-language in anthropology departments, linguistics departments, and across the humanities and social sciences. It will also appeal to any reader interested in the semiotic interplay between food and language.

Assessment and Autonomy in Language Learning C. Everhard,L. Murphy,2015-03-25 This book examines this contested relationship between assessment and autonomy from a number of perspectives in a variety of Higher Education language-learning contexts in Europe and the Far East. The contributors to the book describe research into assessment both for and as autonomy, as well as approaches to the assessment of autonomy itself.

Women Pilgrims in Late Medieval England Susan S. Morrison,2002-11 This thought-provoking book explores medieval perceptions of pilgrimage, gender and space. It examines real life evidence for the widespread presence of women pilgrims, as well as secular and literary texts concerning pilgrimage and women pilgrims represented in the visual arts. Women pilgrims were inextricably linked with sexuality and their presence on the pilgrimage trails was viewed as tainting sacred space.
