Managerial Communication Geraldine E. Hynes,Jennifer R. Veltsos,2018-01-20 A Practical, Strategic Approach to Managerial Communication Managerial Communication: Strategies and Applications focuses on communication skills and strategies that managers need to be successful in today's workplace. Known for its holistic overview of communication, solid research base, and

focus on managerial competencies, this text continues to be the market leader in the field. In the Seventh Edition, author Geraldine E. Hynes and new co-author Jennifer R. Veltsos preserve the book's strategic perspective and include new updates to reflect the modern workplace. The new edition adds a chapter on visual communication that explains how to design documents, memorable presentations, and impactful graphics. **Equivocal Communication** Janet Beavin Bavelas, 1990-04 Equivocation, non-straightforward communication which includes messages that are ambiguous, indirect, contradictory or evasive, is highlighted as an important phenomenon in this volume. The authors show how equivocation can be measured with a scaling method that offers an objective assessment of the amount and kind of equivocation that exist in a message and which can be used in a variety of research programmes. Several hundred experiments, with a wide range of subjects - from children to politicians - support the theory that equivocations occur only in situations where all direct messages would lead to negative consequences, and that communication is dependent more on

situations than on individuals.

**More Than Words** Richard Dimbleby,Graeme Burton,1992 **More Than Words** provides an introduction to both communication theory and practice. The authors cover the basics of communication, including communication between individuals, between groups, in organizations, and through the mass media and new technologies. The book provides a structured approach to the subject and a source of reference, with examples of the application of ideas, short practical activities, resource lists and a glossary of terms. The second edition has been fully revised and updated to take into account new developments in communication and media studies: it contains an expanded section on practical communication and media skills, writing skills, designing leaflets and producing audio and video material, including scripting and planning. It is illustrated with new models and photographs and has checklist summaries for easy revision purposes.
