Hewitt,2010-02-21 Use your Windows computer to its
full potential in your ministry! Church leaders
know that ministry demands time, energy,
creativity, passion, and commitment. Windows PCs
in the Ministry helps instruct time-constrained
ministers to better and more efficiently use a
tool you already have: your computer. The book
provides tips and direction on: Preparing your
sermons with online tools and Bible software.
Creating presentations and accompanying visuals
with multimedia tools. Publishing your sermons and
blogs online and on DVDs. Connecting with your
congregants and other colleagues in ministry.
Using Social Networking, such as Twitter, for more
dynamic community outreach. The ministry of the
church has not changed over the centuries, but the
methods and tools to accomplish ministry have.
Windows PCs in the Ministry shows readers how to
harness the programs they already have while
making recommendations on new resources, helping
church leaders in nearly every aspect of their
ministries.

   Leading Change in a Web 2.1 World Jackson Nickerson,2013-09-25 Recent advances in Web 2.0 technology enable new leadership processes and guidelines that can create great value for organizations. In this important new book—the first title in the new Brookings series on Innovations in Leadership—management expert Jackson Nickerson proposes a combination of processes and guidelines utilizing Web 2.0 technology, which he refers to as Web 2.1, that will not only lead and direct change in an organization but actually accelerate it. He calls this set of processes and guidelines "ChangeCasting," and it should be an important part of any organization's leadership toolkit. Leading Change in a Web 2.1 World provides fresh insights into why people and organizations are so difficult to engage in change. It explains how web-based video communications, when used in accordance with ChangeCasting principles, can be a keyway to building trust and creating understanding in an organization, thereby unlocking and accelerating organizational change. Nickerson introduces us to two Fortune 1000 firms facing dire economic and competitive circumstances. Both CEOs attempted extensive organizational change using web-based video communications, but one used ChangeCasting while the other did not—Nickerson details how

4

ChangeCasting produced positive financial results for the former. He also discusses how ChangeCasting principles were used so successfully by the Barack Obama presidential campaign in 2008. The insights presented here will be invaluable to business executives, public officials, students of management and organizations, and anyone who needs to take organizational change from the drawing board to successful implementation and replication.
