Litani River Ian McHarg, 2018-11-20 Litani River is the untold story of No.11 (Scottish) Commando's daring raid behind enemy lines on 9-10 June 1941. The book follows the unit's officers and men from its formation in Galashiels, through arduous commando training on the Isle of Arran, and their voyage to the Middle East. The story climaxes with the unit taking part in the first opposed amphibious landing on an occupied shore by a complete Commando Force. Where they were tasked to attack the enemy from the rear and hold the ground around the Litani River, while the 21st Australian Brigade crossed and advanced to Beirut. The Commando, formed by its indomitable Commanding Officer, Dick Pedder, includes a cast of characters that would go on to become legends of the Second World War including: Geoffrey Keyes VC, Sir Tommy Macpherson MC & Two Bars of the SOE, and Blair 'Paddy' Mayne DSO & Three Bars of the SAS. Divided into three parties, X, Y and Z, they ran into difficulties immediately; in rough seas and with the danger of their landing craft capsizing, the landing was aborted in clear view of the enemy. The second attempt the following night also had its problems, and instead of landing behind the enemy they were landed in front and left with no option but to mount frontal assaults against heavily armed and fortified enemy troops who knew exactly when and from where they were coming. However, despite being out numbered and suffering incredible misfortune and difficulties they were able to hold the line long enough for the Australians to cross the river and continue their advance to Beirut. For their gallantry four Military Crosses, a Military Medal and two Distinguished Conduct Medals were awarded. Litani River tells the story of their hard-fought battle from the words of the men themselves, through official reports, personal recollections, and from a series of interviews and correspondence with surviving members of the Commando.

History of Greek Cinema Vrasidas Karalis, 2012-02-02 The book is a detailed historical survey of Greek cinema from its very beginning (1905) until today (2010).

The Greek Civil War Thanasis D. Sfikas, 2017-07-05 Half a century after the civil war which tore apart Greek society in the 1940s, the essays in this volume look back to examine the crisis. They combine the approaches of political and international history with the latest research into the social, economic, religious, cultural, ideological and literary aspects of the struggle. Underpinned by the use of a wide range of hitherto neglected sources, the contributions shed new light, broaden the scope of inquiry, and offer fresh analysis. Thus far, comparative approaches have not been employed in the study of the Greek Civil War. The papers here redress this imbalance and establish the not always so clear links between Greek and European historical developments in the 1940s, placing the evolution of Greek society and politics in a European context. They also highlight the

complexity and interconnections of the social, economic and political cleavages that split Greek society, and provide a comprehensive and subtle understanding of the origins, course and impact of the Greek Civil War in a variety of contexts and levels. The volume will appeal to those interested in the European history of the 1940s and the origins of the Cold War, in addition to the specialists of modern Greek history and those engaged in the comparative study of civil wars.

The Maid's Version Daniel Woodrell, 2013-08-15 In 1929, an explosion in a Missouri dance hall killed forty-two people. Who was to blame? Mobsters from St Louis? Embittered gypsies? The preacher who cursed the waltzing couples for their sins? Or could it just have been a colossal accident? Alma Dunahew, whose scandalous younger sister was among the dead, believes the answer lies in a dangerous love affair, but no one will listen to a maid from the wrong side of the tracks. It is only decades later that her grandson hears her version of events - and must decide if it is the right one.

Stranger on the Shore Acker Bilk, 2009-02 The famous Acker Bilk song, arranged for B-flat clarinet and piano, complete with guitar chord symbols.

Greece at the Crossroads John O. Iatrides, Linda Wrigley, 1995 A collection of essays by European and American specialists offering new and authoritative analyses of the Greek civil war and its international dimensions. The Greek civil war that broke out at the end of World War II was one of the formative events in the early days of the Cold War. In the fall of 1944, at the moment of liberation from the German occupiers, Greece stood at the &crossroads,& in need of a new constitutional and social order. However, the factions that vied for influence over the state promoted their particular agendas with a vehemence, exclusiveness, and mistrust that destroyed any chance for genuine compromise and reconciliation. The essays collected here represent a systematic attempt to examine the domestic and external forces that were actively involved in the Greek civil war of the late 1940s and that contributed to its resolution. Specifically, they consider the political options available to postwar Greece by identifying the principal actors promoting such options and analyzing their programs, tactics, strengths, and weaknesses. They also highlight the close interaction among domestic, regional, and global levels of conflict and measure the impact of that conflict on the political development of Greece.

The Film in History Pierre Sorlin, 1980 History as it is presented on film. Sorlin appraises the 'historical' film, and their potential roles as documentary evidence and sources of social history.

Gender Stereotyping Rebecca J. Cook, Simone Cusack, 2011-07-19 Drawing on domestic and international law, as well as on judgments given by courts and human rights treaty bodies, Gender Stereotyping offers perspectives on ways gender stereotypes might be eliminated through the transnational legal process in order to ensure women's equality and the full exercise of their human rights. A leading international framework for debates on the subject of stereotypes, the Convention on the Elimination of All Forms of Discrimination against Women, was adopted in 1979 by the UN General Assembly and defines what constitutes discrimination against women. It also establishes an agenda to eliminate discrimination in all its forms in order to ensure substantive equality for women. Applying

the Convention as the primary framework for analysis, this book provides essential strategies for eradicating gender stereotyping. Its proposed methodology requires naming operative gender stereotypes, identifying how they violate the human rights of women, and articulating states' obligations to eliminate and remedy these violations. According to Rebecca J. Cook and Simone Cusack, in order to abolish all forms of discrimination against women, priority needs to be given to the elimination of gender stereotypes. While stereotypes affect both men and women, they can have particularly egregious effects on women, often devaluing them and assigning them to subservient roles in society. As the legal perspectives offered in Gender Stereotyping demonstrate, treating women according to restrictive generalizations instead of their individual needs, abilities, and circumstances denies women their human rights and fundamental freedoms.

Exceptions from EU Free Movement Law Panos Koutrakos, Niamh Nic Shuibhne, Phil Syrpis, 2016-12-15 This collection of essays brings together contributions from judges, legal scholars and practitioners in order to provide a comprehensive assessment of the law and practice of exceptions from the principle of free movement. It aims: – to conceptualise how justification arguments relating to exceptions to free movement operate in the case law of the Court of Justice of the European Union and national courts; – to develop a comprehensive and original account of empirical problems on the application of proportionality; – to explore the legal and policy issues which shape the interactions between the EU and national authorities, including national courts, in the context of the efforts made by Member States to protect national differences. The book analyses economic, social, cultural, political, environmental and consumer protection justifications. These are examined in the light of the rebalancing of the EU constitutional order introduced by the Lisbon Treaty and the implications of the financial crisis in the Union.

Stereotypes and Human Rights Law Eva Brems, Alexandra Timmer, 2016 Stereotypes are beliefs about groups of people. Some examples, taken from human rights case law, are the notions that 'Roma are thieves', 'women are responsible for childcare', and 'people with a mental disability are incapable of forming political opinions'. Increasingly, human rights monitoring bodies including the European and inter-American human rights courts, the Committee on the Elimination of Discrimination against Women, and the Committee on the Elimination of Racial Discrimination voice concerns about stereotyping and warn States not to enforce harmful stereotypes. Human rights bodies thus appear to be starting to realise what social psychologists discovered a long time ago: that stereotypes underlie inequality and discrimination. Despite their relevance and their legal momentum, however, stereotypes have so far received little attention from human rights law scholars. This volume is the first one to broadly analyse stereotypes as a human rights issue. The scope of the book includes different stereotyping grounds such as race, gender, and disability. Moreover, this book examines stereotyping approaches across a broad range of supranational human rights monitoring bodies, including the United Nations human rights treaty system as well as the regional systems that are most developed when it comes to addressing stereotypes: the Council of Europe and the inter-American system.

The Scapegoat Sophia Nikolaidou, 2015-02-03 An engrossing and richly panoramic novel from a major new writer,

based on a true story... In 1948, the body of an American journalist is found floating in the bay off Thessaloniki. A small-time Greek journalist is tried and convicted for the murder...but when he's released twelve years later, he claims his confession was the result of torture. Flash forward to contemporary Greece, where a rebellious young high school student is given an assignment for a school project: find the truth. And as he begrudgingly takes it on, he begins to make a startling series of gripping discoveries--about history, love, and even his own family's involvement. Based on the real story of famed CBS reporter George Polk--journalism's prestigious Polk Awards were named after him--The Scapegoat is a sweeping saga that brings together the Greece of the post-World War II era with the Greece of today, a country facing dangerous times once again. As told by key players in the story--the dashing journalist's Greek widow; the mother and sisters of the convicted man; the brutal Thessaloniki Chief of Police; a U.S. Foreign Office investigator, and, finally, the modern-day student, in the novel's most stirring narration of all--The Scapegoat confronts questions of truth, justice, and sacrifice...and how the past is always with us.

Gender Transformations Sylvia Walby,2003-09-02 The answer of course is both. In this lucid and subtle investigation, Sylvia Walby, one of the world's leading authorities on gender shows how undoubted increases in opportunity for women in Europe and America have been accompanied by new forms of inequality. She charts changes in women's employment, education and political representation and the complex relations between gender, class and

ethnicity, between local conditions and global pressures which together determine the place of women both in the labour market and in the wider social, political and economic world of today. An eagerly awaited successor to Walby's classic *Theorising Patriarchy*, *Transforming Gender* will be essential reading for anyone with an interest in how questions of gender remake and are remade by the social and economic conditions in which they occur.

Women Workers in the Industrial Revolution Ivy Pinchbeck, 2013-10-08 First Published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

A History of Virility Alain Corbin, Jean-Jacques Courtine, Georges Vigarello, 2016 These original essays follow the socio-historical evolution of virility, as opposed to masculinity, to unsettle popular accounts of politics and culture. A major contribution to the nascent field of masculinity studies, this history consults painting, sculpture, literature, philosophy, film, and cultural and sociological critique. With the twentieth century delivering one blow after another to hegemonic virility, this book also explores where manliness might be headed next.
