 Flexible Viruses Vladimir Uversky,Sonia Longhi,2012-02-07 This book provides up-to-date information on experimental and computational characterization of the structural and functional properties of viral proteins, which are widely involved in regulatory and signaling processes. With chapters by leading research groups, it features current information on the structural and functional roles of intrinsic disorders in viral proteomes. It systematically addresses the measles, HIV, influenza, potato virus, forest virus, bovine virus, hepatitis, and rotavirus as well as viral genomics. After analyzing the unique features of each class of viral proteins, future directions for research and disease management are presented.
 Life Strategies Phillip McGraw,2011-06-08 Take a good hard look at your life. Are there things you are unhappy with? Your life is your responsibility; the choices you made yesterday brought about the life you have today. If you don't like what you have, then get ready to act and move on. Life Strategies gives powerful, straightforward advice on shaping your life and tells you how to make dramatic changes. Whether it's a bad relationship, a dead-end career, or a harmful habit, Dr McGraw helps you wake up and get out of your rut. It is never too late to take charge of, and be responsible for, your life.

 Membrane Biogenesis Doron Rapaport,Johannes M. Herrmann,2016-08-23 Membrane proteins and membrane lipids form complex interactive systems that are highly dynamic and able to be studied only by combinations of different in vivo and in vitro techniques. In Membrane Biogenesis: Methods and Protocols, experts in the field present a broad collection of methods to study the biogenesis and function of cellular membranes. Beginning with how membrane lipids or membrane proteins can be studied, this detailed volume continues with sections covering different procedures to investigate the interaction of membrane proteins among each other or with membrane lipids, methods to study the biogenesis of membrane proteins and the dynamics of organelles, as well as protocols for the analyses of the functions or complex organization of membrane proteins. Written in the highly successful Methods in Molecular BiologyTM series format, chapters include introductions to their respective topics, lists of materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls. Extensive and easily applicable, Membrane Biogenesis: Methods and Protocols provides readers with a comprehensive but still concise collection including both basic protocols of rather general application and more specialized methods for specific and novel techniques.
 Against Expression Craig Dworkin,Kenneth Goldsmith,2011-01-17 Charles Bernstein has described conceptual poetry pregnant with thought. Against Expression, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative, and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts, information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language. --Book Jacket.
 Audiovisual Translation Jorge D  az Cintas,G. Anderman,2008-12-19 An introduction by leading experts in the field to the fascinating subject of translating audiovisual programmes for the television, the cinema, the Internet and the stage and the problems the differences between cultures can cause.
 Joint Declaration on the Doctrine of Justification Lutheran World Federation,Catholic Church,2000 This volume presents in English the official Joint Declaration on the Doctrine of Justification, confirmed by the Lutheran World Federation and the Roman Catholic Church in Augsburg, Germany, in October 1999. The result of decades of Lutheran-Roman Catholic dialogue, this primary document represents an ecumenical event of historical significance. Included in the volume are the Joint Declaration on the Doctrine of Justification and the Official Common Statement with its Annex. These texts are recommended for careful study in seminaries and parishes and for reading by individual Christians. It is hoped that the Joint Declaration will deepen understanding of the biblical message of justification and also serve to further reflection within the wider ecumenical movement.

 Beyond the Feminization Thesis Patrick Pasture,Jan Art,Thomas Buerman,2012 Case studies upon the use of concepts like feminization and masculinization in relation to Christianity. Since the 1970s the feminization thesis has become a powerful trope in the rewriting of the social history of Christendom. However, this 'thesis' has triggered some vehement debates, given that men have continued to dominate the churches, and the churches themselves have reacted to the association of religion and femininity, often formulated by their critics, by explicitly focusing their appeal to men. In this book the authors critically reflect upon the use of concepts like feminization and masculinization in relation to Christianity.
